Summary

Meeting dates: March 1, 2013

Agenda item 11: Deer General and Special Permit Seasons and Regulations – **Rule Briefing and Public Hearing**

Presenter(s): Jerry Nelson, Ph.D., Deer and Elk Section Manager

Background summary:

Staff will brief the Commission on proposed amendments to WAC 232-28-357 2012-2014 Deer general seasons and definitions and WAC 232-28-359 2013 Deer special permits.

Updates will be provided on:

- Harvest data for white-tailed deer in NE Washington
 - Status of major mule deer populations
 - Status of black-tailed deer populations
-

Policy issue(s) you are bringing to the Commission for consideration:

- Continue sustainable hunting seasons for deer.
 - Adjust deer special permits in response to deer population changes and deer damage complaints.
-

Public involvement process used and what you learned:

Notification was made to approximately 600 individuals and organizations informing them of the opportunity to provide comment on the proposed regulations. Additionally these individuals and organizations were informed of the opportunity to provide testimony at the March 1-2, 2013 Commission Meeting in Moses Lake.

Action requested:

Take public comment. Adoption is planned for the April 12-13, 2013 Commission Meeting.

Draft motion language:

N/A

Justification for Commission action:

- To maximize hunting opportunity consistent with achieving population objectives.
 - To address damage complaints and problems using hunter harvest.
-

Communications Plan:

AMENDATORY SECTION (Amending Order 12-70, filed 5/2/12, effective 6/2/12)

WAC 232-28-357 2012-2014 Deer general seasons and definitions. It is unlawful to fail to comply with the bag, possession, and season limits ~~except as~~ described below. Violations of this section are punishable under RCW 77.15.410, Unlawful hunting of big game--Penalty.

Bag Limit: One (1) deer per hunter during the license year except where otherwise permitted by ~~fish and wildlife commission~~department rule.

Hunting Method: Hunters must select one of the hunting methods: ~~(modern firearm, archery, or muzzleloader)~~.

Any Buck Deer Seasons: Open only to the taking of deer with visible antlers (buck fawns illegal).

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Antler Restrictions: APPLIES TO ALL HUNTERS DURING ANY GENERAL SEASON AND DESIGNATED SPECIAL PERMIT SEASONS. Buck deer taken in antler restricted game management units (GMUs) must meet minimum antler point requirements. Minimum antler point requirements are antler points on one side only. Eye guards are antler points when they are at least one inch long.

~~2-Point~~2-point minimum ~~Minimum~~ **GMUs:** 437, 636, 654, and 681.

~~3-Point~~3-point minimum ~~Minimum~~ **GMUs:** All mule deer in 100, 200, and 300 series GMUs; white-tailed deer in GMUs 127, 130, 133, 136, 139, 142, 145, 149, 154, 162, 163, 166, 169, 172, 175, 178, 181, 186, and black-tailed deer in GMU 578.

~~4-Point~~4-point minimum ~~Minimum~~ **GMUs:** All white-tailed deer in GMUs 117 and 121.

~~Permit Only~~Permit-only **Units:** The following GMUs require a special permit to hunt deer: 157 (Mill Creek Watershed), 290 (Desert), 329 (Quilomene), 371 (Alkali), and 485 (Green River).

GMUs Closed to Deer Hunting: 490 (Cedar River) and 522 (Loo-wit).

Types of deer that a person may legally hunt in Washington:

Black-tailed Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) found west of a line drawn from the Canadian border south on the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to the Klickitat River; south down Klickitat River to the Columbia River.

Mule Deer: Any member of black-tailed/mule deer (species *Odocoileus hemionus*) found east of a line drawn from the Canadian border south on the Pacific Crest Trail and along the Yakama Indian Reservation boundary in Yakima County to the Klickitat River; south down Klickitat River to the Columbia River.

White-tailed Deer: ~~Means any~~Any white-tailed deer (member of the species *Odocoileus virginianus*), , except the Columbian whitetail deer (species *Odocoileus virginianus leucurus*).

