

State of Washington
DEPARTMENT OF FISH AND WILDLIFE
Habitat Program: PO Box 43200, Olympia Washington 98504-3200 - (360) 902-2534

ENVIRONMENTAL CHECKLIST
(WAC 197-11-960)

A. BACKGROUND

1. Name of proposed project if applicable:

Plant triploid (sterile) grass carp to control aquatic vegetation.

2. Name of applicant: Matt Hamilton

3. Address and phone number of applicant and contact person: 16313 Kelly Rd NE, Duvall
WA 98019, 509-336-9710

4. Date of checklist prepared: 4/2/2023

5. Agency requesting checklist: **Washington Department of Fish and Wildlife**

6. Proposed timing or schedule (include phasing, if applicable): as soon as possible

7. Do you have any plans for future additions, expansions or further activity related to or connected with this proposal? If yes, explain: **YES. may need to restock. in five years or more. due to predation or natural die off.** No

8. List any environmental information you know about that has been prepared or will be prepared, directly related to this proposal: None

9. Do you know whether applications are pending for government approvals of other proposals directly affecting the property covered by your proposal? If yes, explain: **No.**

10. List any government approvals or permits that will be needed for your proposal, if known:

- a. **Planting permit from Washington Department of Fish and Wildlife.**
- b. **Certificate from U.S. Fish and Wildlife Service that the fish shipped are triploids (sterile) and certification that the fish show no sign of disease.**

11. Give a brief, complete description of your proposal, including the proposed use and the size of the project. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to answer those on this page.

a. **Plant triploid grass carp to control aquatic vegetation.**

12. Location of proposal. Give sufficient information for a person to understand the precise location of your proposed project, including: **street address, if any, and section, township and range (required)**. If a proposal would occur over a range of areas, provide the range or boundaries of the site(s). Provide a legal description and site plan, if reasonably available. **A copy of a vicinity map or topographic map is required.** While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

16313 Kelly Rd NE, Duvall WA 98019
County: King, Sec: 16, Township: 26, Rng. 7
See attached proximity

B. ENVIRONMENTAL ELEMENTS

1. EARTH

- a. General description of the site (circle one): Flat, rolling, hilly, steep slopes, mountainous, other: Variable; flat but within creek valley
- b. What is the steepest slope on the site (approximate percent slope)? 30-40 deg at creek bank
- c. What general types of soils are found on the site (for example: clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and not any prime farmland. Loam, gravel
- d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe: No
- e. Describe the purpose, type and approximate quantities of any filling or grading proposed. Indicate source of fill. Not applicable, application is for Grass Carp
- f. Could erosion occur as a result of clearing, construction or use? If so, generally describe: Not applicable, application is for Grass Carp
- g. About what percent of the site will be covered with impervious surfaces after project construction (for example: asphalt or buildings)? Not applicable, application is for Grass Carp
- h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any: Not applicable, application is for Grass Carp

2. AIR

- a. What type of emissions to the air would result from the proposal (for example: dust automobile, odors, industrial wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known.

Normal vehicle emissions from the WOFW site visit and the initial delivery of the grass carp. No emissions to the air will occur from the presence of grass carp.

- b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe:

Not applicable, application is for Grass Carp

- c. Proposed measures to reduce or control emissions or other impacts to air, if any:

Not applicable, application is for Grass Carp

3. WATER

a. Surface

1. Is there any surface water body on the immediate vicinity of the site (including year-round and season streams, saltwater, lakes, ponds or wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.

Yes, see map. Cherry Creek flows on the opposite sides of artificial berms. Pond water flows west into the creek where the two channels intersect.

2. Will the project require any work over, in or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.

No outlet screening is already in place.

3. Estimate the amount of fill and dredge material that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.

Not applicable, application is for Grass Carp.

4. Will the proposal require surface water withdrawals or diversions? Give general description, purpose and approximate quantities if known.

Not applicable, application is for Grass Carp.

5. Does the proposal lie within a 100-year floodplain? YES NO
If yes, note location on the site plan.

No, the pond is not within the 100-y floodplain.

