

Project Description

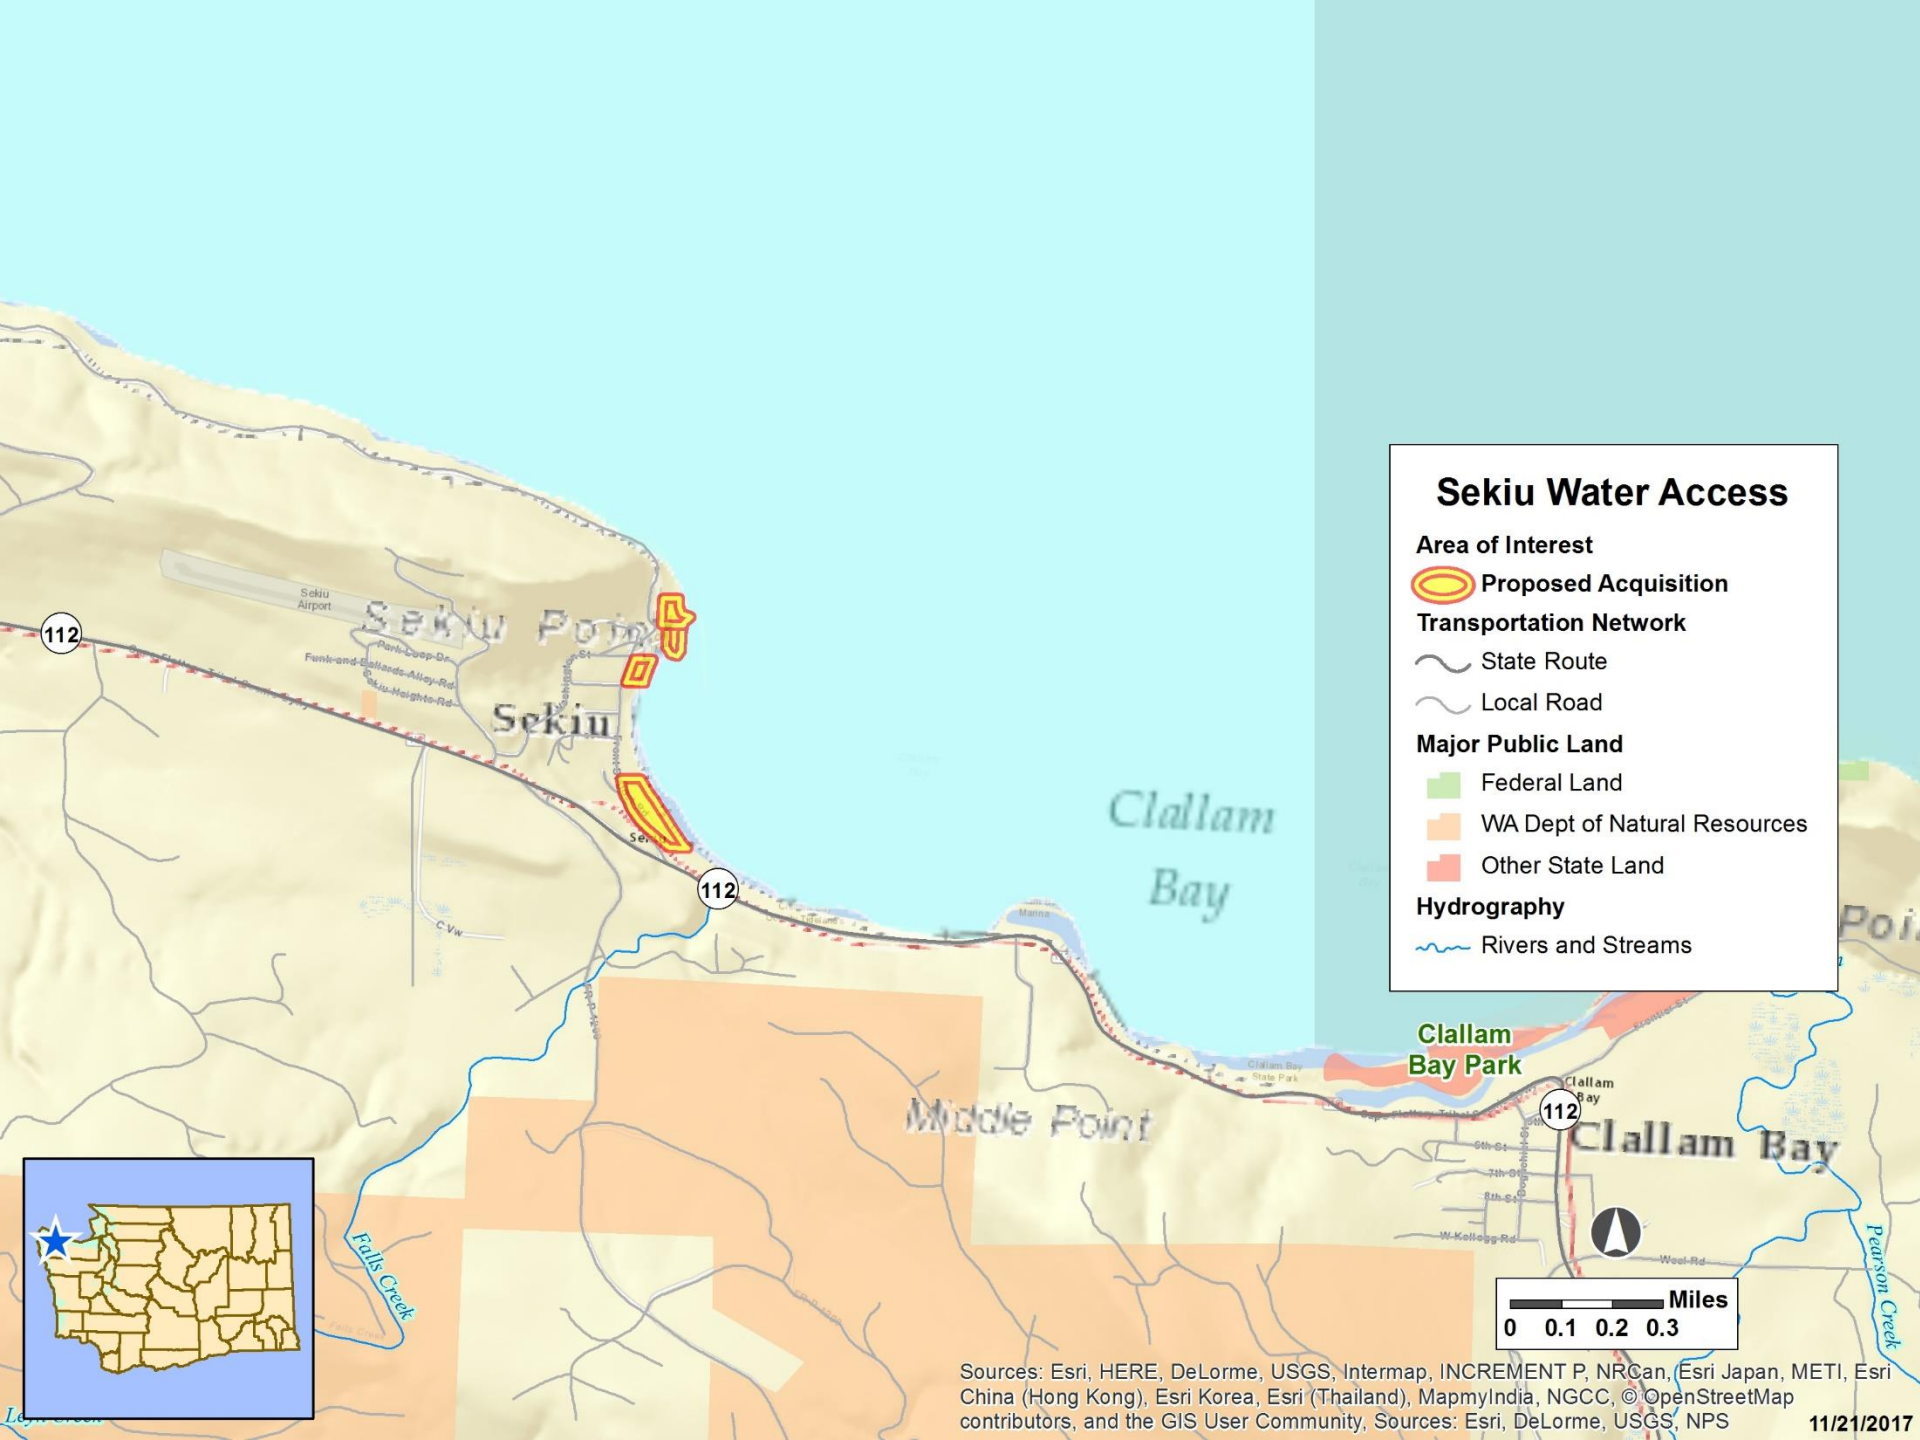

The owner of Mason’s Resort (formerly Olson’s Resort) has indicated interest in selling the facility, which provides the only public boat ramp between Port Angeles and Neah Bay not dependent on the tides. WDFW has proposed purchasing the existing four-lane boat ramp and two parking areas in the town of Sekiu for public use.

Project Benefits

This project will ensure continued public access to the Strait of Juan De Fuca from a highly popular boat launch that has been in continuous operation since 1939.