MODERN FIREARM DEER SEASONS

License Required: A valid big game hunting license, which includes a deer species option.

Tag Required: A Valid-valid modern firearm deer tag ~~on his/her person~~ for the area hunted.

Hunting Method: Modern firearm deer tag hunters may use rifle, handgun, shotgun, bow or muzzleloader, but only during modern firearm seasons.

Hunt Season	2012 Dates	2013 Dates	2014 Dates	Game Management Units (GMUs)	Legal Deer

[Statutory Authority: RCW 77.12.047. 12-11-005 (Order 12-70), § 232-28-357, filed 5/2/12, effective 6/2/12.]

WAC 232-28-357 2012-2014 Deer general seasons and definitions.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Pages 1-7

- Several technical amendments were made throughout this section to improve the clarity and accuracy of the rule.

Page 3

- Under the modern firearm general season, for western Washington black-tail, any deer, GMUs 411-417, 419-422, and 655 were added and Deer Areas 4013, 4926, and 6014 were removed. These proposed changes convert some of the island Deer Areas to GMUs. The listed GMUs used to be Deer Areas or they were Deer Areas that lived within a GMU and are now proposed to be stand-alone GMUs. This conversion will help with harvest data specificity.

Page 4

- Under the modern firearm late general season, for western Washington black-tail, any buck, GMU 655 was added. This change is the result of a Deer Area that lived within a GMU being converted into a stand-alone GMU.
- Under the modern firearm late general season, for western Washington black-tail, any deer, GMUs 411-417, 419-422, and 655 were added and Deer Areas 4013, 4926, and 6014 were removed. These proposed changes convert some of the island Deer Areas to GMUs. The listed GMUs used to be Deer Areas or they were Deer Areas that lived within a GMU and are now proposed to be stand-alone GMUs. This conversion will help with harvest data specificity.
- Under the early archery general season, for western Washington black-tail, any deer, GMU 655 was added. This change is the result of a Deer Area that lived within a GMU being converted into a stand-alone GMU.

Page 5

- Under the late archery general season, for western Washington black-tail, any buck, GMU 655 was added. This change is the result of a Deer Area that lived within a GMU being converted into a stand-alone GMU.

- Under the late archery general season, for western Washington black-tail, any deer, GMUs 411-417 and 419-422 were added. The listed GMUs used to be Deer Areas or they were Deer Areas that lived within a GMU and are now proposed to be stand-alone GMUs.

Page 6

- Under the early muzzleloader general season, for western Washington black-tail, any deer, GMUs 411-417 and 419-422 were added and Deer Area 4926 was removed. These proposed changes convert some of the island Deer Areas to GMUs. The listed GMUs used to be Deer Areas or they were Deer Areas that lived within a GMU and are now proposed to be stand-alone GMUs. This conversion will help with harvest data specificity.

SUMMARY OF WRITTEN PUBLIC INPUT

WAC 232-28-357 2012-2014 Deer general seasons and definitions.

