

SEPA ENVIRONMENTAL CHECKLIST

Purpose of checklist:

Governmental agencies use this checklist to help determine whether the environmental impacts of your proposal are significant. This information is also helpful to determine if available avoidance, minimization or compensatory mitigation measures will address the probable significant impacts or if an environmental impact statement will be prepared to further analyze the proposal.

Instructions for applicants:

This environmental checklist asks you to describe some basic information about your proposal. Please answer each question accurately and carefully, to the best of your knowledge. You may need to consult with an agency specialist or private consultant for some questions. You may use "not applicable" or "does not apply" only when you can explain why it does not apply and not when the answer is unknown. You may also attach or incorporate by reference additional studies reports. Complete and accurate answers to these questions often avoid delays with the SEPA process as well as later in the decision-making process.

The checklist questions apply to all parts of your proposal, even if you plan to do them over a period of time or on different parcels of land. Attach any additional information that will help describe your proposal or its environmental effects. The agency to which you submit this checklist may ask you to explain your answers or provide additional information reasonably related to determining if there may be significant adverse impact.

Instructions for Lead Agencies:

Please adjust the format of this template as needed. Additional information may be necessary to evaluate the existing environment, all interrelated aspects of the proposal and an analysis of adverse impacts. The checklist is considered the first but not necessarily the only source of information needed to make an adequate threshold determination. Once a threshold determination is made, the lead agency is responsible for the completeness and accuracy of the checklist and other supporting documents.

Use of checklist for nonproject proposals: [\[help\]](#)

For nonproject proposals (such as ordinances, regulations, plans and programs), complete the applicable parts of sections A and B plus the [SUPPLEMENTAL SHEET FOR NONPROJECT ACTIONS \(part D\)](#). Please completely answer all questions that apply and note that the words "project," "applicant," and "property or site" should be read as "proposal," "proponent," and "affected geographic area," respectively. The lead agency may exclude (for non-projects) questions in Part B - Environmental Elements –that do not contribute meaningfully to the analysis of the proposal.

A. Background [\[help\]](#)

1. Name of proposed project, if applicable: [\[help\]](#)
[10-year Recreation Strategy for WDFW-managed Lands \(Strategy\)](#)
2. Name of applicant: [\[help\]](#)
[Washington State Department of Fish and Wildlife \(WDFW\)](#)
3. Address and phone number of applicant and contact person: [\[help\]](#)

Joel Sisolak
1111 Washington Street SE
Olympia, WA 98501
306-701-5570

4. Date checklist prepared: [\[help\]](#) December 28, 2021
5. Agency requesting checklist: [\[help\]](#) Washington State Department of Fish and Wildlife (WDFW)
6. Proposed timing or schedule (including phasing, if applicable): [\[help\]](#)
Final strategy will be published on the WDFW website, estimated timeline March 2022. The strategy phases implementation to prioritize critical actions in high intensity use and ecologically sensitive areas, and increases capacity at statewide and regional scales where it is most needed. "Nearterm Actions" are prioritized for the next 1 or 2 biennia.
7. Do you have any plans for future additions, expansion, or further activity related to or connected with this proposal? If yes, explain. [\[help\]](#)
Yes, site or area specific plans and/or projects will be developed or actions taken to implement individual elements of this strategy. Where appropriate, plan and/or project specific SEPA review will occur. This strategy is not intended to circumvent any requirement for environmental review of an individual project, where required under SEPA.
8. List any environmental information you know about that has been prepared, or will be prepared, directly related to this proposal. [\[help\]](#) There is no other environmental information that has been prepared for this proposed strategy. Future proposals under this strategy will undergo project and site-specific SEPA review when appropriate.
9. Do you know whether applications are pending for governmental approvals of other proposals directly affecting the property covered by your proposal? If yes, explain. [\[help\]](#)
Does not apply to this proposal.
10. List any government approvals or permits that will be needed for your proposal, if known. [\[help\]](#)
Does not apply to this proposal, this strategy is not site specific.
11. Give brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page. (Lead agencies may modify this form to include additional specific information on project description.) [\[help\]](#)

The 10-year Recreation Strategy for WDFW-managed Lands is a 10-year initiative consistent with WDFW's 25-year strategic plan. In coordination and cooperation with partners, WDFW will take an adaptive approach to implement the strategy that applies the best available data,

science and professional judgement of WDFW personnel for balancing conservation and recreation. The focus of this strategy is to expand planning and management to address outdoor recreation on WDFW-managed lands and its compatibility with conservation goals and ensure access to the diverse residents and visitors of Washington.

