

FISH PROGRAM
Grass Carp Stocking Recommendation

Name of Applicant Jeff Shario

Name of Water Private Pond

Area Fish Biologist Recommendation

Approve X Deny

Comments:

Final approval of the Fish Transport Application/Permit cannot be granted until a Determination of Non-Significance has been issued. The site has been visited by a WDFW fish biologist. The pond is fed by groundwater and intermittent surface runoff from uphill. Maximum surface inflow through a small irrigation pipe (10-inch diameter) do not exceed 1 inch deep. There is no outlet. No additional screening is necessary to prevent outmigration of stocked fish. Only triploid grass carp obtained from a Washington State certified vendor that are at least 8 inches long will be approved.

Justin Spinelli (Regional Fish Biologist)

WASHINGTON DEPARTMENT OF FISH AND WILDLIFE
Application for Planting Triploid Grass Carp

RECEIVED

AUG - 2 2013

WA DEPT OF FISH & WILDLIFE

- 1. Name of Applicant or Organization Jeff Schario
- 2. Address 6924 229th PINE Day Phone: 206.947.3802
- 3. Name of Lake or Pond to be Planted: Schario's Pond
- 4. County: King Township: 25N Range: 6 Section: 10

Note: A photocopy of a county map showing rivers and streams at the proposed planting location MUST be provided with this application.

- 5. Size of lake or pond (1 acre= 208 X 208 ft.) 1/2 acre Max Depth (ft) 3 1/2 - 4'
 - 6. Does this pond or lake have public access provided by the city, county, state or federal government or other publicly owned municipality? YES NO
- (Answer "NO" for golf course, sewage treatment or fish culture ponds and power or irrigation canals).
If you answered "NO", go to #8**
- 7. If you answered "YES" to number 6, are the results of a Lake Restoration Feasibility Study included?
YES NO

If you answered "YES" go to # 10 and skip #11.
If you answered "NO", a permit cannot be issued until the standards for a lake restoration study have been met. Please contact your local WDFW regional office to proceed with this study.

- 8. Total number of waterfront property owners: 1
- 9. Number of waterfront property owners that support 1 or oppose _____
Proposed planting of triploid grass carp.

Note: The names, addresses and phone numbers of all waterfront property owners and whether or not they support the proposed grass carp introduction MUST be provided with this application.

Waterfront owners = applicant: Jeff Schario 6924 229th PINE, Redmond WA 98053

- 10. Have all outlets and/or inlets been screened? YES NO *(Pond has no inlets or outlets)*
If you answered "NO" you must apply for a Hydraulic Project Approval (HPA) before installing screens. **The Department of Fish and Wildlife will not issue a permit to plant triploid grass carp into waters with unscreened outlets.** If the proposed lake or pond is greater than 20 acres, other permits from the county of jurisdiction may be required to install screens. Please contact your Department of Fish and Wildlife Regional Office for additional direction on this requirement.

11. Please draw a map of the lake or pond as close to scale as possible on the attached sheet. Draw in vegetation types that are present. This map will assist our biologists in determining how many fish to plant into your pond or lake.

Signature of Applicant Jeff Schario Date Aug 1, 2013

MAP OF LAKE OR POND

Please include distribution of each vegetation type. Irrigation and power canal applicants need only provide estimated acres of each plant type.

Please use the space below to draw a map of your water as close to scale as possible. Also draw in the approximate areas that are covered by each type of plant and properly label each. Plant coverage estimates should be made in July or August or from your best recollection of that time period.