COMMENTS	AGENCY RESPONSE
<p>I am sending this comment in, because I have a bit of a concern about the proposed season dates for the 2013 & 2014 LATE ARCHERY GENERAL DEER SEASONS. In particular, I am referring to the hunting season dates for the late white-tailed deer hunting season in GMU's 204, 209, 215, 233, 243, 272, 278, and 373. My concern is as follows: in 2012, archery deer hunters were provided the opportunity to hunt white-tailed deer from November 21-December 15, which made a lot of sense, as hunters who were pursuing mule-deer in GMU's 209, 215, 233, and 243 were also allowed to pursue white-tailed deer at the same time, which helped to reduce the amount of hunting pressure that rutting mule-deer bucks faced within those open units, as some archery hunters chose to pursue white-tailed deer in other GMU's such as 204. Under the 2013 & 2014 proposed seasons, the mule-deer season will start on the same dates as what it did in 2012 (Nov. 21-Nov. 30), but, the white-tailed deer season will not open until Nov. 27-Dec. 15 (in 2013) & Nov. 26-Dec. 15 (in 2014), which is about a week later than when it started in 2012.</p> <p>In my opinion, the WDFW should leave the opening date for the late white-tailed deer season in GMU's: 204, 209, 215, 233, 243, 272, 278, and 373 the same as what it was in 2012 (Nov. 21-Dec. 15, which coincides with the opening date of the late mule-deer season). By having the white-tailed deer and mule-deer seasons start on the same dates, it will help to reduce the concentration of hunters within the mule-deer hunting GMU's and reduce the amount of hunting pressure on rutting mule-deer bucks, as some hunters will choose to pursue white-tailed deer instead of mule-deer. This will also help to create some consistency for late archery hunters who are accustomed to having the late white-tail and mule-deer seasons opening on the same date, which should help to reduce the instances of hunters inadvertently taking white-tailed deer out of season (because many just skim through the regulations looking for any major changes).</p>	<p>The season structures for mule deer and white-tailed deer have historically been triggered differently. The mule deer season is a 10-day season, always starting on Nov. 21 and ending on the 30th. The white-tailed deer season has been starting the day before Thanksgiving and running until Dec. 15. It was a coincidence that both opened on Nov. 21 in 2012. The white-tailed deer season shifts with the calendar because Thanksgiving shifts. Most archers that we have heard from like this system and plan their hunting activities accordingly. If hunters are interested in changing this approach it can be a topic of discussion in the next 3-year package which will be 2015-2017.</p>

COMMENTS	AGENCY RESPONSE
<p>Why is muzzleloading season so short and more restricted than both rifle and archery in area 101 and 105? Why are does not allowed, but are with rifle for youth and seniors? I hunted archery for years until I separated my shoulder. Now I muzzleload to avoid the mobs of hunters. Two years ago I tried modern again and it was a zoo. We found 3 dead deer that people just shoot first and then go see if its legal. It turns my stomach. At least with primitive weapons we have to get close and actually use some common sense, so why is this season the most shorted?</p>	<p>Muzzleloader season used to be a 7-day season that only included one weekend. In 2009, the season was extended to 9 days and now includes two weekends. Any additional expansion would have to be part of future 3-year package discussions and would rely on comments from all user groups about expanding opportunity.</p>
<p>The proposed regulations list the following GMUSs as being open for the Late General Season deer hunt: Nov. 15-18 Nov. 14-17 Nov. 13-16 410, 564, Deer Areas 4013, 4926, 6014, 6020 Any deer. Because GMU 410 is being broken into separate GMUs for each island, this wording excludes the other islands from being open for the late hunt. For example, Blakely Island will be GMU 415, but GMU 415 is not listed as an open area for the late hunt. I encourage you to correct this oversight by amending the open areas to include all of the newly formed GMUs. Thank you.</p>	<p>You are correct. Thank you for pointing it out. We have made those corrections.</p>
<p>I would like to see the same number of hunting days for muzzleloaders as there is for the archery and modern firearm folks. Open up more areas to hunt and give more cow permits out also. The late deer season for muzzleloaders is way too limited with little or no opportunities to hunt because of all the private land that is tied up. We've also got to put up gates in the winter areas and close them down so our animals have a chance to make it through winter...there is way too much hunting going on unchecked and the trophy game animals are being slaughtered and the genetics are going away. Start either a late or early season choice and make a draw for the other one to limit the amount of hunters in the field. We've got to get our herds back up to a point that they will survive the up and coming wolf predation and also the non-licensed hunters that come in late and take whatever they want. Our dollars - our wildlife, so let's start protecting what is left out there and give them a chance to become trophy animals. Limit the amount of master hunters. Also, in wintering areas, make it a draw to hunt those areas and limit the landowner's tags too. Close the season at the end of December for everyone.</p>	<p>The Commission expanded the opportunity greatly for muzzleloaders in 2009. Any additional expansion would have to first be part of future 3-year package discussions.</p> <p>The Department tries to limit winter range access to lands we manage when appropriate. If you see illegal out-of-season harvest taking place be sure and call 1-877-WDFW-TIP to report the crime.</p> <p>Master hunters and landowner damage prevention permits are typically used when chronic agricultural damage is already taking place.</p>