The Washington Department of Fish and Wildlife (WDFW) manages more than 1 million acres of publicly owned land, including 450+ water access areas across the state. WDFW is mandated to “maximize fishing, hunting, and outdoor recreational opportunities compatible with healthy and diverse fish and wildlife populations” (R.C.W. 77.04.055).

The implementation of the 10-year Recreation Strategy for WDFW-managed Lands is organized into six strategic priorities, which follow:

1. Use and impact monitoring
2. Recreation planning
3. Rulemaking
4. Travel management
5. Education and engagement
6. Capacity and funding

Most planning objectives under the plan will require separate SEPA review in the future. For example:

- WLA plans with an incorporated recreation planning module will go through SEPA as WLA plans do already
- Regional Water Access Area plans will also go through SEPA review
- Shooting range plans, camping area plans, and other area-specific plans developed after the adoption of the Strategy will also go through SEPA review.

There are other processes that some of the objectives will also go through in the future. E.g., the rulemaking process includes substantial public input and a formal public review process.

12. Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist. [\[help\]](#)

This is statewide strategy and will be implemented for all lands managed by WDFW during the 10-year implementation.

B. ENVIRONMENTAL ELEMENTS [\[help\]](#)

1. Earth [\[help\]](#)

a. General description of the site: [\[help\]](#)

(circle one): Flat, rolling, hilly, steep slopes, mountainous, other _____

[Does not apply to this proposal, this strategy is not site specific.](#)

b. What is the steepest slope on the site (approximate percent slope)? [\[help\]](#)

[Does not apply to this proposal, this strategy is not site specific.](#)

c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils. [\[help\]](#)

[Does not apply to this proposal, this strategy is not site specific.](#)

d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe. [\[help\]](#)

[Does not apply to this proposal, this strategy is not site specific.](#)

e. Describe the purpose, type, total area, and approximate quantities and total affected area of any filling, excavation, and grading proposed. Indicate source of fill. [\[help\]](#)

[Does not apply to this proposal.](#)

f. Could erosion occur as a result of clearing, construction, or use? If so, generally describe. [\[help\]](#)

[Does not apply to this proposal.](#)

g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? [\[help\]](#)

[Does not apply to this proposal.](#)

h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: [\[help\]](#)

[Does not apply to this proposal.](#)

2. Air [\[help\]](#)

a. What types of emissions to the air would result from the proposal during construction, operation, and maintenance when the project is completed? If any, generally describe and give approximate quantities if known. [\[help\]](#)

[Does not apply to this proposal.](#)

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. [\[help\]](#)

Does not apply to this proposal.

- c. Proposed measures to reduce or control emissions or other impacts to air, if any: [\[help\]](#)

Does not apply to this proposal.

3. Water [\[help\]](#)

a. Surface Water:

- 1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into. [\[help\]](#)

No, does not apply to this proposal, this strategy is not site specific.

- 2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans. [\[help\]](#)

No, specific projects or actions may be taken to implement elements of this plan. Where appropriate, project specific SEPA review will occur.

- 3) Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material. [\[help\]](#)

Does not apply to this proposal.

- 4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

No, does not apply to this proposal.

- 5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan. [\[help\]](#)

No, does not apply to this proposal.

- 6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge. [\[help\]](#)

No, does not apply to this proposal.

b. Ground Water:

- 1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities

withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known. [\[help\]](#)

No, does not apply to this proposal.

- 2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: Domestic sewage; industrial, containing the following chemicals. . . ; agricultural; etc.). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve. [\[help\]](#)

Does not apply to this proposal.

c. Water runoff (including stormwater):

- 1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (include quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe. [\[help\]](#)

Does not apply to this proposal.

- 2) Could waste materials enter ground or surface waters? If so, generally describe. [\[help\]](#)

Does not apply to this proposal.

- 3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe. [\[help\]](#)

Does not apply to this proposal.

d. Proposed measures to reduce or control surface, ground, and runoff water, and drainage pattern impacts, if any: [\[help\]](#)

Does not apply to this proposal.

