

Comment on DNS 25-008 from Ecology

Please see my comment below for [SEPA#202500659 - WA Department of Fish and Wildlife](#). If you have questions let me know.

Ecology Staff Comment:

WQ: This project does not qualify for a WA Upland Finfish Hatching and Rearing General Permit but must be compliant with applicable state wastewater discharge standards and effluent limitations in order to protect surface water quality. Therefore, please review WAC 173-221A-100 and ensure your project activities comply with the pertinent subsections. Ensure any settling basin prior to discharge to Deep Creek is functional and effective at removing solids to meet the appropriate effluent discharge standards.

For more information or technical assistance, please contact Jordan Bauer at (509)688-9403 or via email jbau461@ecy.wa.gov