COMMENTS	AGENCY RESPONSE
<p>Stop the late buck season, and during the regular season go back to the 1950 seasons: forked-horn black-tail only.</p> <p>We need to build back up the black-tail population. As you are aware, we lost a big portion of the deer with the hair-loss and the spraying of broad leaf plants, by the state and private large landowners like Weyco.</p>	<p>Deer populations are still doing well or have rebounded in some locations. Going back to the 1950s is not an option. The amount of deer habitat available and the amount of timber harvest taking place in the 1950s was substantially different than today.</p>
<p>Archery deer needs to open does again.</p>	<p>Unsure of the meaning of the first comment or the location.</p>
<p>I am curious if GMU 4013 Vashon-Maury is open for hunting bucks during the archery season. I see that you can get a second deer tag for that area, but I don't see where the dates are listed for that area during regular buck. Thanks for the information.</p>	<p>The new GMU designation for Vashon-Maury is GMU 422, and yes, it will be open for early and late archery. Thank you for providing that correction.</p>

AMENDATORY SECTION (Amending Order 12-70, filed 5/2/12, effective 6/2/12)

WAC 232-28-359 ((2012)) 2013 Deer special permits. It is unlawful to fail to comply with the bag, possession, and season limits ~~except as~~ described below. ~~Violations~~ A violation of this section ~~are is~~ punishable under RCW 77.15.410, Unlawful hunting of big game-- Penalty.

Deer Special Permit Hunting Seasons (Open to Permit Holders Only)

Hunters must purchase a deer hunting license prior to ~~purchase~~ of purchasing a permit application. Hunters may only apply for permits consistent with the tag required for the hunt choice; however, Multiple Season Permit holders may apply for archery, muzzleloader, or modern firearm permit hunts. Hunters drawn for a special permit hunt must comply with weapon restrictions, dates, and other conditions listed for the hunt. Hunters drawn for a special permit designated "Any tag" under the "Weapon/Tag" restriction must use equipment consistent with the requirements of their transport tag and license.

Hunter Education Instructor Incentive Permits

- Special deer permits will be allocated through a random drawing to those hunter education instructors ~~that~~ who qualify.
- Permit hunters must use archery equipment during archery seasons, muzzleloader equipment or archery equipment during muzzleloader seasons, and any legal weapon during modern firearm seasons. Hunter orange is required during modern firearm seasons.
- Except for on-line class incentive permits, qualifying hunter education instructors must be certified and have been in active status for a minimum of three consecutive years, inclusive of the year prior to the permit drawing.
- Instructors who are drawn, accept a permit denoted with (*) below, and are able to participate in the hunt, will not be eligible for those specific incentive permits for a period of ten years thereafter.
- Permittees may purchase a second license for use with the permit hunt only.

Qualified hunter education instructors may only receive one incentive permit each year.

Area	Dates	Restrictions	GMUs	Permits
Region 1	All general season and permit seasons established for GMUs included with the permit. Not eligible for seasons and permits for auction hunts; raffle hunts; and hunts for master hunters, youth hunters, hunters with disabilities, <u>or</u> hunters 65 years and older, unless the hunter education instructor legally qualifies for such hunts.	Any white-tailed deer	Any 100 series GMU EXCEPT GMU 157	2*
Region 2		Any white-tailed deer	GMUs 204-215	2
Region 2		Any deer	GMUs 215-251	1*
Region 2		Any deer	GMU 290	1*
Region 3		Any deer	GMUs 335-368, 382, 388	1*
Region 4		Any deer	Any 400 series GMU EXCEPT GMUs 485 and 490	2
Region 5		Legal buck for 500 series GMU of choice or antlerless	Any 500 series GMU open for a general deer hunting season or a special deer permit hunting season	6
Region 6		Legal buck for GMU of choice	GMUs 654, 660, 672, 673, 681	1

[Statutory Authority: RCW 77.12.047. 12-11-005 (Order 12-70), §
232-28-359, filed 5/2/12, effective 6/2/12.]