4. **Plants** [\[help\]](#)

a. Check the types of vegetation found on the site: [\[help\]](#)

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- Orchards, vineyards or other permanent crops.
- wet soil plants: cattail, buttercup, bullrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

b. What kind and amount of vegetation will be removed or altered? [\[help\]](#)

Does not apply to this proposal.

c. List threatened and endangered species known to be on or near the site. [\[help\]](#)

Depends on project location.

d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any: [\[help\]](#)

Does not apply to this proposal.

e. List all noxious weeds and invasive species known to be on or near the site. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific

5. **Animals** [\[help\]](#)

a. List any birds and other animals which have been observed on or near the site or are known to be on or near the site. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

Examples include:

birds: hawk, heron, eagle, songbirds, other:

mammals: deer, bear, elk, beaver, other:

fish: bass, salmon, trout, herring, shellfish, other _____

b. List any threatened and endangered species known to be on or near the site. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific

c. Is the site part of a migration route? If so, explain. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific

d. Proposed measures to preserve or enhance wildlife, if any: [\[help\]](#)

Specific projects or actions may be taken to implement elements of this plan. Where appropriate, project specific SEPA review will occur.

e. List any invasive animal species known to be on or near the site. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

6. **Energy and Natural Resources** [\[help\]](#)

a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc. [\[help\]](#)

Does not apply to this proposal.

b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe. [\[help\]](#)

Does not apply to this proposal.

- c. What kinds of energy conservation features are included in the plans of this proposal?
List other proposed measures to reduce or control energy impacts, if any: [\[help\]](#)

Does not apply to this proposal.

7. Environmental Health [\[help\]](#)

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal?
If so, describe. [\[help\]](#)

Does not apply to this proposal.

- 1) Describe any known or possible contamination at the site from present or past uses. [\[help\]](#)
2) Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- 3) Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. [\[help\]](#)

Does not apply to this proposal.

- 4) Describe special emergency services that might be required. [\[help\]](#)

Does not apply to this proposal.

- 5) Proposed measures to reduce or control environmental health hazards, if any: [\[help\]](#)

Does not apply to this proposal.

b. Noise [\[help\]](#)

- 1) What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? [\[help\]](#)

Does not apply to this proposal.

- 2) What types and levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. [\[help\]](#)

Does not apply to this proposal.

- 3) Proposed measures to reduce or control noise impacts, if any: [\[help\]](#)

Does not apply to this proposal.

8. Land and Shoreline Use [\[help\]](#)

- a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- 1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how: [\[help\]](#)

Does not apply to this proposal.

- c. Describe any structures on the site. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- d. Will any structures be demolished? If so, what? [\[help\]](#)

Does not apply to this proposal.

- e. What is the current zoning classification of the site? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- f. What is the current comprehensive plan designation of the site? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- g. If applicable, what is the current shoreline master program designation of the site? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- h. Has any part of the site been classified as a critical area by the city or county? If so, specify. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

- i. Approximately how many people would reside or work in the completed project? [\[help\]](#)

Does not apply to this proposal.

- j. Approximately how many people would the completed project displace? [\[help\]](#)

Does not apply to this proposal.

- k. Proposed measures to avoid or reduce displacement impacts, if any: [\[help\]](#)

Does not apply to this proposal.

- l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any: [\[help\]](#)

Does not apply to this proposal.

m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any: [\[help\]](#)

Does not apply to this proposal.

9. Housing [\[help\]](#)

a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Does not apply to this proposal.

b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing. [\[help\]](#)

Does not apply to this proposal.

c. Proposed measures to reduce or control housing impacts, if any: [\[help\]](#) N/A

Does not apply to this proposal.

10. Aesthetics [\[help\]](#)

a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed? [\[help\]](#)

Does not apply to this proposal.

b. What views in the immediate vicinity would be altered or obstructed? [\[help\]](#)

Does not apply to this proposal.

b. Proposed measures to reduce or control aesthetic impacts, if any: [\[help\]](#)

Does not apply to this proposal.

11. Light and Glare [\[help\]](#)

a. What type of light or glare will the proposal produce? What time of day would it mainly occur? [\[help\]](#)

Does not apply to this proposal.

b. Could light or glare from the finished project be a safety hazard or interfere with views? [\[help\]](#)

Does not apply to this proposal.

c. What existing off-site sources of light or glare may affect your proposal? [\[help\]](#)

Does not apply to this proposal.

d. Proposed measures to reduce or control light and glare impacts, if any: [\[help\]](#)

Does not apply to this proposal.

12. Recreation [\[help\]](#)

a. What designated and informal recreational opportunities are in the immediate vicinity? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

b. Would the proposed project displace any existing recreational uses? If so, describe. [\[help\]](#)
Does not apply to this proposal.

c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any: [\[help\]](#)
Does not apply to this proposal.

13. Historic and cultural preservation [\[help\]](#)

a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.

