

# Sport Fishing Rules Pamphlet Corrections

May 1, 2012 through April 30, 2013

Last updated **March 27, 2013**

## Westside Rivers (Updated March 27, 2013)

P. 58 Toutle River, South Fork (Lewis Co.) The selective gear and internal combustion motor prohibited rules are incorrectly listed for this section from mouth to 4100 Rd. Bridge. The correct gear restrictions ended March 15 when the All Game Fish season ended.

## Coastal Rivers (Updated June 5, 2012)

P. 29 Chehalis River (Grays Harbor/Thurston/Lewis counties) The selective gear rules requirement is incorrect for these sections:

- From mouth to Highway 6 Bridge in town of Adna
- From Highway 6 Bridge in town of Adna to high bridge on Weyerhaeuser 1000 line approximately 400 yards downstream from Roger Creek.

The correction to this rule is the removal of the selective gear rule requirement for these sections.

P.30 Wynoochee River (Grays Harbor/ Jefferson counties) The selective gear rules requirement is incorrect for the section from WDFW White Bridge Access Site to 7400 Line Bridge above mouth of Schafer Creek.

The correction to this rule is the removal of the selective gear rule requirement for this section.

P.30 Wynoochee River (Grays Harbor/ Jefferson counties) The section from WDFW White Bridge Access Site to 7400 Line Bridge above mouth of Schafer Creek is missing “All Species” regulations.

The correction is that this regulation should read “All species –August 16 through November 30: single-point barbless hooks required. September 16 through November 30: bait prohibited.”

P.31 Blooms Ditch and Salmon Creek (Thurston County) The fishing area for these waters are missing.

The correction is that the fishing areas for Blooms Ditch and Salmon Creek should read “from mouth to I-5.”

### **Eastside Lakes** [\(Updated June 1, 2012\)](#)

P. 92 Northwestern Reservoir (Klickitat/ Skamania counties) This entry is incorrect. The correction is that Northwestern Reservoir should be removed from the pamphlet because it no longer exists.

### **Eastside Rivers** [\(Updated June 6, 2012\)](#)

P. 78 Mill Creek (Walla Walla County) The All Species regulations incorrectly list a season from September 1 through October 31.

The correction is that the All Species regulations are year-round. The regulation should read “All species –Barbless hooks required. Selective gear rules. Internal combustion motors prohibited.”

### **Puget Sound and Strait Rivers** [\(Updated September 13, 2012\)](#)

P. 43 Skykomish River (Snohomish County) The section from Gold Bar/ Big Eddy Access (Highway 2 Bridge) to confluence of North and South forks has an incorrect start date for fishing from any floating device prohibited from 1,000 feet downstream of the Reiter Ponds outlet to 1,500 feet upstream.

The correction is that the regulation should state, “All Species --**June 1** through February 15, fishing from a floating device is prohibited from 1000 feet downstream of Reiter Ponds outlet to 1500 feet upstream.

P.46 Carbon River (Pierce Co.) From the mouth to Voights Creek, there is a season overlap for Other Game Fish and All Game Fish that results in conflicting rules for daily bag limits and minimum size. The All Game Fish rule is listed correctly. The correct season for Other Game Fish is Sept. 1 through Nov. 30.

P. 46 White (Stuck) River (Pierce County) The section from R Street Bridge to Highway 410 Bridge at Buckley does not state that there is a closed waters section.

The correction is that the following regulation should be added to this section, “Closed waters: Puget Power canal, including the screen bypass channel, above the screen at Dingle Basin.”

P.47 Nisqually River (Pierce County) The internal combustion motors prohibited requirement for the section from Alder Reservoir upstream including Little Nisqually, Mineral Creek, and north fork Mineral Creek, and all other tributaries of Alder Reservoir is incorrect.

The correction to this rule is the removal of the internal combustion motors prohibited requirement for this section.

P. 50 Skokomish River (Mason County) The section from the mouth to Highway 106 Bridge incorrectly allows retention of chum from September 16 through September 30.

The correction is that the regulation should state “Release chum.”

**Westside Lakes** (Updated August 22, 2012)

Pioneer Ponds (tributary to Stillaguamish River) (Snohomish County) is not listed in the pamphlet. Their location is in the City of Arlington adjacent the Stillaguamish Valley Pioneer Museum, 20722 67th Ave NE.

The correction is that Pioneer Pond is closed waters.

## Let's Get Kids Hooked on Fishing

For some of us, the start of a new fishing season brings back memories of our first fishing trips. Those days we spent as kids out on the water with parents, grandparents or close friends helped us develop a passion for fishing, as well as the great outdoors.

Nowadays, fishing and other outdoor activities face more competition for youth's attention than ever. Young people are spending more time indoors on the internet and playing video games instead of outdoors exploring their natural environment.

But, with your help, we believe we can change that.

There has never been a better time to take your children or grandchildren – and maybe even their neighborhood friends – out for a day of kid-friendly fishing, particularly on one of the thousands of lakes in Washington.

This year, we have stocked many of those waters with larger fish. In fact, three million trout averaging 11-13 inches in length, two to three inches longer than last year, have been stocked in lakes on both sides of the Cascades.

Those fish will join millions of other trout that were stocked last year and have grown to catchable size in lakes around the state. Many of those lakes have also been stocked with triploid and jumbo trout weighing 1½ to 11 pounds apiece. And since children 14 years of age and younger fish for free, spending a day at the lake is a low cost way for families to get outdoors together.

WDFW also has teamed up with businesses, organizations and volunteers from all over Washington to provide fishing opportunities for children on specific dates. These youth-only fishing events take place at lakes that have been stocked with thousands of trout prior to the event.

We encourage you to take your children, grandchildren or another young person out to one of the 19 youth fishing events, which are listed on WDFW's website. They are a great way to introduce youth to fishing and build enthusiasm for that next fishing trip.

So take some time this year to pass our fishing heritage on to younger generations. Fishing is not only an excellent way to connect with family and friends, but it will also give today's youth an appreciation of the natural world that we will leave in their hands.

### STATEWIDE RULE CHANGES

#### Stream Strategy

- **Coast** - With the success of the Puget Sound Stream Strategy and the aim of continuing to offer more protection to juvenile salmonids rearing in our streams, the more conservative stream management strategy has been put in place in all streams that drain to the Coast. The basic premise is to close all rivers, streams, and beaver ponds to fishing except as listed in the Rules Pamphlet. Beginning on page 22 you will find the full explanation of these changes, including a map of the watersheds affected and an alphabetical listing of streams. The remaining Westside rivers and all of the eastside rivers are listed in the conventional format and still fall under the standard first Saturday in June through October game fish season, unless otherwise noted.
- **Puget Sound** - Additional areas where there are not anadromous concerns have been opened for fishing.

**Additional Two-Pole Opportunities** - Sections of the Spokane and Pend Oreille rivers have been added to the Two-Pole Endorsement. Anglers purchasing the endorsement are allowed the use of two poles on these river sections.

**Puget Sound Sturgeon** - Two retention seasons for Puget Sound white sturgeon have been implemented to June 1 through June 30 and September 1 through October 15 because of concern that migrating Fraser River and Columbia River populations of white sturgeon are susceptible to mortality in the Puget Sound recreational fishery, and harvest from this fishery has increased in the past few years.

**New Catch Record Card Code for Sturgeon in Lakes** - White sturgeon are present in small numbers in several lakes in the state. A new catch record card code, 900, has been established for use when a sturgeon is harvested from a lake without a specific assigned catch area code.

**Lingcod Spearfishing** - The minimum size limit has been removed for lingcod spearfishing in Marine Catch Areas 5 through 11 and 13. The maximum size limit for lingcod is 36 inches.

For more information on rule changes, check online at:  
[http://wdfw.wa.gov/fishing/regulations/rule\\_proposals](http://wdfw.wa.gov/fishing/regulations/rule_proposals)

### SALMON

**Two-Pole Opportunities for Salmon** - Anglers will be able to fish with two poles if they possess a Two-Pole Endorsement in a number of areas this year including: Baker Lake, Tulalip Terminal Area (a portion of Marine Area 8-2), Willapa Bay (Marine Area 2-1), some areas and tributaries of the Columbia River, and some areas of the Cowlitz, Wind, and Little White Salmon (Drano Lake) rivers.

**Columbia River Sockeye** - A healthy forecast of sockeye bound for the upper Columbia River is expected to provide a number of sockeye angling opportunities in the Columbia River upstream of Pasco. See Page 74 for details.

**Baker Lake Sockeye** - Sockeye fishing will be allowed beginning July 1 in Baker Lake this year. We suggest anglers check for the latest sockeye abundance information at: [http://wdfw.wa.gov/fishing/salmon/sockeye/baker\\_river.html](http://wdfw.wa.gov/fishing/salmon/sockeye/baker_river.html)

**Skagit River Sockeye** - Bank and boat anglers: get ready! The Skagit River from the Hwy. 536 Bridge at Mount Vernon to the mouth of Gilligan Creek will be open for sockeye fishing. Check page 39 for details.

**Section of Green River Closed** - The Green River from the Auburn-Black Diamond Road Bridge to the mouth of Cristy Creek (at Flaming Geyser State Park) is closed to all fishing September 16 through October 31 to protect spawning Chinook salmon.

**Chehalis River Spring Chinook Fishery** - Two months of Spring Chinook fishing are planned for May 1 through June 30 from the mouth (Hwy. 101 Bridge in Aberdeen) to the Hwy. 6 Bridge in Adna. See page 29 for details.