WAC 232-28-359 2013 Deer special permits.

RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Pages 13-31

- Several technical amendments were made throughout this section to improve the clarity and accuracy of the rule.

Page 14

- Under Quality, Modern, the number of permits for the Chewuch hunt, from Nov. 1-20, was changed from 15 to 20 due to slightly higher deer numbers in post-hunt survey counts allowing for additional opportunity.
- Under Quality, Modern, the number of permits for the Pearrygin hunt, from Nov. 1-20, was changed from 15 to 20 due to slightly higher deer numbers in post-hunt survey counts allowing for additional opportunity.
- Under Quality, Modern, the number of permits for the Gardner hunt, from Nov. 1-20, was changed from 10 to 15 due to slightly higher deer numbers in post-hunt survey counts allowing for additional opportunity.
- Under Quality, Modern, the number of permits for the Pogue hunt, from Nov. 1-20, was changed from 20 to 15 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.
- Under Quality, Modern, the number of permits for the Alta hunt, from Nov. 1-20, was changed from 10 to 15 due to slightly higher deer numbers in post-hunt survey counts allowing for additional opportunity.
- Under Quality, Modern, the number of permits for the Chiwawa hunt, from Nov. 1-20, was changed from 28 to 27 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Modern, the number of permits for the Slide Ridge hunt, from Nov. 1-20, was changed from 11 to 10 due to the special permit allocation formula calculated different special permit numbers from the previous year.

Page 15

- Under Quality, Modern, the number of permits for the Ritzville hunt, from Nov. 1-20, was changed from 12 to 10 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Modern, the number of permits for the Desert hunt, from Oct. 26 to Nov. 3, was changed from 17 to 18 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Modern, the number of permits for the Naneum hunt, from Nov. 12-20, was changed from 14 to 15 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Modern, the number of permits for the Teanaway hunt, from Nov. 12-20, was changed from 14 to 17 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Modern, the season dates for the Wind River hunt were changed to Nov. 14-21. This change corrects a date error that would have caused an overlap between user groups.
- Under Quality, Modern, the season dates for the West Klickitat hunt were changed to Nov. 14-21. This change corrects a date error that would have caused an overlap between user groups.

Page 16

- Under Quality, Archery, the number of permits for the Chiwawa hunt, from Dec. 1-8, was changed from 13 to 12 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Archery, the number of permits for the Desert hunt, from Nov. 25-Dec. 8, was changed from 29 to 32 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Archery, the number of permits for the Teanaway hunt, from Nov. 21-Dec. 8, was changed from 9 to 11 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Archery, the season dates for the West Klickitat hunt were changed to Nov. 22-30 due to the special permit allocation formula calculated different special permit numbers from the previous year.

- Under Quality, Muzzleloader, the number of permits for the Naneum hunt, from Nov. 4-11, was changed from 2 to 1 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Muzzleloader, the number of permits for the Quilomene hunt, from Sept. 28-Oct. 6, was changed from 6 to 4 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Quality, Muzzleloader, the number of permits for the West Klickitat hunt, from Dec. 1-8, was changed from 100 to 75. The reduction is intended to help meet post-hunt management objectives while still providing quality opportunity.

