EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is needed to close the waters of Marine Area 9 south of a line from Olele Point to Foulweather Bluff while Chinook retention is allowed in the remaining portion of Marine Area 9. This conservation measure is needed to comply with measures agreed to with co-managers at the North of Falcon proceedings. This emergency rule also covers other Puget Sound areas for permanent rules agreed to at the North of Falcon proceedings until those permanent rules take effect.