**Marine Area 2-2 (Grays Harbor)** - Anglers will be allowed to retain 1 Chinook as part of their 3 salmon daily limit from September 16 through October 7.

**Additional "Hooknose Coho" Opportunity in Marine Area 5 (Sekiu and Pillar Point)** - Anglers fishing in Area 5 will be allowed to retain wild coho during the month of October this year. See page 105 for details.

**Mark-Selective Chinook Fisheries in Marine Area 6 (East Juan de Fuca Strait)** - Winter season is now open from December 1 through April 10 with a 2 hatchery Chinook daily limit. See Page 107 for details.

**Skokomish River and Marine Area 12 (Hood Canal)** - A combination of season reductions and mark-selective fisheries were implemented to achieve management objectives for Skokomish River Fall Chinook.

## Help Save Salmon!

### *Volunteer with a Regional Fisheries Enhancement Group*

Regional Fisheries Enhancement Groups (RFEs) are non-profit, community-based organizations dedicated to enhancing salmon populations. The 14 RFEs share the unique role of working within their own communities across the state to recover salmon. Volunteers learn about salmon habitat, plant trees, count returning salmon, perform habitat assessments, conduct water quality monitoring, teach others, and much more. If you would like to learn more about how you can help salmon through the RFE program, please go to the WDFW website at: <http://wdfw.wa.gov/about/volunteer/rfeg/>

## Sportfishing Rule Development for 2013-2014

The next Sportfishing Rule development process begins in the spring of 2012. Please see our website at <http://wdfw.wa.gov> for additional information. The website will have information on the schedule, how you can participate, and the types of rule changes we will be considering.

### Interested in working with us?

WDFW's goal is to support and facilitate efforts to attract, develop and retain a productive and diverse workforce capable of delivering quality services under our mandate (RCW 77.04.012). For more information, please visit our website at <http://wdfw.wa.gov/employment>.

### The Land and Landowners

A true resource enthusiast respects the land and demonstrates this respect and appreciation while in the field. Remember to obtain permission from the landowner before entering upon his or her land to hunt or fish. While in the field, conduct yourself in a way that will ensure a welcome to those who follow after you. **Please Do Not Litter!**

**REMEMBER: A fishing license is not a license to trespass on private property!**

### Wildlife Area Users and Hydraulic Project Approval Applicants

WDFW is developing two Habitat Conservation Plans (HCP) for species listed under the federal Endangered Species Act. One plan will cover activities that require a Hydraulic Project Approval issued by the agency and the other HCP will cover recreational activities occurring on WDFW Wildlife Areas.

Find out more about how this could affect your use of the Wildlife Areas and the Hydraulic Project Approval program and how you can be involved. [http://wdfw.wa.gov/lands/wildlife\\_areas/hcp](http://wdfw.wa.gov/lands/wildlife_areas/hcp) and <http://wdfw.wa.gov/licensing/hpa/hcp>.

# General Information

## Unlisted Lakes, Ponds, and Reservoirs

There are over 7,500 lakes, reservoirs, and ponds (excluding beaver ponds), in Washington State waters unlisted within this pamphlet, that are open to fishing for game fish (except DOLLY VARDEN/BULL TROUT and GRASS CARP) **year-round**.

These year-round fishing opportunities are regulated under the Statewide Freshwater Rules as listed on pages 16-17 with the following **exceptions**:

- seasonal waters listed under Lake Special Rules pages 59-69, and 85-95
- waters within tribal reservation lands
- waters within national park boundaries (not national forests)
- within boundaries of federal military installations

## Note About Lakes

If a lake is owned by a municipality such as a city or county, they have the authority to implement restrictions such as Electric Motors Only, No Motors Allowed, Night Closure, etc. For more information regarding any of these possible restrictions, you may want to contact the County's Department of Parks & Recreation or Sheriff's office before fishing.

## License Suspensions and Property Forfeitures

Washington State's Fish and Wildlife Enforcement Code (Revised Code of Washington Chapter 77.15) requires the **mandatory** suspension of a person's fishing privileges, for up to five years, if a person is convicted of one of the following violations:

- assaulting a Fish and Wildlife Enforcement Officer, or an employee or agent of the Department performing official duties
- first degree waste of fish and wildlife
- harvesting endangered fish or wildlife
- unlawfully purchasing or using a license

In addition, repeat offenders (any person with three convictions for any kind of violation within ten years) receive a mandatory two-year suspension of all fishing and hunting privileges. The law treats an uncontested notice of infraction, a bail forfeiture (payment of the fine on a citation), or a guilty plea as a conviction that will be counted. You will permanently lose your fishing and hunting privileges if you hunt or fish on a suspended license or demonstrate a willful or wanton disregard for the conservation of fish or wildlife. Furthermore, property that is used to violate any fishing and hunting regulations, or that is held with the intention of committing a violation, may be seized for evidence and may ultimately be forfeited to the state.

## Heightened Security

After the events of September 11, 2001, security has been heightened around the nation. Please be aware that there are 500-yard Naval Vessel Protective Zones around all naval vessels. Also, most military installations on the water have exclusionary zones around them. Consult <http://www.navcen.uscg.gov> or the local base commander or Coast Guard office for more details.

## Fish Tagging

The Washington Department of Fish and Wildlife has released millions of Chinook and coho salmon with microscopic coded-wire tags implanted in their heads. The majority of coded-wire tags are implanted in hatchery fish at the juvenile stage, before release from the hatchery. These fish are eventually caught in fisheries, sampled on spawning grounds or used for broodstock when they return to the hatchery. WDFW samplers use electronic wands to detect the coded-wire tags, which provide fishery managers and biologists with information about fishery distribution, survival and composition of spawning ground population.

Several state and federal agencies (including WDFW), universities and Indian tribes also have released salmon, steelhead and sea-run cutthroat trout with small acoustic tags in their body cavities. These tags transmit signals that are picked up by special receivers, allowing fishery managers to track the fish. Anglers who find a tag while cleaning their catch should call (360) 902-2700 to report the tag number, species of fish, date and location of their catch.

## Boat Safely and Live to Fish Again

The Washington Department of Fish and Wildlife supports and encourages safe boating, and urges anglers to be careful and responsible on Washington's waterways. Recreational fishing accounts for about half of this state's boating fatalities. WDFW reminds anglers to always wear U.S. Coast Guard approved lifejackets, understand and be alert for weather and tide changes, carry all required safety equipment, and never "push your luck" when it comes to safety on the water. If you have never taken a boating safety course, contact the U.S. Coast Guard Auxiliary, U.S. Power Squadrons, or Washington State Parks Boating Program, for information on mandatory education classes and home-study courses. Visit (<http://www.parks.wa.gov/boating>) or call (360) 902-8500.

### Additional Boat Safety Information

Federal law (33 CFR 83.09) requires, fishing vessels and all vessels less than 66 feet (20 meters) from impeding the passage of a vessel that is restricted in ability to maneuver safely in a narrow channel (for example, large commercial vessels transiting the Columbia River or Strait of Juan de Fuca navigation channels). The small vessel operator is responsible for moving out of the way. Failure to move is dangerous, and can result in a maximum civil penalty of up to \$5,000.

## Prohibited Aquatic Species

It is illegal to transport, introduce, or use prohibited aquatic animal and plant species, unless specifically authorized. WDFW encourages citizens to be vigilant in preventing the introduction or spread of prohibited and other non-native species. To report sightings and learn more about what you can do, please call toll free 1-888-WDFW-AIS. For more information on Aquatic Invasive Species, go to <http://wdfw.wa.gov/ais>.

## Public Conduct Rules on WDFW Lands WAC 232-13

As the number of users and types of use continue to increase on WDFW lands, the new rules provide a fair and sensible approach to protecting both fish and wildlife habitats and recreational values consistent with healthy wildlife populations.

These rules, which only apply on WDFW lands, are now in effect. The complete public conduct rule package is available on WDFW's website at [http://wdfw.wa.gov/lands/public\\_conduct\\_rules/](http://wdfw.wa.gov/lands/public_conduct_rules/). Although some conduct rules remain in place and have not changed, the new WAC chapter compiles them in one location for easy reference.

The rules address behavior and conduct, parking, camping, campfires, dumping and littering, target shooting, fireworks, pets, building blinds and tree stands, access, commercial and noncommercial use, and enforcement.

A Washington State fishing guide license qualifies as a permit to use WDFW water access sites for the purpose of guiding licensed anglers.

With the new public conduct rules in place, WDFW public lands will continue to provide safe, beautiful wildlands for all users to enjoy now and in the future.

Thank you for  
your help!

**Saltwater License:** Allows you to fish in saltwater areas only (optional catch record card included; catch record card requirements on page 8).

**Shellfish/Seaweed License:** Allows you to harvest razor clams, red rock, coastal Dungeness crab, goose barnacles, mussels, octopus, oysters, scallops, sea cucumbers, sea urchins, shrimp, softshell and hardshell clams, squid, and seaweed. No catch record card is required.

**1-3 Day Combination Licenses:** These short-term licenses work just like a combination license. They are NOT valid for game fish (see: page 17) for the 8-day period beginning the fourth Saturday in April, unless you are an active duty resident military personnel. These licenses must be used on consecutive days.

**Razor Clam License:** This license (available as an annual or 3-day temporary license) allows you to harvest razor clams. You do not need this license if you already have a shellfish/seaweed or combination license. No catch record card is required.

