Other authority:

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: This rule will open Region 2-East and allow commercial crab harvest in Region 2-East with a maximum of no more than 25 pots per license per buoy tag number. This rule also requires fishers to declare their participation in the Region 2-East opening and requires that fishers report pounds of Dungeness crab harvested from Region 2-East each day. It will continue the Puget Sound commercial crab harvest in Regions 2-West, 3-1, 3-2, and 3-3. Pot limits in 2-West, 3-1, 3-2, and 3-3 will remain at 50 pots per license. These provisions are in conformity with agreed management plans with applicable tribes. These management plans are entered into as required by court order. The Puget Sound commercial season is structured to meet harvest allocation objectives negotiated with applicable Treaty tribes and outlined in the management plans. There is insufficient time to adopt permanent rules.
