

Washington Department of Fish and Wildlife Hotline  
(360) 902-2500  
Coastal Commercial Message  
Commercial Msg. 4

This commercial hotline message # 4 was recorded **June 7, 2018**, updating the status of the coastal commercial fisheries.

### Commercial Troll

#### MAY - JUNE FISHERY

Washington catch areas 1, 2, 3 and 4 opened for a Chinook directed, all-salmon-except-coho fishery beginning May 1. **Catch areas 3 and 4 from the U.S.-Canada border to the Queets River will be open to trolling Friday, June 8 through Monday, June 11. Any fish caught in areas 3 or 4 must be landed and delivered by 11:59 PM Tuesday, June 12.** The fishery in areas 1 and 2 will continue to be open seven days per week and will close the earliest of June 30 or attainment of the quota of 16,500 Chinook, no more than 4,600 of which may be caught in the area between Leadbetter Point and Cape Falcon. All salmon **except coho** are legal. The following landing and possession limits per vessel per landing week, defined as **Thursday through Wednesday**, are in place:

U.S./Canada border to the Queets River: **30** Chinook; or  
Queets River to Leadbetter Point: **200** Chinook; or  
Leadbetter Point to Cape Falcon: **100** Chinook.

Mandatory Yelloweye Rockfish Conservation Area, Cape Flattery, and Columbia Control Zones are closed.

Vessels must land and deliver their fish within 24 hours of any closure of this fishery and in Areas 1, 2, 3 or 4. **Vessels in possession of salmon north or south of the Queets River may not cross the Queets River line without first notifying WDFW by phone at (360)249-1215 or by email at [Wendy.Beehley@dfw.wa.gov](mailto:Wendy.Beehley@dfw.wa.gov) with Boat name, Area fished, total Chinook and halibut catch on board, and destination.** Vessels fishing or in possession of salmon while fishing north of Leadbetter Point must land their fish within the area and north of Leadbetter Point. Vessels fishing or in possession of salmon while fishing south of Leadbetter Point must land their fish within the area and south of Leadbetter Point. The minimum size limit for Chinook is 28 inches. Gear is restricted to all legal troll gear with single point, single shank barbless hooks **only**.

The JULY 1 all-species fishery will be added to the hotline later in the year.

#### HALIBUT

The operator of a vessel that has been issued an incidental halibut harvest license may retain Pacific halibut caught incidentally in area 2A during authorized periods while trolling for salmon. License holders may land no more than 1 halibut per each 2 Chinook, except 1 halibut may be landed without meeting the ratio requirement. No more than **25** halibut may

be landed per trip. Halibut retained must meet the minimum size limit of 32 inches total length with head on. In-season action may be taken to avoid exceeding the commercial halibut allocation.

The Washington State Quick Reporting System will be in effect throughout the 2018 commercial troll fishery. All wholesale dealers or trollers retailing their fish will be required to report their landing by 10:00 AM the day following delivery. Reports can be made by telephoning 1-866-791-1279 or faxing to 1-360-902-2949 and reporting the fish ticket number, the gear, the dealer name and number, the area fished, the date of landing, the number of days fished, the number of fish by species and the total weight by species including halibut.

Groundfish regulations were included in the troll mail. If you did not receive this information please call Wendy Beeghley at 360-249-1215 before going fishing.

**Commercial troll fisheries are managed on a quota. Open days, landing and possession limits, or any other regulation could change at any time. Always contact the fisheries hotline (1-360-902-2500) prior to going fishing.**

Thank you for calling the Washington Department of Fish and Wildlife coastal commercial hotline.