**Puget Sound Dungeness Crab Endorsement:** This endorsement can be added to a Combination or Shellfish/Seaweed license for a fee of \$8.25 and allows you to harvest Puget Sound Dungeness crab (a \$3.30 fee will allow you to add this endorsement to a 1-3 Day Combination License). Separate catch record cards are required and come free with the endorsement (see: catch record card requirements on page 8). There is no fee for juveniles age 14 and under but the endorsement is still required.

**Columbia River Salmon and Steelhead Endorsement:** All anglers 15 and older fishing for salmon or steelhead on the Columbia River or its tributaries must have this endorsement. Check stream listings in special rules identified with **Col. R. Salmon/Steelhead Endorsement** or see [http://wdfw.wa.gov/licensing/crss\\_endorsement](http://wdfw.wa.gov/licensing/crss_endorsement) for map. Not required on Free Fishing Weekend.

**Two-Pole Endorsement:** This endorsement allows you to use two fishing poles on most freshwater lakes, ponds, a few sections of certain rivers, and a few marine areas. You must have a fishing license in addition to the endorsement. There are about 145 lakes where you can NOT use two poles; visit <http://wdfw.wa.gov/licensing/twopole> to see the list of lakes where a Two-Pole Endorsement is not valid, or look for this icon  next to the lake listings. You can NOT use two poles in most rivers and marine areas. See individual stream and marine area listings for information where you can use two poles. Not required on Free Fishing Weekend.

\*There are three areas where anglers may legally fish with either a freshwater, saltwater, or combination license. These are Grays Harbor (Marine Area 2-2), Willapa Bay (Marine Area 2-1), and the Columbia River between a line from Rocky Point on the Washington shore to Tongue Point on the Oregon shore and the Buoy 10 line.

### Why do you need my social security number?

Federal and state law require everyone 15 and older to provide their social security number before getting any license.

### What's a catch record card and do I need one?

You use a catch record card (CRC) to track how many salmon, steelhead, sturgeon, halibut, or Puget Sound Dungeness crab you have harvested. You must have the CRC on your person while fishing (including youth).

## Free Fishing Weekend

June 9-10, 2012, is "Free Fishing Weekend" in Washington. On those two days, fishing licenses are not required. Catch Record Cards are required to fish for salmon, sturgeon, steelhead, Puget Sound Dungeness crab, and halibut. Free fishing days are valid for everyone. **All other rules still apply, including seasons, area and lure or bait restrictions, and size and catch limits.** A Vehicle Access Pass, Columbia River Salmon/Steelhead Endorsement, and Two-Pole Endorsement is not required during this weekend. **Each year, the Free Fishing Weekend will be the first weekend in June, after the first Monday in June.**

## Reduced Fees Persons with Disabilities

You may qualify for reduced fees if you are a:

- Resident veteran with a service-connected disability of 30% or more
- Resident veteran 65 years of age or older with a service-connected disability
- Resident who permanently uses a wheelchair
- Resident who is blind or visually impaired
- Resident with a developmental disability

These and other permanent disabilities may be qualifiers for a Designated Harvester Card, which allows another licensed person to help you fish.

You will need to complete a Disability Application (and provide any supporting documentation) in order to qualify for reduced fees or a Designated Harvester Card. Applications must be processed through a Department of Fish and Wildlife office.

**To request an application or for more information, contact:** WDFW Licensing Division, 600 Capitol Way N, Olympia, WA 98501-1091; call (360) 902-2464; or visit us on the web at <https://fishhunt.dfw.wa.gov>.

## Washington State Fishing Guide Licenses

Commercial use of WDFW land requires a permit. A Washington State fishing guide license qualifies as a permit to use WDFW water access sites. For more information about rules governing conduct on WDFW land, see WAC 232-13 or contact the Wildlife Program at (360) 902-2515.

## Vehicle Access Pass

You must clearly display a Vehicle Access Pass (VAP) to park a vehicle at all posted WDFW wildlife areas and water access sites. The VAP must be visible from outside the vehicle (they can be placed on the dash or hung from the rear-view mirror) and can be switched between two vehicles. You can get a rear-view mirror hanger from your local license dealer. VAPs are free with an annual Combination, Saltwater, or Freshwater license. For a list of locations requiring the VAP, visit [http://wdfw.wa.gov/lands/wildlife\\_areas/](http://wdfw.wa.gov/lands/wildlife_areas/) or visit a WDFW regional office.

## Access to State Recreation Lands

The Discover Pass is your ticket to millions of acres of state lands managed by WDFW, the Washington State Department of Natural Resources, and Washington State Parks. Your purchase of a Discover Pass helps to keep recreation access open on these state lands. The Discover Pass can be switched between two vehicles.

You don't need a Discover Pass to hunt and fish on WDFW-managed lands. When you purchase a hunting or fishing license, you also receive a complimentary Vehicle Access Pass that gives you access to hunt and fish on WDFW-managed lands.

However, to hunt on many DNR-managed lands and to fish on DNR-managed lands AND state parks, you will need a Discover Pass. (Hunting is not allowed in state parks.)

Learn more about when and where you need a Discover Pass and how to purchase the pass at [www.discoverpass.wa.gov](http://www.discoverpass.wa.gov).

The Discover Pass is just \$30 per year or \$10 for a day-use pass. (Transaction fees may apply)

[www.discoverpass.wa.gov](http://www.discoverpass.wa.gov)

## Fishing Contests

**Adult** - An adult fishing contest exists when six or more licensed anglers (15 years old and above) fish competitively for game fish (i.e., trout, bass, walleye, etc.) and determine winners, regardless of the prize value. A permit is required.

**Juvenile** - A juvenile fishing event is restricted to anglers 14 years old and under. A juvenile fishing event exists when 10 or more juveniles fish competitively for game fish (i.e., trout, bass, walleye, etc.) and determine winners, regardless of the prize value. Approval to conduct a juvenile fishing event must be obtained from the WDFW regional office in the region in which the event will occur.

Adult fishing contests or juvenile fishing events that target food fish (i.e., salmon, sturgeon, halibut, etc.) do not need a permit and do not need to notify the agency.

For more information, or to request an application for a permit to conduct a fishing contest, contact the WDFW Fish Program at (360) 902-2700. There is a \$24 application fee.

## Youth Fishing

WDFW strongly supports and promotes youth fishing. Everyone 15 years of age and older must have a license. Children 14 years of age and under do not require a license, but they must actively participate and be able to demonstrate the ability to handle the gear by themselves. They must follow all the rules and restrictions for that particular species and/or body of water, and are allowed the same daily limit as an adult. Adults may assist and are not required to have a license if they will not be fishing/harvesting themselves, but children must be present and take part in the entire process.

# Catch Record Cards

The Catch Record Card is an important management tool for estimating the recreational catch of sturgeon, steelhead, salmon, halibut, and Puget Sound Dungeness crab. A catch record card must be in your possession to fish for these species. **Washington Administrative Code (WAC 220-56-175, WAC 220-69-236) requires all kept sturgeon, steelhead, salmon, halibut, and Puget Sound Dungeness Crab to be recorded on your Catch Record Card, and requires all anglers to return their fish Catch Record Card by April 30, or for Dungeness crab by the date indicated on the card, even if nothing is caught or you did not fish.** Please use the instruction sheet issued with your card. Please return Catch Record Cards to: WDFW CRC UNIT, 600 Capitol Way N, Olympia WA 98501-1091. Use examples below to help complete card correctly. **DO NOT RECORD RELEASED CATCH.** For Catch Record Card Information call (360) 902-2707.

At the end of the fishing trip, or prior to moving to a new marine area, enter the total number of check marks in the **CRAB KEPT PER DAY** column. The number should equal the number of checkmarks on that line.

**A \$10.00 penalty will be added to the cost of your next Puget Sound crab endorsement if you fail to either return your cards by mail or report your catch information on the Internet (<https://fishunt.dfw.wa.gov>) by the deadlines printed on the card.**

# Statewide General Rules\*

## Harvest and Possession Rules

### You May Not:

Fish in closed waters.

Retain wild STEELHEAD or DOLLY VARDEN/ BULL TROUT except where specially authorized in the special rules.

Retain a GREEN STURGEON.

Take, fish for, or possess PACIFIC LAMPREY, WESTERN BROOK LAMPREY, or RIVER LAMPREY, or use any species of LAMPREY for bait.

Harvest in freshwater any fish not classified as a food fish or game fish except for NORTHERN PIKE.

Fish for PYGMY WHITEFISH, MARGINED SCULPIN, or OLYMPIC MUDMINNOW.

Fish for, or harvest fish or shellfish in an area with catch in your possession that does not meet the rules of that area. However, you may pass through such an area without stopping to fish. Also, you may catch fish in one area and land them at a port in a different area even if that different area is closed or has different rules, except HALIBUT (see page 98). See below for Canadian-caught fish.

Intentionally waste fish or shellfish. This includes mutilating or clipping fins and then returning to the water any live fish (such as DOGFISH).

Use SALMON, HERRING, or HALIBUT for anything other than human consumption or fishing bait.

Continue to fish for SALMON after the adult portion of the daily limit has been retained.

Fish for (unless authorized by Special Rules) or harass fish within 400 feet downstream of a man-made dam, fish ladder, or other obstruction, or in rearing, holding, or passage facilities.

Harvest any part of another person's daily limit, except for persons who possess a Designated Harvester Card.

Chum (broadcast feed) to attract game fish unless authorized by Special Rules.

Trespass on private property.

Remove eggs from a salmon to use or preserve them for bait without retaining the carcass from which the eggs were removed.

