	Yakima	50	--	1,300
	Deschutes	50	--	100
	Snake River	600	297	200

* Components may not sum to totals shown since individual forecasts are not available for all upriver spring Chinook tributaries. Wild components are included in the stock total.

** Return to tributary mouth.

*** 2018 return is based on standard TAC run reconstruction methodology.

† 2018 returns to the Cowlitz, Kalama, and Lewis rivers are to the tributary mouth and are not directly comparable to the forecasts. These values will be updated when estimates for return to the Columbia River mouth are available.
