Re: Lind Coulee Access Redevelopment, File #: 20-016

Dear Lisa Wood:

Thank you for the opportunity to comment on the Determination of Nonsignificance regarding the proposal to install new vault toilets with ADA access and ramp. The project includes associated site improvements and maintenance of the existing boat ramp (Proponent: WA Department of Fish and Wildlife). After reviewing the documents, the Department of Ecology (Ecology) submits the following comments:

Water Quality Program-Shannon Adams (509) 329-3610

The SEPA Checklist does not clarify the precise area in which soil disturbing activities will take place. Please keep in mind that any soil disturbance exceeding one acre requires a Construction Stormwater General Permit.

For more information or technical assistance in obtaining a Construction Stormwater General Permit, please contact Shannon Adams at (509) 329-3610 or via email at Shannon.Adams@ecy.wa.gov.

State Environmental Policy Act (SEPA)

Ecology bases comments upon information submitted for review. As such, comments made do not constitute an exhaustive list of the various authorizations you may need to obtain, nor legal requirements you may need to fulfill in order to carry out the proposed action. Applicants should remain in touch with their Local Responsible Officials or Planners for additional guidance.
