EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: The provisions of this rule will re-open the commercial crab harvest areas at 8:00 am, October 1, 2019 in Puget Sound with a limit of 50 pots per license per buoy tag number in all commercial crab Regions. There is sufficient allocation available in all of the commercial regions to accommodate this opening. These provisions are in conformity with agreed management plans with applicable tribes. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. There is insufficient time to adopt permanent rules.