### You May Not:

Possess fish or shellfish that do not meet the minimum and maximum size limits, weight limits, or sex restrictions, or that are in excess of the daily or possession limit.

Possess STURGEON eggs in the field without having retained the intact carcass of the fish from which the eggs were removed.

Possess another person's game fish unless it is accompanied by a statement showing the name, address, license number, date, county, and area where it was taken, and the signature of the angler who harvested it.

Possess DOLLY VARDEN/BULL TROUT in the field in such condition that the species and total length cannot be determined.

Hold recreationally-caught fish or shellfish in storage by a custom canner, hotel or restaurant, or a cold storage plant without tags listing the name and address of the owner of the fish or shellfish.

Transport live fish without a permit.

### You May:

Clean or portion fish or shellfish while in the field with the following exceptions: It is unlawful for an angler to fail to retain proof of compliance with species, size, number, weight, sex, or wild or hatchery origin restriction, if such restrictions apply, until the angler is ashore and has finished fishing for the day. For all ROCKFISH species and for fish with a length restriction, anglers must retain the fish carcass until coming ashore to comply with the above rule. This does not apply if the catch is in the process of being prepared for immediate consumption.

Use a rodholder.

Leave your rod in a rodholder while playing or landing a fish if the rod can be easily removed from the holder.

Use an electric powered reel attached to a pole.

Use a downrigger if the line releases from the downrigger while playing or landing the fish.

## Gear Rules

### You May Not:

Snag or attempt to snag fish.

Use a net, except a dip net to land legally-hooked fish or a forage fish dip net.

Use drugs, explosives, or poison that may kill or injure fish and wildlife.

Use any type of chemical irritant to harvest fish, shellfish, or unclassified marine invertebrates unless a special exception has been made by the Director.

Fish with a rod not under your immediate control, or leave your gear unattended.

Fish for SALMON, STURGEON, OCTOPUS, or CRAB in saltwater with underwater spearfishing gear.

Fish for game fish, SALMON, SHAD, STURGEON, or SHELLFISH with bow and arrow or spear.

Use a gaff hook, except to land legally-hooked HALIBUT, TUNA, or DOGFISH shark that will be retained.

Use a HERRING rake or a SMELT rake.

Use a crossbow to harvest fish or shellfish.

### You are Required to:

Cooperate with data collection or other sampling of fish, SHELLFISH or SEAWEED upon request of Department of Fish and Wildlife personnel. This includes relinquishing any part of a SALMON, STEELHEAD, or other species of fish containing coded-wire tags.

Stop at mandatory check stations established by the Department of Fish and Wildlife.

Show fish, SHELLFISH, and SEAWEED in your possession and required licenses, Catch Record Cards, and gear being used, upon request of a Fish and Wildlife officer.

Fill out your Catch Record Card immediately upon retaining SALMON, STEELHEAD, HALIBUT, or STURGEON. For Puget Sound DUNGENESS CRAB, fill out immediately when fishing from a boat or dock, or upon returning to shore when wading or diving.

Return your Catch Record Card when you are done fishing or by the date printed on your card, even if nothing was caught.

## Fish and Shellfish Caught in Canada

It is lawful to possess Canadian-origin fish or SHELLFISH if you have a Canadian license and salmon conservation stamp (for SALMON), except it is unlawful to possess Canadian-origin yelloweye or canary rockfish.

There are special rules for Canadian HALIBUT and SALMON. If you only fish in Canada, contact the Department of Fisheries and Oceans (DFO) or visit their website at [www.dfo-mpo.gc.ca](http://www.dfo-mpo.gc.ca) for updated Canadian regulations. If you fish for HALIBUT in Washington, the daily limit is one HALIBUT, and the possession limit is two HALIBUT, regardless of where they are taken. No more than one daily limit of HALIBUT may be possessed aboard the fishing vessel.

It is unlawful to possess in marine waters or land into Washington any fresh salmon taken for personal use from Canadian waters unless such salmon meet current salmon regulations for the Catch Record Card area where the salmon are landed, unless you physically clear Customs in Bedwell Harbour, Sydney, Ucluelet, Victoria, or White Rock, and get your Customs clearance number at the port. If you are in possession of salmon that would be unlawful if taken in Washington, you may not fish in Washington waters.

You may **not** land both a Canadian and a Washington limit of salmon on the same day (one or the other, but not both).

## Buying and Selling Fish & Shellfish

You may not offer any recreationally-caught fish or shellfish for sale or barter.

In order to buy, sell, or possess STEELHEAD, sea-run CUTTHROAT, or DOLLY VARDEN/ BULL TROUT lawfully taken by a treaty Indian member: the fish must be accompanied by a written statement showing taker's name, address, tribal affiliation, and treaty fish identification card number, number of fish, date, and location where taken. This rule does not apply to treaty members nor to game fish purchased from a fish buyer licensed by the Department of Fish and Wildlife.

# FISHING OPPORTUNITY DEPENDS ON CAREFUL HANDLING OF FISH

**Dehooker  
(not a gaff hook)**

## SELECTIVE FISHING

Selective fisheries for hatchery-produced fish and catch-and-release fisheries are increasingly important to providing recreational fishing opportunities in Washington. To ensure these fisheries are successful, it is absolutely essential that participating anglers comply with all regulations and take great care in releasing unmarked fish to ensure the greatest chance for survival.

## HOW TO RELEASE FISH

When you need to release a fish, there are some special precautions you can take to give it the best chance of surviving:

- Minimize handling by leaving the fish in the water.
- Do not net your fish – but if you must, use a soft, knotless net or rubber mesh net. Knotless nets are now required in fly-fishing only areas and freshwater areas with selective gear rules.
- Use a hook remover (dehooker) when hooks are imbedded in the mouth or jaw.
- If a fish has swallowed the hook, cut the leader.
- Keep fingers away from the eyes and gills of the fish.

Photo shows the proper technique of releasing a fish with a dehooker without bringing the fish aboard the vessel.

## SALMON and TROUT HANDLING RULES

**FRESHWATER:** “It is unlawful to totally remove salmon, steelhead, or Dolly Varden/Bull Trout from the water if it is unlawful to retain those fish, or if the angler subsequently releases the salmon, steelhead, Dolly Varden/Bull Trout.”

**MARINE AREAS 5 through 13:** “It is unlawful to bring wild salmon or a species of salmon aboard a vessel if it is unlawful to retain that salmon” (“aboard” means inside the gunwale of a vessel).

**MARINE AREA 2-2:** “It is unlawful to totally remove salmon from the water if it is illegal to retain those fish, except anglers fishing from boats 30 feet or longer as listed on either their state or Coast Guard registration, are exempt.”

# Washington Department of Fish and Wildlife & Northwest Tribal Treaty Fishing Rights

There are 29 federally-recognized tribes in Washington, 21 of which have off-reservation hunting and fishing rights secured by federal law. Three additional tribes outside of Washington also have off-reservation treaty rights within Washington. Washington tribes also have hunting and fishing rights within their reservations.

The State of Washington and Indian tribes both manage activities with respect to many of the same resources including salmon, steelhead, shellfish, marine fish, and wildlife species. The long-term health of these resources depends on the state and the tribes working cooperatively to identify objectives and manage our respective activities to meet common goals.

The government-to-government relationship between WDFW and tribes is established through federal law, the Washington Centennial Accord and a history of cooperation in developing joint management agreements related to fish and wildlife. Notable examples of court decisions that provide the legal foundation for the cooperative management relationship between WDFW and the Indian tribes include U.S. v. Washington, U.S. v. Oregon, Hoh v. Baldrige, and Settler v. Lameer. Some of these rulings may be viewed online at: <http://www.ccrh.org/comm/river/table.htm>.

The state and the tribes each have a set of responsibilities and rights that must be respected. WDFW has the responsibility for protecting, preserving, and perpetuating fish and wildlife within the boundaries of the state. It has authority to carry out that responsibility by regulating fishing and hunting. This responsibility must be exercised consistent with federal law, including treaties reserving tribal fishing and hunting rights. Tribes have the authority to regulate their members' exercise of federally secured rights, including the treaty right of taking fish at usual and accustomed fishing places. Tribal authority is exercised in conformity with provisions of the applicable federal law.

WDFW and the tribes consult through a variety of co-management forums to resolve issues and jointly develop more than 50 management agreements for fish, shellfish and wildlife.

State-tribal agreements include conservation objectives, catch accounting procedures, data sharing requirements, enforcement needs, and a commitment to meet each other's resource management objectives. WDFW also collaborates with tribes in intergovernmental forums on salmon recovery planning, forest practices rules, environmental permitting, and addressing the impacts of hydroelectric projects.

WDFW is committed to working with tribes to meet our shared conservation and management objectives to secure the long-term health of the fish and wildlife of the state.

# Statewide Freshwater Rules

## Using Freshwater Rules

### 1 • • • • • Read:

The Statewide Freshwater Rules and Statewide Freshwater Species Rules. Determine seasons and general rules applying to the species for which you intend to fish. Remember to check for emergency rules, which can be found by calling the WDFW Fishing Hotline at (360) 902-2500, by contacting statewide customer service at (360) 902-2700, or by visiting the WDFW website at <http://wdfw.wa.gov>.

