**Subject:** ECY comment on Viramontes Grass Carp application - SEPA 202302157  
**Date:** Friday, May 26, 2023 3:14:10 PM

---

Thank you for your comments on the Viramontes grass carp application. The scope of the applications that our department processes for stocking grass carp is limited to introducing small numbers of fish into existing waters and never involves construction, land disturbances, or activities that would impair water quality.

Please let me know if you have any questions.
