DETERMINATION OF NONSIGNIFICANCE (DNS)

Name of Proposal: DNS 20-010: ROSES LAKE ACCESS REDEVELOPMENT – PHASE 2

Description of Proposal:

Washington Department of Fish and Wildlife proposes to upgrade the WDFW owned Roses Lake Access Site located in Chelan County. The existing site is a 6.36 acre parcel located along the south shoreline of Roses Lake, surrounded by agriculture and rural residential homes.

Phase II seeks to build on the phase I project by increasing pedestrian fishing capacity as well as providing new physical structures to base the pedestrian fishing from in efforts to provide a more stable and safe platform to pursue this recreational opportunity. The proposed structures will also have approximately 350LF of ADA accessible paved pathways leading to the shore-based structures from the existing parking area. More vegetation management will also be undertaken to facilitate the construction of the structures. To complete phase II at this site, WDFW proposes the following scope of work:

1. Install a new ADA-compliant 10'x40' fishing float with (4) steel piling, mechanically driven into the lakebed and accessed via a shore-mounted 60'x5' gangway.
2. Site build a 28' x 16' ADA-compliant pedestrian fishing platform. The platform will be shore-based atop a cast-in-place concrete foundation. The platform will be suspended approximately 16' from the shore out over the lake via (3) steel piles mechanically driven into the lakebed.
3. Install approximately 155'x5' ADA-compliant paved walking path from existing paved parking area along the northwest of the parking area that leads to the proposed fishing structures.
4. A compensatory mitigation plan will be implemented to mitigate for the new development of impervious surface. Impervious surface will increase by 2,115 SF to include new gravel trails, asphalt trails, and two concrete abutments. Invasive plant species, primarily Himalayan blackberry will be removed prior to planting in the mitigation area, 2,850 SF. (See Sheet 9 of the Drawing Set)