### 2 • • • • • Choose:

The location you are going to fish and check that area for Special Rule listings. Special Rules are divided into six areas: Coastal Rivers, Puget Sound and Strait Rivers, Westside Rivers, Westside Lakes, Eastside Rivers, and Eastside Lakes. **RIVERS** lists rivers, streams, and beaver ponds. **LAKES** lists lakes, ponds, and reservoirs. For the purposes of this pamphlet, the COLUMBIA AND SNAKE RIVERS are rivers (not reservoirs), and any special rules that apply are listed in the Eastside Rivers section. See map below for additional information.

### 3 • • • • • If your area is listed in a Special Rules section:

Read Special Rules Instructions on the bottom of page 16. If your area is NOT listed in the Special Rules for Westside Rivers, Eastside Rivers, Westside Lakes, and Eastside Lakes (**pages 53-95**), then all the Statewide Rules apply. In the Puget Sound, Strait, and Coastal Rivers sections **ALL** unlisted areas are **CLOSED**.

### 4 • • • • • The following terms are used frequently in the Special Rules:

*Catch-and-release, Chumming, Daily Limit, Fly Fishing Only, Juvenile Only, Landlocked Salmon Rules, Minimum Size (min. size), Maximum Size (max. size), Night Closure, Anti-Snagging Rule, Selective Gear Rules, Internal Combustion Motors Prohibited, Release wild STEELHEAD, Release wild CHINOOK, Release wild COHO, and Release wild CUTTHROAT. Definitions can be found on pages 10-11.*

## Puget Sound and Strait of Juan de Fuca

# Statewide Freshwater Rules

## Tackle

Hook and line angling only. Barbed or barbless hooks may be used, and a hook may be single-point, double, or treble, but not more than one line with up to three hooks per angler may be used.

Single-point barbless hooks are required in areas designated as "fly fishing only" or "selective gear rules."

All fishing gear must be kept in immediate control and may not be left unattended while fishing. Rodholders may be used, but the rod must be easily removed without delay; rod may be left in holder while playing the fish.

A club or dipnet may be used to assist landing a legal fish taken by legal gear. A gaff hook may not be used.

It is unlawful to possess a fish taken from freshwater that was not hooked inside the mouth or on the head. The head is defined as any portion forward of the rear margin of the gill plate.

## Bait Rules

It is unlawful to chum or broadcast any substance to attract game fish.

Where use of bait is prohibited, or where lures or flies are used voluntarily, game fish may be caught and released until the daily limit is retained. If any fish has swallowed the hook or is hooked in the gill, eye, or tongue, it should be kept if legal to do so.

It is unlawful to possess or use live aquatic animals as bait, except:

1. Live aquatic animals (other than fish) collected from the water being fished.
2. Live sand shrimp.
3. Live forage fish in the Columbia River downstream of the Rocky Point/Tongue Point line.

## Areas/Seasons

The following rules and seasons apply **unless listed otherwise in the Special Rules**. For all game fish and SALMON, the Special Rules show **ALL** of the fishing opportunities for each freshwater area listed.

**Unlisted rivers, streams, and beaver ponds fall under statewide rules except the Puget Sound, Strait, and Coastal Rivers.**

**All freshwater areas are CLOSED to the harvest of any fish not classified as a food fish or game fish (see definitions page 10) except for NORTHERN PIKE.**

**Freshwater areas are open 24 hours per day when open.**

All FRESHWATER areas are **CLOSED** to fishing for SALMON, DOLLY VARDEN/BULL TROUT, GREEN STURGEON, LAMPREY, and GRASS CARP unless listed as open in Special Rules. Fishing for COMMON CARP, SHAD, or forage fish (unless specifically noted in Special Rules) is open only during open game fish or SALMON seasons.

**WHITE STURGEON** Open during game fish or SALMON seasons (unless specifically noted in the Special Rules) except Puget Sound tributaries. In Puget Sound tributaries: Catch and release allowed only during open game fish or SALMON seasons; retention is allowed only from June 1-June 30 and Sept. 1-Oct. 15 (unless specifically noted in the Special Rules).

**LAKES, PONDS, and RESERVOIRS** are open to fishing for game fish (except DOLLY VARDEN/BULL TROUT and GRASS CARP) **year-round** unless listed otherwise in Special Rules.

**RIVERS, STREAMS, and BEAVER PONDS** that drain into Puget Sound, the Strait of Juan de Fuca, and the coast are **CLOSED** to fishing unless listed as open. See pages 22 and 35 for complete information.

**RIVERS, STREAMS, and BEAVER PONDS** that do not drain into Puget Sound, the Strait of Juan de Fuca, and the coast are **OPEN** to fishing for game fish (except DOLLY VARDEN/BULL TROUT and GRASS CARP) the first Saturday in JUNE-OCTOBER 31.

## Sturgeon

Catch Record Cards are required statewide. **Annual WHITE STURGEON limit is 5 fish even if the angler holds both a Washington and Oregon license. GREEN STURGEON may not be retained.** In Columbia River waters forming the boundary between Washington and Oregon, STURGEON anglers may continue to fish (catch-and-release) after a daily or yearly limit has been retained.

Only one single-point barbless hook and bait is allowed when fishing for STURGEON. In the field, eggs must be retained with intact carcass of fish from which they came. **Night closure in effect for all STURGEON (except Chehalis River).** Any STURGEON not to be retained must be released immediately. Oversized STURGEON cannot be removed totally or in part from the water.

**STURGEON** caught from lakes, rivers, or streams **without** catch record card codes should be entered on the catch card with code **"900"**.

**Tagged STURGEON:** Do not remove tags from fish not of legal size or not to be retained, but record: tag number and color, date, location of catch, fish length, your name and address. If fish is retained, remove tag and send with above information to the address below.

**WDFW Region 5 Office (Vancouver)**

## "Open Listings"

An "open" listing does not authorize anglers to trespass on private property (which often includes the bed of the stream) or reservation lands. Please respect private property and reservation boundaries by contacting the land owner before entering these waters. The Lummi Indian Reservation is CLOSED to fishing.

**REMINDER: A fishing license is not a license to trespass on private property.**

## Special Rules Instructions

The Special Rules (pages 22-95) list freshwater areas where the Statewide Rules have been modified.

Unless otherwise listed in the Special Rules, you must follow the Statewide Rules.

For all game fish and salmon, the Special Rules show **ALL** of the fishing opportunities for each freshwater area listed.

The terms **"All Game Fish"** and **"Other Game Fish"** include the Game Fish species on the definitions pages, except DOLLY VARDEN/BULL TROUT and GRASS CARP.

The term **TROUT** includes: **STEELHEAD, BROWN, CUTTHROAT, TIGER, RAINBOW, LAKE, GOLDEN, and EASTERN BROOK TROUT; GRAYLING; KOKANEE; and LANDLOCKED ATLANTIC, COHO, AND CHINOOK SALMON.**

County references after lakes or streams are noted to make it easier to locate the waters listed, or to differentiate between two places with the same name. They do not mean that the rules apply only to the portion of water in that county.

In the Special Rules "motors prohibited" mean that fishing from a floating device equipped with a motor is prohibited. "Internal combustion motors prohibited" means that fishing from a floating device equipped with an internal combustion motor is prohibited. "Equipped with" means the motor is attached to the floating device, regardless of whether the motor is in the water.

In the Special Rules, all seasons for named lakes in Grant and Adams Counties apply to inlet and outlet streams. In Grant, Adams, Okanogan, and Douglas Counties, you may fish up to the base of all man-made dams

or other obstructions (in listed and unlisted areas), except Zosel Dam.

Lakes with this icon have a public boat ramp.

Lakes with the below icon are excluded from the Two-Pole Endorsement.

Rivers annotated with: **Col. R. Salmon/Steelhead Endorsement**, require a Columbia River Salmon and Steelhead Endorsement when fishing for salmon or steelhead.

# Eat Fish? Advice from the Washington Department of Health

The American Heart Association recommends eating fish at least twice a week as part of a healthy diet. Fish are high in protein, low in saturated fat, nutritious, and rich in omega-3 fatty acids - the building blocks for a healthy heart and brain. To balance the health benefits in fish, with risks associated with chemical contaminants that accumulate in fish (such as mercury, PCBs and DDT), eat a variety of fish, and choose fish low in contaminants. For more information about healthy choices visit [www.doh.wa.gov/fish](http://www.doh.wa.gov/fish) or call (877) 485-7316.

## State and County Fish Advisories Consumption Advice

The following advice is for anyone concerned about contaminants in fish, but is especially important for women who are or might become pregnant, nursing mothers, and young children. If you eat the recommended amount stated for a specific waterbody - no other fish should be eaten that week or month. Meal size for an adult (160 lb.) is 8 oz. and a child (80 lb) is 4 oz. uncooked fish.

**Healthy Tip:** Prepare fish the following way to reduce your exposure to PCBs and other contaminants\* that collect in the fat of fish:

- Remove the skin, organs, and visible fat before cooking
- Grill, broil, or bake the fish
- Let fat drip off during cooking
- Do not use fat for gravy or sauces
- Eat a variety of fish, consume younger, smaller fish (within legal limits)

\* Mercury collects in the fillet (muscle), not the fat of the fish, and is not reduced by preparing this way.

# BROOK TROUT, BULL TROUT OR DOLLY VARDEN ?

**Why you should care.**

Bull trout and Dolly Varden are native to Washington waters and are listed as threatened under the Endangered Species Act. Eastern brook trout are imported from other states and can negatively impact bull trout and Dolly Varden. All three species look very much alike and often live in the same waters. Eastern brook trout may be harvested in most waters, but bull trout/Dolly Varden harvest is limited to a few select waters (see special rules for details). Here's how to tell them apart.