Page 17

- Under Bucks, Modern, the number of permits for the Pogue hunt, from Nov. 1-20, was changed from 20 to 15 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.
- Under Bucks, Modern, the number of permits for the Ritzville hunt, from Dec. 1-8, was changed from 4 to 7 due to the special permit allocation formula calculated different special permit numbers from the previous year.
- Under Bucks, Muzzleloader, the number of permits for the Alkali hunt, from Sept. 22-Oct. 11, was changed from 1 to 2 due to the special permit allocation formula calculated different special permit numbers from the previous year

Page 20

- Under Second Deer, Any tag, the number of permits for the North Okanogan hunt, from Sept. 8-Oct. 9, was changed from 40 to 30 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.
- Under Second Deer, Any tag, the number of permits for the Central Okanogan hunt, from Sept. 8-Oct. 9, was changed from 50 to 30 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.

Page 24

- Under Second Deer, Muzzleloader, the West Klickitat hunt, from Sept. 28-Oct.6, was eliminated due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.
- Under Youth, Modern, the number of permits for the Sinlahekin hunt, from Oct. 12-20, was changed from 20 to 10 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.

- Under Youth, Modern, the number of permits for the Chewuch hunt, from Oct. 12-20, was changed from 25 to 20 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals
- Under Youth, Modern, the number of permits for the Pearrygin hunt, from Oct. 12-20, was changed from 25 to 20 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.

Page 25

- Under Youth, Modern, the number of permits for the Chiliwist hunt, from Oct. 12-20, was changed from 15 to 10 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.
- Under Youth, Modern, the number of permits for the Alta hunt, from Oct. 12-20, was changed from 15 to 10 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals.

Page 26

- Under Senior 65+, Modern, the number of permits for the Chewuch hunt, from Oct. 12-20, was changed from 10 to 5 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals
- Under Senior 65+, Modern, the number of permits for the Pearrygin hunt, from Oct. 12-20, was changed from 10 to 5 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals
- Under Senior 65+, Modern, the number of permits for the Chiliwist hunt, from Oct. 12-20, was changed from 10 to 5 due to lower deer numbers in the post-hunt survey requiring reduced opportunity to maintain population management goals

Page 29

- Under Master Hunter, Any 2nd deer tag, the number of permits for the Region 1 North, from Aug. 1, 2013-March 31, 2014, was changed from 10 to 150 to assist with white-tailed deer research that is being conducted as well as address agricultural damage issues. Heart and kidney fat from harvested deer will be used to assess body condition of deer

SUMMARY OF WRITTEN PUBLIC INPUT

WAC 232-28-359 2014 Deer special permits

COMMENTS	AGENCY RESPONSE
<p>I reviewed the hunting season proposals and had a few comments I wanted to make.</p> <ol style="list-style-type: none"> 1. There are permits issued for GMU 418 for a Quality Buck late season hunt, but only 5 days are given to hunters to fill their tag. 418 is a huge unit and the amount of time needed to properly hunt is far more than 5 days. I would love to see a longer season for the Quality Buck hunt or give 25-50 tags to archery hunters to hunt from November 1 - 20 in the unit so that more time can be provided for hunters. That hunt could be great, but the 5 day season is just too short. 2. In regards to the GMU 418 Quality Buck hunt - it may be worth considering splitting that unit up into a north and south unit for this hunt. The south side of the unit is all lower elevation (800-2500 feet elevation with tons of clear-cuts and logging roads being hunted.) The north side of the unit is a mountain hunt with much more alpine hunting taking place. The 5 day season may make sense for the clear-cut hunt, but for a high mountain alpine hunt, a longer season would be very beneficial. 	<p>The current quality special permit season seems to be more than adequate at this time. Of the 25 hunters that drew that special permit opportunity, only 11 reported hunting that opportunity. Of those 11 hunters, 6 were successful (>50% success rate). Part of the criteria for quality permits to have low numbers of hunters in that unit during the time frame.</p> <p>We have no plans to recommend splitting GMU 418.</p>
<p>In WAC 323-28-359, 2013 Deer Special Permits, Quality, you propose to take away 25 of the 100 permits for Archery in West Klickitat GMU 578. There is no good reason and it is unfair to take away these permits from the archers. This is a great time to mentor new archers especially kids into the sport besides the success rate according to your own stats says that the archers harvest less deer on that 100 tags than the muzzleloaders with the same 100 tags right after our tag season. Also, do not take the 2 days away from the archers during that season.</p>	<p>The reduction from 100 down to 75 permits in both archery and muzzleloader Quality special permits is an attempt to maintain the sustainable aspect of these hunts. Department staff members are trying to maintain appropriate levels of post-bunt buck ratios while providing a quality opportunity. Quality in this example equates to low densities of hunters and a prime time of the year to pursue deer. Harvest reports indicate that archers killed 8 deer in this hunt and muzzleloaders killed 9.</p> <p>The season dates have been corrected. Because of the calendar date adjustments, archers will lose 1 day to avoid overlaps with other weapon groups.</p>

