Commissioner Thorburn will discuss planning efforts for spring bear 2023 season with Wildlife Program staff to decide when to move forward with Wildlife Committee involvement in season planning. Commissioner Smith asked for comprehensive information about bear population, densities, etc. The 2023 season will probably be decided before Game Management Planning process.

Commissioner McIsaac stated that there was a commitment made at the most recent executive committee to have Deputy Director Windrope provide an update on the 'project tracker' at today's meeting de-brief. It includes more structured future meeting planning at each Commission meeting and changes in staff interactions and follow-ups. However, she was unable to attend today's meeting. The report out will be provided at the January meeting under the Directors report.

Based on public testimony and Commission discussion, several additions to the Year-at-a-Glance (YaaG) meeting planner were brought forward.
