EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This emergency rule closes harvest of red sea urchins in all Districts to reduce the risk of wasting harvested urchins that cannot be sold. Harvestable surpluses of green sea urchin exist in the districts specified and there is less risk of wastage of green urchins. There is insufficient time to adopt permanent rules.