COMMENTS	AGENCY RESPONSE
<p>For the past 47 years I have archery-hunted what was once designated the GMU 588 Unit. These past few years have brought considerable changes, which have split Unit 588 into Units 388 and 578. Since the division of Unit 588, archery opportunities have been greatly reduced. Changes include the harvest of three-point or better (excluding antlerless) and minimizing opportunities through special draw in Unit 578. A review of proposed changes in the regulations reveals yet another modification to this unit. It is important to note that it does not go unnoticed that the job of balancing conservation and fairness to all hunters is no easy task. I don't pretend to understand all the details that go into the decision-making process required to come to a final conclusion, but I would respectfully request that the board reconsider their decision to modify the Special-Permit season as it pertains to archery. Please consider the following: Muzzleloader: November 1-8 (no change) Rifle: November 14 - 20 (a change adding 6 days) Archery: November 21-29 from 22-30 (2 days less and a reduction of 25 permits from 100) Upon reviewing the changes and the distribution of seasons for the entire hunting community, I believe that a good-faith effort has been made by the Department to be fair to all parties concerned. However, with each change over the years, the archery seasons have been drastically reduced to current restrictions. Strictly speaking, however, from a conservation standpoint, the reduction of 25 permits and 2 days in a 3 point or better archery season would add very little to the deer harvest in this unit. I have no argument with the 6 additional days proposed for rifle hunters, they should have the opportunity like everyone else. This I feel is only reasonable, as it should be. Retaining the 2012 muzzleloader and archery permit regulation status and the added 2013 proposal for rifle would be a reasonable compromise and accommodate all parties involved. Thank you for your consideration in this matter.</p>	<p>You are correct, there were some errors in the deer special permit dates. Thank you for bringing this to our attention.</p>

COMMENTS	AGENCY RESPONSE
<p>I think you really need to take a look in the mirror and think about whether you are really doing - what is right for the future of the game animals in the state. Honestly, I don't believe what you are doing is right for promoting a healthy game population.</p> <p>Take, for example, the Alta area. During the past 8 + years the population has gone down significantly. Yet, you continue to have the rifle, archery, and muzzleloader permits at an all-time high. I have hunted, hiked, and taken pictures in this area since I was a kid. It has gone from being able to go out in an evening and seeing 30 + deer in the 80's to where you might only see 2 or 3 deer in 4 days. I had the special permit in 1999 and was able to see several decent bucks, although not a lot of deer. Now when I go over to photograph the deer, it is astounding to see the decline in the deer population that has occurred. The Alta herd was once a well-documented, thriving, and much talked-about herd. Then, for the biologist to tell that it still is, is a stretch of the truth and he/she should be held accountable. The Entiat population is headed in the same direction. So, you really need to ask yourself, is it truly worth it to sacrifice the future deer population for a perceived increase in fund generation? I think you will find out that if you decrease the number of permits you will still sell the same number of licenses, and permit applications. This is a critical time for the deer population, so let's at least try to restore some of it for the future.</p> <p>I know this will probably fall on deaf ears once again, but I had to make my feelings known. Thanks for your time.</p>	<p>The post-hunt deer surveys conducted by the District Biologists are not consistent with your observations. The recommendations made by the Department's field staff are not calling for any major reductions in these units.</p>

