Is this transfer being made to create a new (previously non-existing) cultivated shellfish bed? Yes No

If answer is "yes", to any of the above, you must provide relevant Aquatic Farm Registration (AFR) number(s) with detail showing the AFR parcel(s) from which shellfish, seed, or shell will be removed and/or the AFR parcel(s) to which shellfish, seed, or shell will be planted (attach list if necessary).

AFR Number:

Important! For purposes of this application, shellfish cultivation involves the “culture of aquatic products” and generally includes efforts to cultivate shellfish via planting and/or other activities like gravelling or predator control to enhance the productivity of any area whether or not it includes some natural set of shellfish. Be advised that if you are establishing a new shellfish cultivation bed there is a separate duty to comply with the Shellfish Implementation Plan (SIP), entered as a court order in United States vs. Washington, in order to ensure that shell-fishing rights of Puget Sound Treaty Tribes are given due consideration. Section 6 of the SIP requires commercial shellfish growers to provide affected tribes with certain advance notices prior to establishing new cultivation beds and provides processes for growers and tribes to work together to develop any required management plans for shared harvest.

RCW 77.60.080, RCW 77.60.060, WAC 220-340-150, WAC220-340-050, and WAC 220-370-200 require all transfers and imports be accompanied by a permit issued by the Director of Fish and Wildlife or his agent.

ACCEPTANCE

By checking this box, the permittee agrees to abide by the conditions set forth in any Shellfish Transfer Permit issued by the Washington Department of Fish and Wildlife. The permittee acknowledges that they have read and understand the requirements outlined in the Shellfish Transfer Permit Supplemental Information packet (separate document).
