*See Handout*
2021/22 Fishery Monitoring

Fish program prioritizing funds in 2021/22 to support monitoring of coastal steelhead fisheries.

Objective: Increase certainty in estimates of sport harvest and effort (CPUE)

Note: Will not provide total catch estimate for the coastal populations.
Coastal Steelhead Monitoring Proviso

“$300K for the Department to develop steelhead plans for Grays Harbor, Willapa Bay, and coastal Olympic Peninsula. The plans must protect fisheries, provide fishing opportunities, and include stakeholder input and outreach. The Department must submit the final plans to the legislature by December 2022.”

- Develop steelhead plans for coastal populations
- Identify monitoring needs for fisheries and populations moving forward
- Develop/publish communication plan for stakeholder input

Note: Currently working on scope and schedule.
