

Avian Salmon Predation Working Group

November 7, 2024

1pm – 5pm

Washington
Department of
**FISH &
WILDLIFE**

Meeting will resume at 2:40pm

Expectations

- Participate and engage
- Bring your ideas, experiences, and perspectives
- Hold space for *others'* ideas, experiences, and perspectives
- Engage in respectful dialogue; listen to understand
- If there are disagreements – challenge the idea, not the individual
- Be considerate of time and scheduling
- Virtual meetings: please use the Raise Hand feature and mute mic when not speaking.

WDFW's A.S.P.I.R.E values

- **Accountability** – accomplishing our work
- **Service** – seeking solutions that benefit people and resources
- **Professionalism** – engage positively with one another
- **Integrity** – honest, ethical, and genuine in our interactions
- **Respect** – treat each other with dignity
- **Empathy** – work to understand and appreciate different perspectives

Considerations

- Role of WDFW and ASPWG
 - WDFW can likely help compile existing info that addresses the legislative ask
 - How can ASPWG take it “one step further” ?
 - Management questions? Discussions of nuances related to different remedies? (Implementation, cost, evaluation, etc....)
- What work is in scope and out of scope of this group’s task?
 - Big/complex topic with lot of interrelated topics as well
- What are the “givens” of this topic?
- Where do we have questions/need more info?

Proposed timeline

- **Meeting 1: November 7**
- **Meeting 2: February**
 - In person? Full day? Location? **Hybrid, Olympia?**
 - Science/data presentations – level setting
 - Review report outline
 - Information sharing/gathering
- **Meeting 3: April**
 - In person? Full day? Location? **Hybrid - Yakima? Around Salmon Rec. Conf.?**
 - Review draft report
 - *Additional topical discussions*
- **Meeting 4: Early June**
 - Virtual? Part day?
 - Finalize draft report

June 30, 2025 – Report finished, ASPWG adjourns
