

SITE NUMBER: H-R6-05

LOCAL NAME: Unnamed

WRIA:

NORTH COAST OFF CHANNEL SITE INVENTORY DATA

RIVER SYSTEM: Hoh River **DATE:** 8/11/87 **OBSERVER:** Young/Nettnin

CHANNEL TYPE: Wall Base

TRIBUTARY TO: Hoh R.

SITE LOCATION: RB @ River Mile - 12.3

UPPER END LOWER END POND
WATER TEMP.: No Temp. or D.O. data taken at this time.

FLOWS (CFS): Standing water only.

SITE SIZE: **Length-** 200 m
 Width- 8-15 ft
 Depth- 2-6 in

WATER SOURCE: Groundwater

DIRECTIONS TO SITE: West on Oil city road for approx. 1.3 miles. H-R6-04 crosses Oil city road just west of the access road to the Anderson farm. approx. 300 m below Oil city road. Channel is located on left bank of trib. no. **H-R6-04**.

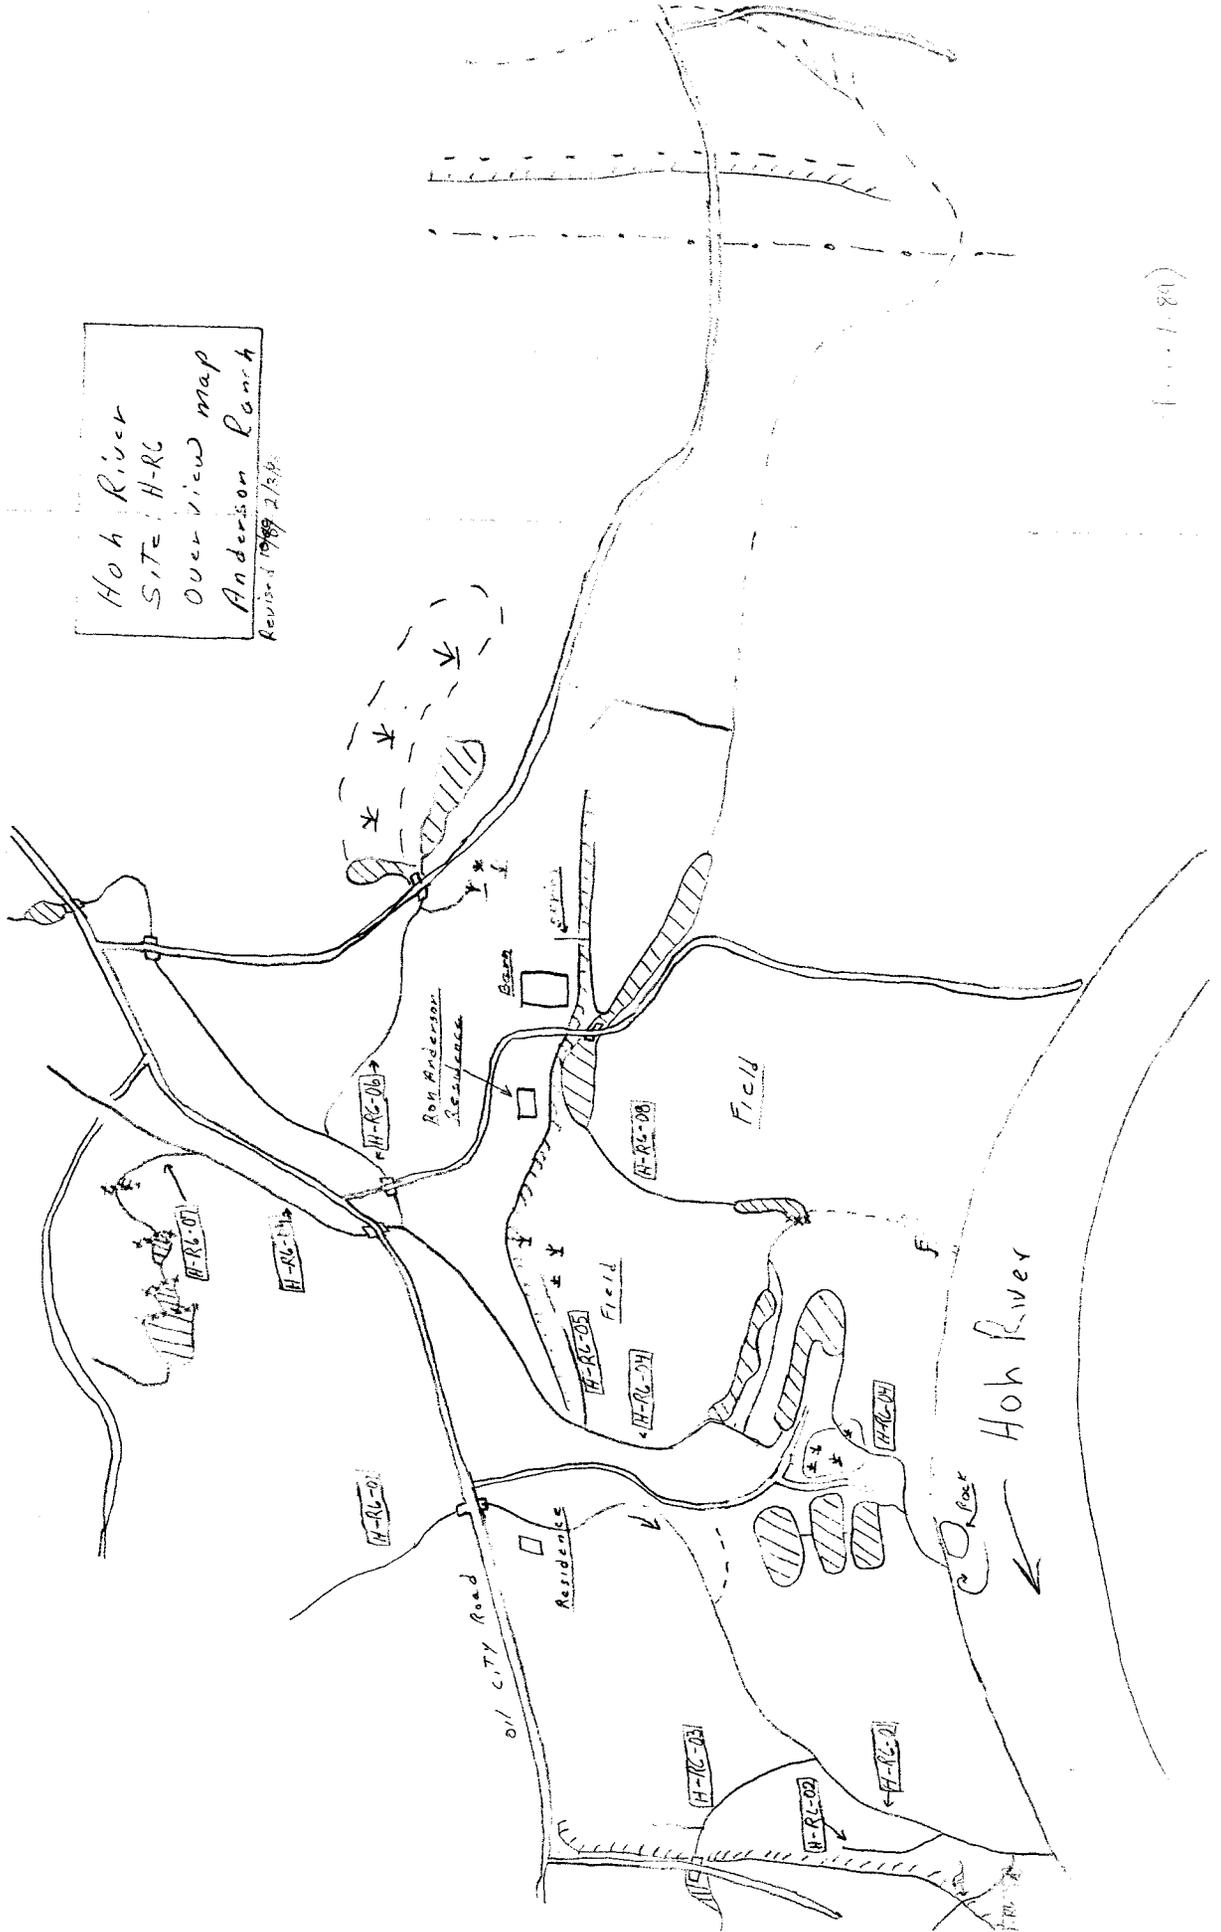

FISH ACCESS AND CURRENT USE: Questionable. May provide overwintering habitat depending on the water level in **H-R6-04**.

FLOODING POTENTIAL: Low

LANDOWNER: Anderson?

COMMENTS & RECOMMENDATIONS: This channel is located at the base of the second terrace. During the winter, water from this channel appears to flow directly into trib. no. **H-R6-04**. The ground in this channel is currently saturated. There is knee deep mud in places. Currently, the lower 55 m of this channel is dry with standing water above that point.