6. Does the proposal involve any discharges of waste material to surface waters? If so, describe the type of waste and anticipated volume of discharge. Grass carp have a short and inefficient digestive tract and can digest only about half of what they consume (2-3 times their weight) in a day. The rest is excreted into the water, nitrifying the water and promoting algal blooms. These blooms can decrease water clarity and reduce oxygen levels.

b. Ground

1. Will ground water be withdrawn or will water be discharged to ground water? Give general description, purpose and approximate quantities, if known.
Not applicable, application is for Grass Carp.
2. Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage, industrial, containing the following chemicals, agricultural). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable) or the number of animals or humans the system(s) are expected to serve.
Not applicable, application is for Grass Carp.

c. Water Runoff (including storm water):

1. Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.
Not applicable, application is for Grass Carp.
2. Could waste materials enter ground or surface waters? If so, generally describe.

Yes. Grass carp have a short and inefficient digestive tract and can digest only about half of what they consume (2-3 times their weight) in a day. The rest is excreted into the water, nutrifying the water and promoting algal blooms. These blooms can decrease water clarity and reduce oxygen levels.

3. Proposed measures to reduce or control surface, ground and runoff water impacts, if any:
Not applicable, application is for Grass Carp.

4. PLANTS

a. Check or circle types of vegetation found on the site:

- deciduous tree: alder, maple, aspen, other
- evergreen tree: fir, cedar, pine, other
- shrubs
- grass
- pasture
- crop or grain
- wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other
- water plants: water lily, eelgrass, milfoil, other
- other types of vegetation

- b. What kind and amount of vegetation will be removed or altered?

Aquatic plants. primarily duck weed and large leaf pond weed.

- c. List threatened and endangered species (of plants) known to be on or near the site.

None, application is for Grass Carp.

- d. Proposed landscaping, use of native plants or other measures to preserve or enhance vegetation on the site if any:

Not applicable, application is for Grass Carp.

5. ANIMALS

- a. Circle any birds or animals that have been observed on or near the site or are known to be on or near the site:

Birds: hawk, heron, eagle, songbirds, other:

Not applicable, application is for Grass Carp. But circled animals I've seen

Mammals: deer, bear, elk, beaver, other:

Fish: bass, salmon, trout, herring, shellfish, other: _____

- b. List any threatened or endangered species known to be on or near the site.

None, application is for Grass Carp.

- c. Is the site part of a migration route? If so, explain.

Not applicable, application is for Grass Carp.

- d. Proposed measures to preserve and enhance wildlife, if any:

We want the property to be a natural and healthy environment for the animals. Intending for the grass carp to keep the pond vegetation in check so ducks and other birds can use pond

6. ENERGY AND NATURAL RESOURCES

- a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used in order to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.

Not applicable, application is for Grass Carp.

- b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.

Not applicable, application is for Grass Carp.

- c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any:

Not applicable, application is for Grass Carp.

7. ENVIRONMENTAL HEALTH

- a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill or hazardous waste that could occur as a result of this proposal.

Not applicable, application is for Grass Carp.

1. Describe special emergency services that might be required.

Not applicable, application is for Grass Carp.

2. Proposed measures to reduce or control environmental health hazards.

Not applicable, application is for Grass Carp.

b. Noise

1. What types of noise exist in the area that may affect your project (for example: traffic, equipment, operation, other)?

Not applicable, application is for Grass Carp.

2. What types and levels of noise would be created by or associated with the project on a short-term or long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site.

Normal vehicle noise from the WOFW site visit and the initial delivery of the grass carp.

3. Proposed measures to reduce or control noise impacts, if any:

Not applicable, application is for Grass Carp.

8. LAND AND SHORELINE USE

1. What is the current use of the site and adjacent properties?

Primary Home

2. Has the site been used for agriculture? If so, describe?

No

3. Describe any structures on the site.

Primary Home

4. Will any structures be demolished? If so, what?

Not applicable, application is for Grass Carp.

5. What is the current zoning classification of the site?

Not applicable, application is for Grass Carp.

6. What is the current comprehensive plan designation of the site?

Not applicable, application is for Grass Carp.

7. If applicable, what is the current shoreline master program designation of the site?

Not applicable, application is for Grass Carp.

