Garret,

Thank you for reviewing the Johns River Access Redevelopment project and providing comments. We will be sure to follow the guidance and regulatory requirements provided in your comments such as ensuring fill is from a clean source, material disposal occurs at an approved site in accordance with local health department regulations, erosion control devices are in place prior to construction, and we file for the appropriate construction stormwater permits.

Please contact me if you have any further questions or comments.

Thank you,

Brian Blossom