Does not apply to this proposal, this strategy is not site specific.

b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc. [\[help\]](#)

As specific projects are conceived, they will be reviewed by WDFW. Project reviews will be informed by the results of prior archaeological and historic research, review of ethnographies and ethnographic information, information provided by the Tribes during consultation, the results of coordination with stakeholders and agency staff, regional land use practices, local and regional geomorphological conditions, and regional settlement patterns. As needed, WDFW will conduct cultural resource surveys of project area to assess potential of the project to impact cultural resources, to characterize the impacts, if any, and to make recommendations about reasonable options to avoid, minimize, or mitigate impacts to any archaeological or cultural resources should any be present at the project location.

d. Proposed measures to avoid, minimize, or compensate for loss, changes to, and disturbance to resources. Please include plans for the above and any permits that may be required. [\[help\]](#)

Specific project locations have not yet been identified. As specific projects are designed, they will be reviewed by WDFW as described above. The project reviews will be used to inform project plans. In every case, WDFW will adopt all reasonable measures to avoid, minimize, or mitigate impacts to any archaeological or cultural resources should any be present at the project location.

14. Transportation [\[help\]](#)

a. Identify public streets and highways serving the site or affected geographic area and describe proposed access to the existing street system. Show on site plans, if any. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop? [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate? [\[help\]](#)

Does not apply to this proposal.

d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private). [\[help\]](#)

Does not apply to this proposal.

e. Will the project or proposal use (or occur in the immediate vicinity of) water, rail, or air transportation? If so, generally describe. [\[help\]](#)

Does not apply to this proposal, this strategy is not site specific.

f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates? [\[help\]](#)

Does not apply to this proposal.

g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe. [\[help\]](#)

Does not apply to this proposal.

h. Proposed measures to reduce or control transportation impacts, if any: [\[help\]](#)

Does not apply to this proposal.

15. **Public Services** [\[help\]](#)

a. Would the project result in an increased need for public services (for example: fire protection, police protection, public transit, health care, schools, other)? If so, generally describe. [\[help\]](#)

No.

b. Proposed measures to reduce or control direct impacts on public services, if any. [\[help\]](#)

Does not apply to this proposal.

16. **Utilities** [\[help\]](#)

a. Circle utilities currently available at the site: [\[help\]](#)
electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system,
other _____

None

b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed. [\[help\]](#)

Does not apply to this proposal.

C. Signature

[\[help\]](#)

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature: *Joel P. Sisolak* [signed]

Name of signee Joel P. Sisolak

Position and Agency/Organization : Recreation and Planning Section Manager, WFW

Date Submitted: 1/6/22

D. supplemental sheet for nonproject actions [\[help\]](#)

(IT IS NOT NECESSARY to use this sheet for project actions)

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent the proposal, or the types of activities likely to result from the proposal, would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1. How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise?

This proposal will not increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substances; or production of noise.

Proposed measures to avoid or reduce such increases are:

Does not apply to this proposal.

2. How would the proposal be likely to affect plants, animals, fish, or marine life?

The Strategy proposes strategic initiatives that will promote protection of plants, animals, fish and marine life. 1) Use and impact monitoring – develop and manage data systems that support recreation planning and management decisions; 2) recreation planning – plan to accommodate outdoor recreation where it is compatible with conservation goals and other management priorities; 3) rule making – regulate public uses of WDFW-managed lands to provide rich opportunities for recreation while protecting the health and safety of fish, wildlife, habitat, department personnel, neighbors, and other visitors; 4) education and engagement; and, 5) travel management.

Specific projects or actions will be taken to implement elements of this plan. Where appropriate, project specific SEPA review will occur

3. How would the proposal be likely to deplete energy or natural resources?

Proposed measures to protect or conserve energy and natural resources are:

Does not apply to this proposal.

4. How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?

Goals of the 10-year strategy include increasing protections for cultural and natural resources as well as enhancing recreation on WDFW-managed lands.

Environmental impacts data and monitoring will help inform decisions on where to allow and manage recreation. Buffers and setbacks will provide heightened protection for areas and features that have significant environmental, cultural or tribal value. The type, timing, frequency, and volume of recreation may at times be limited in sensitive areas to mitigate negative impacts to local habitats and species.

Specific projects or actions will be taken to implement elements of this plan. Where appropriate, project specific SEPA review will occur

5. How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?

Proposed measures to avoid or reduce shoreline and land use impacts are:

. The implemented Strategy will provide protection and enhancement measures for all WDFW-managed lands primarily for riparian, estuary, nearshore, and floodplain habitats, and wetland systems.

6. How would the proposal be likely to increase demands on transportation or public services and utilities?

Does not apply to this proposal. Additional demand for transportation needs will be assessed during a project specific SEPA process for each site.

Proposed measures to reduce or respond to such demand(s) are:

Does not apply to this proposal.

7. Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.

The Strategy will not conflict with any laws or requirements for the protection of the environment. The sidebars for the creation of this strategy stated that it must conform to all state and federal laws, agency policies, and species recovery and management plans.
