DETERMINATION OF NONSIGNIFICANCE (DNS)

Name of Proposal: DNS 21-053: WILEY DIKE REPAIR

Description of Proposal:

The project proposes to raise the elevation of the approximately 5,600 foot long Wiley Setback Dike by approximately 3 feet so that its new height will be 16.75 feet. The parking lot will be upgraded to comply with ADA standards and address the increased footprint of the dike. Access roads, ramps, and turnarounds will be modified as a part of this process and the tide gate will be retrofitted to allow for future maintenance of the structure. Additionally, 10,744 square feet of estuarine habitat will be restored due to the repositioning of the dike around the parking lot and the removal of bump-outs at the western and eastern ends of the dike.