## Eastern Brook Trout

Black spots or "worm tracks" on dorsal fin.

## Dolly Varden/Bull Trout

No distinct spots on dorsal fin.

The dorsal fin is the key to telling them apart. If the dorsal fin has black spots or "worm tracks," it's a brook trout. If the dorsal fin is clear or olive colored, with no distinct spots, it's a bull trout or Dolly Varden.

So remember, in waters that are closed to harvest of bull trout:

**No black, put it back!**

To report illegal activity, please call: 1-800-477-6224

# Coastal Rivers - Special Rules

With various fish populations across the state being listed under the Endangered Species Act, WDFW must provide as much protection as possible for all life stages of these populations, in particular for rearing juveniles. Prior to this year, the standard stream rule opened rivers, streams, and beaver ponds to fishing for game fish from the first Saturday in June – October 31, with an 8" minimum size, 2 fish/day limit. Consequently, much of the juvenile rearing habitat for resident trout and Dolly Varden and anadromous salmon, steelhead, cutthroat, and Bull Trout were open for fishing. As a result, these juvenile salmonids were at risk of being incidentally caught and may not have survived being handled and released, especially if bait was used.

In 2012 we adopted a new management strategy that offers additional protection to stocks in streams draining into coastal waters north of the mouth of the Columbia River. The basic rule in these waters is that all rivers, streams, and beaver ponds are **CLOSED** to fishing unless they are listed in the following tables in this Coastal River section of the pamphlet (see pages 24-34). These tables detail **ALL** of the fishing opportunity in these drainages. Areas open to fisheries are presented by river system, unless the waters drain directly to salt water. All other waters in these drainages are closed to fishing. We have provided a map (below) of these watersheds to get you started on locating an area where you would like to fish. There is also an alphabetical list of open areas (see following page and special rules). Remaining westside rivers (including Columbia River and tributaries), and all eastside rivers, are listed in the conventional format and still fall under the statewide seasons, unless otherwise noted.

# Puget Sound and Strait Rivers - Special Rules

With various fish populations across the state being listed under the Endangered Species Act, (most recently Puget Sound steelhead) WDFW must provide as much protection as possible for all life stages of these populations, in particular for rearing juveniles. Currently, the standard stream rule opens rivers, streams, and beaver ponds to fishing for game fish from the first Saturday in June – October 31, with an 8" minimum size, 2 fish/day limit. Consequently, much of the juvenile rearing habitat for resident trout and Dolly Varden and anadromous salmon, steelhead, cutthroat, and Bull Trout is currently open for fishing. As a result, these juvenile salmonids are at risk of being incidentally caught and may not survive being handled and released, especially if bait is used.

In 2010 we adopted a new management strategy that offers additional protection to stocks in streams draining into Puget Sound or the Strait of Juan de Fuca. The basic rule in these waters is that all rivers, streams, and beaver ponds are closed to fishing unless they are listed in the following tables in the Puget Sound and Strait Rivers section of the pamphlet (see pages 37-52). These tables detail ALL of the fishing opportunity in these drainages. Areas open to fisheries are presented by river system unless the waters drain directly to salt water. All other waters in these drainages are closed to fishing. We have provided a map (below) of these watersheds to get you started on locating an area where you would like to fish. There is also an alphabetical list of open areas (see following page and special rules). Remaining westside rivers and all eastside rivers are listed in the conventional format and still fall under the statewide seasons, unless otherwise noted.

# Salmon Identification

## OCEAN PHASE

### Chinook Salmon

Large black spots on back, dorsal fin, and both the upper and lower lobes of the tail. Dark mouth with a black gum line. Average size scales. Silver pigment on the tail. Prominent teeth.

### Coho Salmon

Black spots on back with a few spots on the upper portion of the tail. White mouth with a white gum line and dark tongue. Average size scales. Silver pigment on the tail.

### Chum Salmon

No prominent spots on back or tail (small speckles may be present). White mouth with a white gum line and dark tongue. Large scales. Caudal peduncle (tail base) is slender. Silver pigment on the tail.

### Pink Salmon

Generally large black spots on back and heavy oval shaped black blotches on the upper and lower lobes of the tail. White mouth with a black gum line and tongue. Very small scales. No silver pigment on the tail. Flexible (rubbery) lower jaw.

### Sockeye Salmon

No prominent spots on back or tail (small speckles may be present). White mouth with a white gum line and dark tongue. Average size scales. Prominent gold-colored eyes. No silver pigment on the tail. Small teeth.

## SPAWNING PHASE

### Chinook Salmon

Chinook salmon do not display the conspicuous morphological changes of pink, chum, and sockeye salmon during the spawning stage. Typically, Pacific salmon turn from the silvery bright ocean coloration to a darker bronze color as they approach spawning.

### Coho Salmon

In mature male coho salmon, the upper jaw forms an elongated hooked snout and the teeth become greatly enlarged. The male is generally brighter than that of the female and is characterized by the dorsal surface and head turning bluish-green. The sides of the males develop a broad red streak. In females, the jaws also elongate but the development is much less extreme than that of the males.

### Chum Salmon

Chum salmon display characteristic olive-green and purple (calico) vertical bars on the sides of the body as they approach the spawning phase. Both males and females develop hooked noses and large canine-like teeth

### Pink Salmon

As male pink salmon begin to enter the spawning phase, they develop a prominent hump in front of the dorsal fin, an elongated snout, and large teeth. Body color in both males and females darkens from a bright silvery appearance to a pale slate, brownish, or greenish-gray on the back and sides and a pale whitish color below. Small, oblong irregular black spots are present on the back and sides, and on the dorsal and tail fins.

### Sockeye Salmon

Sockeye turn bright red on their body, and olive-green on the head. Males develop a prominent hump in front of the dorsal fin; the male's snout becomes elongated; and canine-like teeth grow out of the receding gums. Females undergo a distinct color change, but retain their body shape.

# Atlantic Salmon

Male Atlantic salmon

Female Atlantic salmon

Atlantic salmon have large black spots on the gill covers and back, and rarely any spots on the tail fin. Their scales are large, there is no red stripe along the lateral line, and they have 8-10 anal fin rays. Atlantic salmon may be taken from marine waters during any open salmon season, and from anadromous (not landlocked) freshwater during any open salmon or trout season. Anglers may not, however, continue to fish for Atlantic salmon after a daily limit of another species of salmon has been retained. In landlocked lakes, Atlantic salmon may be taken as part of the trout daily limit. Seasons and size limits in place for Atlantic salmon in landlocked lakes. Opportunities to harvest Atlantic salmon beyond those listed in the pamphlet will be announced to the news media and carried on WDFW's recreational fishing hotline. Please report sightings to (360) 902-2700.

## Chinook, Coho, and Pink Salmon Identification

### Chinook

Jaw- has a dark mouth and black gums at the base of its teeth. Immature chinook are known as a "blackmouth."

### Coho

Jaw- mouth is white and the gum line is almost white, but the tongue may be black. The teeth are sharp and strong.

### Pink

Jaw- mouth of a pink is white, but the gums and tongue are black, as they are in a Chinook. It does not have "teeth" on its tongue.

Tail- both the upper and lower lobes of the tail are covered with spots and silver is prominent.

Tail- has just a few scattered spots, usually on the upper lobe, with silver streaks. It has a wide caudal peduncle.

Tail- is covered with large oval spots. It does not have silver on the tail. The scales are very small compared to other salmon of the same size.

## Wild/Hatchery Identification

In order to provide salmon & steelhead fishing opportunities, WDFW and the Tribes have marked salmon & steelhead by clipping the adipose fin (a small fatty fin directly behind the dorsal fin). In areas designated "release wild <insert fish name>", fin-clipped salmon and steelhead are the only fish that may be retained. The picture to the right shows a wild coho salmon and a fin-clipped or hatchery coho salmon. Please be careful in releasing wild fish- they are your fishing future! For tips on the best way to release fish, please see page 13. In Marine Areas 5-13, it is illegal to bring a wild salmon or a species of salmon aboard a vessel if it is unlawful to retain those salmon. "Aboard a vessel" is defined as inside the gunwale. In Marine Area 2-2, it is unlawful to totally remove salmon from the water if it is illegal to retain those fish, except anglers fishing from boats 30' or longer are exempt.

**Hatchery coho**  
Adipose fin has been clipped – leaving a healed scar in its place.

**Wild coho**  
Intact adipose fin.

# Marine Area Rules

## 1 • • • • Season and Daily Hours:

During an open season, marine waters are open 24 hours per day, except as noted for night closures.

## 2 • • • • Quota Management:

SALMON, HALIBUT, and some SHELLFISH are managed by quotas in many marine areas. These fisheries close when the quotas have been taken. Closures will be announced to local news media and will be included in the Fishing Hotline and Shellfish Rule Change Hotline messages.

**NOTE: Emergency rules may occur throughout the year and will supersede the rules contained in this pamphlet.** Changes can be found by calling the WDFW Fishing Hotline (360) 902-2500 or Shellfish Rule Change Hotline (866) 880-5431, contacting statewide customer service (360) 902-2700, or by visiting the WDFW website <http://wdfw.wa.gov>.

Rules listed below are General Rules. Specific Area Rules are listed by area.

## Derelict Fishing Gear

### Reporting lost or abandoned nets or pots

#### Still Fishing After All These Years

Lost and abandoned fishing gear continues to fish, impacting marine animals and destroying their habitat, entangling divers, and damaging propellers and rudders of boats.

