

COLUMBIA RIVER FALL CHINOOK

2021 Forecast/Actual Returns and 2022 Preseason Forecasts

The forecasts shown here are estimates made in February in preparation for the North of Falcon season-setting process. Once the North of Falcon process is complete, these February forecasts will change slightly due to projected harvest in ocean fisheries; the forecasts below are to the Columbia River mouth. Final forecasts will be available in mid-April.

Stock Group	2021		2022
	February Forecasts	Actual Returns	February Forecasts
Lower River Hatchery - LRH	73,100	74,700	73,000
Lower River Wild - LRW	20,000	16,900	10,800
