Current Crew Member License regulation

• Requires all crew who are not family members of the commercial fishing license holder to obtain a crew license.

• Allows the commercial fishing license holder to obtain two crew licenses that do not specify an individual.

- rational for rule change

• HB 1437 in 2020 established a limit of two unspecified crew-member licenses.
• The legislation included a provision for the number of these unspecified crew member licenses to be increased.
• In 2021, representatives from the Purse Seine Vessel Owners Association contacted department staff with the interest of increasing the number of licenses, particularly for larger vessel which often carry several crew.
