Shaun-

A cultural resource survey has been conducted and the reporting is being finalized. The project, as designed, should have no adverse impact to archaeological or historical resources. We will forward the completed cultural resource survey to interested tribes.

Thanks!

Hi Lisa,

We still concur with a cultural resource survey being conducted for the proposed project area. I know the SEPA document mentions that a cultural resource survey will be needed for this project. If your agency has completed a cultural resource survey, we will be more than happy to review it.

Please let us know and stay safe,
