DIRECTIONS TO SITE: Go north from Forks on Hwy 101 about 8.4 mi. then turn left at the Lake Pleasant Grocery Store (0.4 mi. north of MP 200) onto Lake Pleasant Rd. Stay on the main road going past the community park and across the Lake Cr. bridge. Turn right and continue up the county road (along the N. W. shore of the lake) to the end of the pavement. This road then becomes the 9000 line. Continue on the 9000 for 16.5 mi. to the jct of the D-5000, turn left onto the D-5000 for 2.1 mi. to the an unmarked road to the left that leads up to a rock pit (0.2 mi), bear right driving around the rim of the rock pit. About 0.8 mi. beyond the pit stop at a short grown up spur. Off the end of this spur is WD-R4-01. The road from the pit also goes on through to the D-5230.

FISH ACCESS AND CURRENT USE: Fish have open access to the toe of the valley wall. No fish were observed.

FLOODING POTENTIAL: The channel to the toe of the valley wall is susceptible to back water flooding. Some signs of high velocities in the lower 30 m.

LANDOWNER: Unknown probably, Rayonier Timberlands or DNR

COMMENTS:

- The channel was revisited three weeks later and the lower portion was dry; there had been two weeks of dry weather.
