EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule is needed to increase the adult salmon daily limit and open hatchery steelhead retention in portions of the Washougal River. Hatchery broodstock collection for the Washougal fall chinook program has been meeting weekly objectives and early indications are that the broodstock goal will be achieved. This action also expands steelhead fishing opportunity that had been restricted below the Washougal River weir to support fall Chinook broodstock collection efforts. Expanding retention of hatchery salmon and hatchery steelhead will provide additional angling opportunity while broodstock collection efforts continue. There is insufficient time to adopt permanent rules.
