Hi Lisa,

Thank you for the opportunity to review this Lake Cavanaugh Access Redevelopment project. We also appreciate that a survey was done for this project area last year.

We would like to receive notification of when the ground disturbing work will occur to have the opportunity to send a tribal monitor to be present. There is a registered pre-contact archaeological site less than 800 ft from the access area and there are important gathering areas nearby that we still use to this day.

Thank you,

Sam Barr