#### What's being done?

Federal, state, tribal, and local governments, NGOs, and grassroots organizations and individuals are collaborating to protect and restore Washington marine resources by locating and removing harmful derelict fishing gear.

#### How can you help?

Record as much information as you can when you find derelict gear, including:

- Date of sighting
- Type of gear
- Approximate water depth
- General location
- Latitude (example 48.34333)
- Longitude (example -123.00333)

#### You can report this information to:

Photo provided by the Northwest Straits Initiative.

#### There are no penalties associated with reporting lost fishing gear.

The Derelict Fishing Gear Removal Project is a no-fault program. The goals are simply to remove lost and abandoned gear, to help restore Puget Sound, to improve public safety, and to assist species recovery.

**Nets are dangerous! Never attempt to remove them. Divers, stay a safe distance away.**

## TAGGED LINGCOD IN PUGET SOUND

As part of a collaborative study to determine the costs and benefits of lingcod stock enhancement, a small number of hatchery-reared lingcod were released in South Puget Sound. A small or large acoustic telemetry tag (see picture) was implanted internally near the stomach. If you encounter one of these lingcod, please save the tag and contact Jon Lee at 360-871-8321, or email him at [Jon.Lee@noaa.gov](mailto:Jon.Lee@noaa.gov).

# Shellfish/Seaweed Rules

## 3 Steps to Safe and Legal Shellfish Harvest - It's your responsibility!

### 1 Know the Rules (You could get a ticket)

Is the harvesting season open? Read the rules for seasons, size, and bag limits. Always check the toll free WDFW Emergency Shellfish Rule Change Hotline (866) 880-5431. Current harvesting season information can always be found by using the clickable map on the WDFW website at <http://wdfw.wa.gov/fishing/shellfish/beaches>.

### 2 Pollution Closures (You could get sick)

Does the beach meet standards for healthy eating? Some closures are shown on the map on page 127. For more pollution closures visit the Washington Department of Health website at [www.doh.wa.gov/shellfishsafety.htm](http://www.doh.wa.gov/shellfishsafety.htm), call (360) 236-3330, the Shellfish Safety toll-free Hotline at (800) 562-5632, or the local county health department.

### 3 Marine Biotoxin Closures and *Vibrio* Warnings (You could get sick or die)

Is there an emergency closure due to Shellfish Poisoning (PSP/ASP/DSP) or *Vibrio* bacteria? Check the DOH website at [www.doh.wa.gov/shellfishsafety.htm](http://www.doh.wa.gov/shellfishsafety.htm), call (360) 236-3330, or the Shellfish Safety toll-free Hotline at (800) 562-5632.

**NOTE: Emergency rules may occur throughout the year and will supersede the rules contained in this pamphlet.** Changes can be found by calling the Shellfish Rule Change toll-free Hotline at (866) 880-5431, contacting statewide customer service, or by visiting the WDFW website.

## Licenses

A Combination or a Shellfish/Seaweed License is required for all shellfish (except CRAWFISH) and SEAWEED harvest. A catch record card, and endorsement is required to fish for DUNGENESS CRAB in Puget Sound. (See License Requirements, page 6).

## Designated Harvesters

Persons with a disability must have a designated harvester card issued by WDFW if using another harvester to assist them with their catch. The person harvesting the catch on behalf of the licensee with a disability must be in possession of the designated harvester card while assisting the person with a disability. Both the digger and the person with a disability must be licensed. The licensee is also required to be in the direct line of sight of the designated harvester who is harvesting shellfish for them. If this is not possible, the licensee is required to be within 1/4 mile of the designated harvester who is harvesting shellfish for them.

## Safe Handling Practices

- Water color does not indicate SHELLFISH safety.
- Rinse your catch in salt (not fresh) water before leaving the beach, quickly cool your catch on ice or in a refrigerator, and cook as soon as possible.
- Wash all SEAWEED before eating.
- Cook shellfish thoroughly before eating.
- Cooking, rinsing, or freezing **DOES NOT** destroy all pollutants. CRAB can also concentrate pollutants in their internal organs (crab butter). Clean CRAB before cooking. Eat only the meat.

## Shellfish Safety

Eating contaminated shellfish or seaweed can cause serious illness or death. The only way to be safe is to "Know Before You Dig." Check the Department of Health (DOH) website [www.doh.wa.gov/ehp/sf/default-sf.htm](http://www.doh.wa.gov/ehp/sf/default-sf.htm), or call the local health department. For shellfish safety closures call the Shellfish Safety Hotline at (800) 562-5632.

**Don't harvest in areas that are polluted. It can make you sick.** Pollution can come from many sources like sewage drain pipes, failing septic systems, farm practices, wildlife, and pet waste. Use sani-cans, vault toilets and other approved facilities. Properly dispose of human and pet waste if no facilities are available.

**Don't harvest in areas with marine biotoxins (PSP/ASP/DSP) or *Vibrio* warnings. You could get sick or die.**

### PARALYTIC SHELLFISH POISONING (PSP) & AMNESIC SHELLFISH POISONING (ASP):

- Can make you sick or cause death
- Can't be destroyed by cooking or freezing
- Are produced by algae that usually can't be seen
- Do not turn water red like the old name suggests

### NEW: DIARRHETIC SHELLFISH POISONING (DSP):

- Can make you sick
- Can't be destroyed by cooking or freezing
- Is produced by algae that can't be seen

**VIBRIO BACTERIA: In the summer, sea water often has high levels of naturally occurring bacteria.** Unlike biotoxins, these bacteria can be killed by cooking. To avoid getting sick, DOH advises that you COOK ALL SHELLFISH thoroughly.

For more information on PSP, ASP, DSP and *Vibrio* bacteria, visit the DOH website, call the main office at (360) 236-3330, or contact the local county health department.

## Possession Limit

**One daily limit in fresh form. Additional shellfish may be possessed in frozen or processed form.**

## Marine Preserves & Conservation Closures

For all Shellfish Species, see Marine Area maps (pages 99-123) for closures pertaining to the following areas:

**AREA 7:** San Juan Islands Marine Preserve.

**AREA 9:** Edmonds Public Fishing Pier, Brackett's Landing Shoreline Sanctuary, Keystone Conservation Area, and Admiralty Head Marine Preserve.

**AREA 10:** Elliott Bay Public Fishing Pier, Orchard Rocks Conservation Area, Carkeek Park, Golden Gardens, Discovery Park, Richey Viewpoint, Emma Schmitz Memorial, Lincoln Park, and Eagle Harbor.

**AREA 11:** Des Moines Fishing Pier, Les Davis Fishing Pier, Colvos Passage Marine Preserve, City of Des Moines Park, and South 239th Street Park, Saltwater State Park Marine Preserve.

**AREA 12:** Sund Rock Conservation Area, Waketickheh Creek Conservation Area, and Octopus Hole Conservation Area.

**AREA 13:** Salter's Point Conservation Area, Titlow Beach Marine Preserve, and Z's Reef Marine Preserve.

## Tideland Ownership

Most Puget Sound, Hood Canal, Grays Harbor, and Willapa Bay beaches are privately owned. SHELLFISH and SEAWEED may not be taken from private beaches without the owner's or lessee's permission. Private tideland owners and lessees, and members of their immediate family (grandparents, parents, spouse, siblings, children, and grandchildren) are exempt from personal use daily limits when taking CLAMS, OYSTERS, and MUSSELS harvested for their own personal use from their own tidelands. Daily limits apply for all other shellfish, all other people, and all other beaches. Everyone harvesting shellfish in excess of the daily limit from private beaches for presumed commercial purposes needs a shellfish certification from the Department of Health (see RCW 69.30.010(8)).

# 2012 Public Beach List - Special Rules

Two different state agencies are responsible for two different types of recreational shellfish harvest closures. The Washington Department of Fish and Wildlife (WDFW) is responsible for conservation closures or season adjustments, which are listed in the Public Beach List (below). These closures are designed to protect and conserve intertidal shellfish populations. The Washington Department of Health (DOH) is responsible for human health-related closures in response to potentially life-threatening environmental conditions, which result from PSP/ASP/DSP, *Vibrio* bacteria or pollution, as described in the Shellfish Safety section on page 124. Some, but not all of these beaches are also closed by WDFW. Permanent WDFW/DOH closures and periodic DOH harvest advisories are shown on page 127.

DOH SEASON	WDFW SEASON	HARVEST STATUS	REASON
Open	Open	SAFE & LEGAL	
Open	Closed	ILLEGAL	Conservation closure or season adjustment
Closed	Open	NOT SAFE	Potentially life-threatening environmental conditions
Closed	Closed	NOT SAFE & ILLEGAL	

Not all beaches have been evaluated by DOH, so if you have any concerns call the local health department or DOH at (360) 236-3330 or (800) 562-5632. In addition, some beaches may be posted with warning signs - look for signs as you access the beach.

**ALWAYS CHECK BOTH THE CURRENT WDFW SEASON AND THE DOH HEALTH CLOSURE STATUS BEFORE HARVESTING ANY PUBLIC BEACH.**

Beaches that do not appear on the Public Beach List (below) or on the Health Restrictions map on page 127 may be open to harvest year-round. For beach locations check the WDFW website at <http://wdfw.wa.gov/fishing/shellfish/beaches/>. The website includes interactive beach maps providing information about access, available species, harvest tips, driving directions, facility descriptions and links to the DOH Shellfish Safety webpages. Also, check the Marine Preserves and Conservation Closures on page 124 before planning your trip.

