EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule is needed to open salmon and steelhead seasons in Drano Lake and Wind River. The Washington Department of Fish and Wildlife closed Drano Lake and the Wind River to salmon and steelhead angling in mid-May to ensure hatchery broodstock goals were met. Based on updated expected returns to these hatcheries, it is likely that broodstock needs will be achieved at these facilities. There is insufficient time to adopt permanent rules.
