Attachments: [image001.png](#)

Thank you for your comment and review of the Janicki Grass Carp project. This project proposes to introduce ten (10) sterile Grass Carp into the Janicki pond to suppress aquatic vegetation. The outlet to the pond is screened to prevent the fish from escaping and migrating to either the Anacortes Mt. Vernon Meter Station (Facility Site ID No.: 4686639) or Northwest Pipeline BP Mt. Vernon C/S (Facility Site ID No.: 2684).

Thank you for your interest in the project.

Justin Spinelli
