Hello Ms. Costello,

Thank you for your comments regarding the Stolp Obstruction Removal Project, **File # 15-024**.

I met with Belsby Engineering (Authorized Agent) to go over SEPA comments received and WDFW's permitting concerns and needs.

I provided a copy of Ecology's SEPA comments with the Authorized Agent and asked them to work directly with DOE to address your agency's concerns and potential permitting needs.

Through the WDFW Hydraulic Project Approval process, I shall seek to address Ecology's concerns to ensure any potential adverse impacts to the aquatic environment are addressed.

Thank you again.

Jason Kunz
