

## Comment on DNS 23-004 from Clark County

Received via PublicInput

“Thank you for routing your SEPA determination of DNS to county staff for comment. Per the preapplication conference (PAC-2022-00236) that was held on 7/14/2022, county staff discussed this project with the applicant and determined that this work would trigger the following review: Shoreline Exemption, Floodplain Inquiry, and Geological Hazard. I've attached the preapplication conference report for your reference and if you have any questions please feel free to reach out directly.  
Bryan Mattson Planner III bryan.mattson@clark.wa.gov 564-397-4319”
