GUIDELINES FOR COMPLETING REPORT OF ANIMALS TAKEN UNDER A SPECIAL TRAPPING PERMIT

PROCEDURES:

Permit number: Entered from the permit for which you are reporting wildlife taken.

Permittee information: Enter the same information that was recorded on your permit under PERMITTEE.

K]X]Z taken: Enter the common name of the species taken, the number of animals authorized on your permit, the number of animals taken, and the number of animals remaining by subtracting the number taken from the number authorized. Disposition for targeted species may be relocated, euthanized, or none (Euthanized would also be used for animals taken in a Conibear-type trap or a drowning set). If a non-targeted animal was taken, indicate whether it was released or it could not be released.

Requesting renewal of permit: Mark **YES** if the animal problem has not been alleviated through the use of the permit and you are requesting renewal of the permit for an additional 30 day period. You will need to complete the **Justification for Renewal**.

Mark **NO** if the animal problem has been alleviated through the use of the permit or is just no longer needed.

Justification for Renewal: This section must be completed if you marked **YES** for renewal. Your justification should include the type of the animal problem that is continuing in spite of your efforts, damage that continues and the extent of damage, and the extent of damage that will be experienced if the permitted activities are not continued.

APPLICANT CERTIFICATION: To be signed by the applicant if requesting renewal of a permit.

APPROVAL: To be signed by WDFW staff when permit renewal is requested.