8. Has any part of the site been classified as an “environmentally sensitive” area? If so, specify.
Not applicable, application is for Grass Carp.
9. Approximately how many people, would reside or work in the completed project?
Not applicable, application is for Grass Carp.
10. Approximately how many people would the completed project displace?
Not applicable, application is for Grass Carp.
11. Proposed measures to avoid or reduce displacement impacts, if any:
Not applicable, application is for Grass Carp.
12. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any:
Not applicable, application is for Grass Carp.
9. HOUSING
1. Approximately how many units would be provided, if any? Indicate whether high, middle or low-income housing.
Not applicable, application is for Grass Carp.
2. Approximately how many units, if any would be eliminated? Indicate high, middle or low-income housing.
Not applicable, application is for Grass Carp.
3. Proposed measures to reduce or control housing impacts, if any:
Not applicable, application is for Grass Carp.
10. AESTHETICS
1. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?
Not applicable, application is for Grass Carp.
2. What views in the immediate vicinity would be altered or obstructed?
Not applicable, application is for Grass Carp.
3. Proposed measures to reduce or control aesthetic impacts, if any:
Not applicable, application is for Grass Carp.
11. LIGHT AND GLARE
1. What type of light or glare will the proposal produce? That time of day would it mainly occur?
Not applicable, application is for Grass Carp.

2. Could light or glare from the finished project be a safety hazard or interfere with views?
Not applicable, application is for Grass Carp.
3. What existing off-site sources of light or glare may affect your proposal?
Not applicable, application is for Grass Carp.
4. Proposed measures to reduce or control light and glare impacts, if any:
Not applicable, application is for Grass Carp.

12. RECREATION

1. What designated and informal recreational opportunities are in the immediate vicinity?
Not applicable, application is for Grass Carp.
2. Would the proposed project displace any existing recreational uses? If so, describe.
Not applicable, application is for Grass Carp.
3. Proposed measures to reduce or control impacts on recreation, including recreational opportunities to be provided by the project or applicant, if any:
Not applicable, application is for Grass Carp.

13. HISTORIC AND CULTURAL PRESERVATION

1. Are there places or objects listed on, or proposed for, national, state or local preservation registers known to be on or next to the site? If so, generally describe.
Not applicable, application is for Grass Carp.
2. Generally describe any landmarks or evidence of historic, archaeological, scientific or cultural importance known to be on or next to the site.
Not applicable, application is for Grass Carp.
3. Proposed measures to reduce or control impacts, if any:
Not applicable, application is for Grass Carp.

14. TRANSPORTATION

1. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.
Not applicable, application is for Grass Carp.
2. Is the site currently served by public transit? If no, what is the approximate distance to the nearest transit stop?
Not applicable, application is for Grass Carp.
3. How many parking spaces would the completed project have?
Not applicable, application is for Grass Carp.

4. How many would the project eliminate?
Not applicable, application is for Grass Carp.
5. Will the proposal require any new roads or streets, or improvements to existing roads or streets, not including driveways? If so, generally describe (indicate whether public or private).
Not applicable, application is for Grass Carp.
6. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.
Not applicable, application is for Grass Carp.
7. How many vehicular trips per day would be generated by the completed project? If known, indicate when peak volumes would occur
Not applicable, application is for Grass Carp.
8. Proposed measures to reduce or control transportation impacts, if any:
Not applicable, application is for Grass Carp.

15. PUBLIC SERVICES

1. Would the project result in an increased need for public services (for example: fire protection, police protection, health care, schools, other)? If so, generally describe.
Not applicable, application is for Grass Carp.
2. Proposed measures to reduce or control direct impacts on public services.
Not applicable, application is for Grass Carp.

16. UTILITIES

1. Circle utilities currently available at the site: electricity, natural gas, water, refuse service, telephone, sanitary sewer, septic system, other:
Not applicable, application is for Grass Carp.
2. Describe the utilities that are proposed for the project, the utility providing the service and the general construction activities on the site or in the immediate vicinity that might be needed.
Not applicable, application is for Grass Carp.

17. SIGNATURE

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.
