Subject: RE: SEPA 16-2249 - Potlatch State Park Culvert Replacement & Channel Realignment - Comments
Date: Wednesday, May 18, 2016 10:26:06 PM

Chris,

Thank you for your comments on the Potlatch State Park Culvert Replacement & Channel Realignment project. I wanted to follow up with the conversation we had regarding your comments. We will be sure take the erosion control measures that you have suggested. We will not be clearing, grading and/or excavating an area that is one or more acres and discharges stormwater to surface waters of the State. The total disturbed area will be 0.96 acres. This project is not part of a larger common plan of development or sale. This project will not be discharging stormwater to waters of the State. For these reasons we do not need to obtain a Construction Stormwater General Permit. If you have any additional questions please contact me.

Thank you,

Melissa Erkel

Importance: High

Ms. Wood,

Attached are Ecology's comments for the Potlatch State Park Culvert Replacement & Channel Realignment Project (Ecology SEPA No. 16-2249). This is the original final copy. Comments are due today 5/18/16.

Please reply to this message for confirmation.

Please use the correct acronym "ECY" for the Department of Ecology (DOE is US Department of Energy).

Sonia Mendoza
