RE: DNS-24-029 - Roza Dam Fish Ladder Sediment
SR 821 (Canyon Road) milepost 6.16 Lt.

We have reviewed the proposed project and have the following comments.

- The subject property is adjacent to State Route 821 (SR 821), a Class 3 access managed highway with a posted speed limit of 45 miles per hour. Currently, access to the property is via a grandfathered approach at milepost 6.16 left. This driveway can continue to serve Roza Dam and the adjacent properties; no additional access to the property will be allowed.
- All loads transported on WSDOT rights-of-way must be within the legal size and load limits or have a valid oversize and/or overweight permit. Additionally, it is the applicant's responsibility to keep and maintain SR 821 free of any of their debris. Any spilled material shall be promptly cleaned up at the applicant's expense.

Thank you for the opportunity to review and comment on this proposal. If you have any questions regarding our comments, please contact Aaron Hatfield (509) 268-8497.

Sincerely,

Stephen P. (Phil) Nugent
Region Planning Manager
