Subject: RE: DNS 15-052: METHOW FOREST REHABILITATION – BEAR CREEK
Date: Tuesday, November 03, 2015 9:15:13 AM

Dear Ms. O'Neal,

Here is our reply to comment from our fuels management specialist:

"

I was not aware that we need to address burn permits & burn plans in a SEPA document. Of course we will have a burn plan and request a burn permit and follow all legal requirements included in Washington State Smoke Management Implementation Plan.

Tom Leuschen
Fire Management Specialist
Okanogan County Wildlife Areas

Re: DNS 15-052: METHOW FOREST REHABILITATION – BEAR CREEK

Dear Ms. Wood,

Thank you for the opportunity to comment. The Washington Department of Natural Resources has the following concern.

The Environmental Checklist Page 5, B.2.a. Mentions smoke management, but there is no mention of needing an approved burn permit which may need a burn plan.

If you wish to discuss this comment please contact: Kevan Roberts – (509)-684-7474

Sincerely

Elizabeth L O'Neal
