Subject: RE: ECY SEPA 201907035 - Luhr's Landing Access Redevelopment - Comments

Hello Morgan,

Thank you for your comments on the Luhr's Landing Redevelopment project. WDFW has received both sets of comments that were submitted.

Regarding comments submitted to Thurston County, we acknowledge your comments on solid waste management and toxics clean up. All materials will be disposed of at an approved site. Contamination was a potential at the site and soil samples were taken. No contamination has been found on the site. If any contamination is discovered, Ecology will be notified per instruction.

Regarding comments submitted to Lisa Wood, SEPA Responsible Official, we acknowledge your comments on solid waste management and water quality. Only clean fill will be utilized on the site. Erosion control measures and BMPs will be in place before any site work. There will not be a discharge of sediment-laden water to waters of the state.

We appreciate your time in review of this project. If you have any further comments or questions, please do not hesitate to contact WDFW.

Thank you,

Chris Gourley
