

**SITE NUMBER:** WD-150R-01

**LOCAL NAME:** Unnamed

**WRIA:**

**NORTH COAST OFF CHANNEL SITE INVENTORY DATA**

**RIVER SYSTEM:** W.F. Dickey

**DATE:** 4/7/94

**OBSERVER:** Nettnin

**CHANNEL TYPE:** Upper valley wall trib.

**TRIBUTARY TO:** Sands Creek

**SITE LOCATION:** RB @ RM 1.0 (Field Meas.)

**LEGAL DESCRIPTION:** NE¼, SW¼, SEC 10, TWP 30 N, RNG 14 W

	<b><u>UPPER END</u></b>	<b><u>LOWER END</u></b>	<b><u>SAND CR. TEMP</u></b>
<b><u>WATER TEMP:</u></b>	8.5° C	8.5° C	8.0° C

<b><u>FLOW (CFS):</u></b>	1 - 2	1 - 2
---------------------------	-------	-------

**SUBSTRATE TYPE:** Gravel/rubble

**SITE SIZE:**  
**Length-** 400 m  
**Width-** Water surface = 1 - 2 m  
Channel = 2 - 3 m  
**Depth-** 5 - 10 cm

**WATER SOURCE:** Springs and valley wall tribs.

**DIRECTIONS TO SITE:** Go north from Forks on Hwy 101 about 8.4 mi. then turn left at the Lake Pleasant Grocery Store (0.4 mi. north of MP 200) onto Lake Pleasant Rd. Stay on the main road going past the community park and across the Lake Cr. bridge. Turn right and continue up the county road (along the N.W. shore of the lake) to the end of the pavement. This road then becomes the 9000 line. Continue on the 9000 for 16.5 mi. to a gate (just past the jct of the D-5000, an R-2 key is required to get through the gate. The key can be acquired at the Rayonier Inc office). Continue through the gate for 0.8 mi. to a stream crossing. This is WD-150R-01.

**FISH ACCESS AND CURRENT USE:** Fish have access to this stream if they can get past the partial barriers in Sands Cr. Fish were observed in Sands Cr. above the confluence with WD-150R-01. Appears to be more suitable for trout than coho. Sculpins were observed.

**FLOODING POTENTIAL:** High flows are apparent.

**LANDOWNER:** Unknown at this time probably DNR and Rayonier Inc.

**COMMENTS & RECOMMENDATIONS:**

- Moderate gradient up to the 9000 line. Did not survey above the road.
- An old debris flow at about 100 m is a problem at certain flows.
- Alder canopy provides good shade.
- Woody debris piles form partial barriers.
- Maintain the integrity of the stream.
