

Status of priority chinook runs for southern resident orcas

Many of the chinook runs that orcas most rely on are threatened with extinction, just like the orcas themselves.

CHINOOK RIVER RUNS

SACRAMENTO RIVER WINTER CHINOOK RUNS

*Columbia chinook runs vary by season and region. Upper river spring runs are endangered, with summer and fall runs good. Middle river summer and fall runs are good. All lower river runs are threatened.

**Sacramento chinook runs vary by season. Winter runs are endangered, spring run are threatened and the fall/late fall runs are in good standing.
