

Fish Committee Recommendation for Future Meeting Planning
December 8, 2020

The Fish Committee recommends the Commission

1. place the [schedule](#) for the Commission process to consider adoption of the proposed Co-Manager Hatchery Policy into the Year-at-a-Glance planner, and
2. adopt the [Terms of Reference](#) for a sequence of four workshops on changes in salmon hatchery production levels associated with prey enhancement for Southern Resident Killer Whales, and ask the staff to propose a preliminary schedule for consideration at the January 26-28, 2023 Commission meeting.
