EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The 2019 State/Tribal Shrimp Harvest Management Plans for the Strait of Juan de Fuca and Puget Sound require adoption of harvest seasons contained in this emergency rule. This emergency rule (1) continues the pot fishery season for spot shrimp; (2) implements a spot shrimp weekly limit for all areas; (3) implements a minimum mesh size restriction for spot shrimp gear; (4) implements 200 lb weekly limits in SMA 1A and SMA 1C for spot shrimp harvest; (5) maintains the previous regulations and restrictions for the non-spot trawl and pot fisheries. There is insufficient time to adopt permanent rules.