 **Note:** Between Jan. 1-Apr. 30 you MUST check the website <https://fortress.wa.gov/dfw/erules/efishrules/>, Shellfish Rule Change Hotline (866) 880-5431 or contact the WDFW customer service desk (360) 902-2700 to verify seasons. Emergency rules will supersede the rules contained in this pamphlet.

RAZOR CLAM seasons occur only after clam samples have been tested by Washington Department of Health (DOH) and are found to be safe for human consumption.

**CRAB** See pages 132 for crab harvest and 135 for crab gear rules.

## CRAYFISH (Crawfish)

ALL WATERS	NATIVE SPECIES	1 <sup>st</sup> Mon. in May-Oct. 31	Min. size 3¼" from tip of rostrum (nose) to tip of tail. Daily limit 10 lbs in shell. All females with eggs or young attached must be immediately returned to the water unharmed. No Shellfish/Seaweed license is required. See gear rules on page 135.
	NONNATIVE SPECIES	1 <sup>st</sup> Mon. in May-Oct. 31	Must be kept in a separate container. Must be dead before being removed from riparian area (immediate vicinity of water body). No daily limit, size, or sex restrictions. No Shellfish/Seaweed license is required. See gear rules page 135.

There is only one native crayfish species in Washington – the signal crayfish (*Pacifastacus leniusculus*). This species can be identified by its uniform brownish coloration, white or light coloration of the claw joint, and the smooth surface of its carapace and claws compared to that of nonnative species. **Native crayfish are the only crayfish that may be removed from the vicinity of the waterbody alive.** If you cannot positively identify your catch as a nonnative species, the daily limit and other restrictions listed above for native crayfish apply.

**How to humanely kill and preserve crayfish**  
There are two important steps to killing a crayfish quickly and humanely. The first is to chill them in ice or ice slurry for 20-30 minutes, and the second is to pierce their head with a knife.

Refer to CRC rules on page 8. A \$10.00 penalty will be added to the cost of your next Puget Sound crab endorsement if you fail to either return your cards by mail or report your catch information on the Internet ([https://fish-hunt.dfw.wa.gov/wdfw/puget\\_sound\\_crab\\_catch.html](https://fish-hunt.dfw.wa.gov/wdfw/puget_sound_crab_catch.html)) by the deadline printed on each card. # Statewide Gear Rules - Crab, Shrimp and Crawfish

## Caution

The requirements below are the minimum established by law. At some locations currents may require the addition of weights to traps and the use of additional buoys to prevent the equipment from being lost. Refer to the individual species listings (crab, page 132; shrimp, page 134; and crawfish, page 130) for seasons and other harvest rules.

## GENERAL GEAR RULES:

May be harvested by hand or dipnet. Hand operated instruments may not penetrate the shell. One star trap, one ring net, or one pot is considered one unit of gear. The maximum number of units of gear that may be fished per person is:

**Puget Sound:** (Marine Area 4, east of the Bonilla-Tatoosh line, and in Marine Areas 5-13).

**Shrimp:** Two pots per person, and no more than 4 shrimp pots may be onboard or fished by any one boat at a time.

**Crab:** Two units of crab gear per person, and no limit on the number of units of crab gear per boat.

**Coastal Waters:** (Marine Areas 1-3 and in Marine Area 4, west of the Bonilla-Tatoosh line). Two units of crab and/or shrimp gear per person. Exception: Columbia River - three units of crab gear per person.

**Freshwater:** Crawfish: Five units of gear per person.

Every shellfish pot, ring net, or star trap left unattended in Washington waters must have its own buoy line and a separate buoy that is permanently and legibly marked with the operator's first name, last name, and permanent address (telephone number is voluntary). It is **ILLEGAL** to set or pull unattended shellfish gear with a buoy that does not have your name on it, and only one name and address may appear on each buoy. Any angler may assist the person whose name is on the buoy while he or she is pulling the pot. No fisher may set, fish, or pull shellfish gear from a vessel, in Catch Record Card Areas 1-13, from one hour after official sunset to one hour before official sunrise. **All shellfish gear must be removed from the water on closed days.**

Buoys must be constructed of durable material (no bleach, antifreeze, detergent bottles, paint cans, etc.) and must be visible on the surface at all times except during extreme tidal conditions. Personal flags and staff, if attached to buoys, can be of any color. Buoy lines must be weighted sufficiently to prevent them from floating on the surface.

All crab, shrimp, and crawfish pots must be equipped with a biodegradable device (rot/escape cord) and shall include one or more of the following:

- (1) securing the pot lid hook or tie down strap with a single loop of cord; or
- (2) sewing a 3" by 5" escape panel in the upper half of pot closed with cord; or
- (3) attaching the pot lid or one pot side (serving as a pot lid) with no more than three single loops of cord.

Cord used must be untreated 100% cotton or other natural fiber no larger than thread size 120 (1/8"). This cord, when attached as described above, must be able to rot away and allow crab, shrimp, crawfish and fish to escape freely if the pot is lost. A derelict crab pot without proper escape cord can attract and kill crabs for years after the pot has been lost.

## CRAB GEAR:

The minimum mesh size for crab pots is 1 1/2", and all pots must have two 4 1/4" minimum inside diameter escape rings in the upper half of the pot, except in the Columbia River where the minimum ring size is 4" inside diameter.

All parts of ring nets and star traps must lie flat on the sea bottom and may not restrict free movement of crab until lifted. Shellfish pots must be covered by water at all times while being fished.

Crab pots must not exceed 13 cubic feet.

All crab gear buoys must be half red and half white in color, and both colors need to be visible when fishing.

## SHRIMP GEAR:

Pots must be constructed of either flexible or rigid mesh material (no liners allowed).

Entrance tunnels can be made of any size mesh material but must be located on the sides of the pot. The sum of the maximum tunnel widths must not exceed one-half the perimeter of the bottom of the pot.

Shrimp pots must not exceed 10 feet in perimeter and 18" in height.

All shrimp pot buoys must be yellow in color.

## SHRIMP POT MESH SIZE:

### 1" Minimum Mesh Size

A 7/8" square peg must be able to pass through each mesh opening – see diagram, except for flexible (web) mesh pots, where the opening must be a minimum of 1 3/4" stretch measure.

#### **Puget Sound:**

Required for all shrimp pots during the month of May.  
Required in all areas open for spot shrimp after June 1st.

#### **Pacific Ocean:**

Required year-round.

### 1/2" Minimum Mesh Size

A 3/8" square peg must be able to pass through each mesh opening, except for flexible (web) mesh pots, where the opening must be a minimum of 1 1/2" stretch measure.

#### **Puget Sound:**

Allowed after June 1st in any area closed for spot shrimp, but open for coonstripe and pink shrimp.

## LOST GEAR:

Do not attempt to salvage lost shellfish gear in Hood Canal without first getting a permit from the WDFW Enforcement Program - (360) 902-2936. To report lost shellfish gear, call WDFW toll-free (855) 542-3935. If we can recover your gear and it is properly identified, we will attempt to return it.

Not all shellfish gear sold in Washington meet the specifications shown on this page. Verify that your pot meets these requirements prior to use. 135

# Rockfish Conservation

## - How You Can Help

Rockfishes are an incredibly diverse and important group of marine fishes in our Pacific waters. They are one of the toughest fishes to manage because they:

- Grow slowly
- Mature late in life
- Can live for decades
- Infrequently have good survival of young
- Are homebodies, living most of their lives in their favorite habitats

A number of species are in low abundance in both Puget Sound and the Washington coast. Fisheries for rockfish have ended or been restricted. In Puget Sound, Marine Areas 6-13 are closed to fishing for rockfish and you cannot fish for bottomfish in waters deeper than 120 feet in all areas of the Sound.

Working with citizens and fishers over a two-year period, the Department has adopted the Puget Sound Rockfish Conservation Plan. The plan identifies our approach to managing rockfish populations in Puget Sound and emphasizes:

- Using the natural capacity of the ecosystem to sustain rockfish populations.
- Conserve habitats and maintain ecosystem links.
- Manage fisheries based on healthy populations of rockfish.
- Rely upon scientists, anglers, and citizens to track, study, and evaluate rockfish stocks.
- Educate people about rockfish and ecotourism opportunities.
- May use hatchery production to recover depleted stocks and artificial habitats to restore degraded habitats.

## How to Release Rockfish

You can help conserve rockfish. If you catch rockfish, you can:

- Move to another location where the rockfish are not as abundant.
- Release blue rockfish in the Neah Bay and Sekiu Areas (MCAs 4B and 5).

**Venting** - please do not puncture the side of a rockfish with a needle or similar sharp object. Venting can easily puncture an organ and cause serious injury or introduce infection.

- Release the fish to the water as quickly as possible and avoid touching the eyes or gills.
- Many fish may have trouble swimming back down to depth. Immediately submerge the fish by using a weighted crate with an attached line or a weighted, barbless hook to a depth of 40 feet (see <http://wdfw.wa.gov/conservation/rockfish.html>).

**Black rockfish** - Body color is black to gray with light mottling on the side. The anal fin is rounded. Upper jaw extends past the rear of eye. Dorsal fin is mottled.

**Blue rockfish**- Body color is blue or black. The gill cover has several vague diagonal stripes. The anal fin is vertical or slanted towards the tail. Upper jaw extends to middle or rear of eye.

## How to Tell a Black Rockfish From a Blue Rockfish

We encourage anglers to voluntarily release blue rockfish in areas where their retention is allowed.