PROPOSED RULE MAKING

CR-102 (June 2012)

(Implements RCW 34.05.320)

Do **NOT** use for expedited rule making

Agency: Washington Department of Fish and Wildlife

Preproposal Statement of Inquiry was filed as WSR 12-19-007 on 9/6/12; WSR 12-20-084 on 10/3/12; and WSR 12-23-013 on 11/9/12; or

Expedited Rule Making--Proposed notice was filed as WSR _____; or

Proposal is exempt under RCW 34.05.310(4) or 34.05.330(1).

Original Notice

Supplemental Notice to WSR _____

Continuance of WSR _____

Title of rule and other identifying information: (Describe Subject)

The subject of this proposed rule-making effort is the amendment of hunting seasons and regulations for 2013-2014, archery equipment regulations, and rules governing the importation of dead non-resident wildlife for the purposes of disease control. See Attachment A for a complete listing of rules.

Hearing location(s):

Moses Lake Civic Center
401 S. Balsam
Moses Lake, Washington 98837

Date: March 1-2, 2013 Time: 8:30 a.m.

Submit written comments to:

Name: Wildlife Program Commission Meeting Public Comments

Address: 600 Capitol Way North
Olympia, WA 98501-1091

Fax: (360) 902-2162 by (date) February 15, 2013

Assistance for persons with disabilities: Contact

Tami Lininger by February 22, 2013

TTY (800) 833-6388 or (360) 902-2267

Date of intended adoption: on or after April 12, 2013

(Note: This is **NOT** the effective date)

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

See Attachment A.

Reasons supporting proposal:

See Attachment A.

Statutory authority for adoption: RCWs 77.12.047; 77.12.150; and 77.12.240

Statute being implemented: RCWs 77.12.047; 77.12.150; and 77.12.240

Rules Coordinator

(COMPLETE REVERSE SIDE)

Agency comments or recommendations, if any, as to statutory language, implementation, enforcement, and fiscal matters:

When filing the permanent rule-making order (CR-103P), the WAC sections containing rule amendments will be consolidated into one or two Order Typing Service (OTS) documents.

Name of proponent: (person or organization) Washington Department of Fish and Wildlife

- Private
- Public
- Governmental

Name of agency personnel responsible for:

Name	Office Location	Phone
Drafting..... Nate Pamplin	Natural Resources Building, Olympia	(360) 902-2693
Implementation.... Nate Pamplin	Natural Resources Building, Olympia	(360) 902-2693
Enforcement..... Bruce Bjork	Natural Resources Building, Olympia	(360) 902-2373

Has a small business economic impact statement been prepared under chapter 19.85 RCW or has a school district fiscal impact statement been prepared under section 1, chapter 210, Laws of 2012?

Yes. Attach copy of small business economic impact statement or school district fiscal impact statement.

A copy of the statement may be obtained by contacting:

Name:

Address:

phone () _____

fax () _____

e-mail _____

No. Explain why no statement was prepared.

These rules do not directly regulate small business.

Is a cost-benefit analysis required under RCW 34.05.328?

Yes A preliminary cost-benefit analysis may be obtained by contacting:

Name:

Address:

phone () _____

fax () _____

e-mail _____

No: Please explain: This proposal is not related to hydraulics rules.

ATTACHMENT A

WAC 232-12-021 Importation and retention of dead nonresident wildlife.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The states and provinces listed in this WAC have confirmed chronic wasting disease (CWD) in their wild, free-ranging populations of cervids. This proposal would add the states of Texas and Missouri to those states where additional processing of deer, elk, and moose carcasses is required before they can be brought into Washington.

Reasons supporting proposal:

The proposal reduces the risk of CWD being imported into Washington State via carcasses of animals harvested in other states. Reducing disease risk helps in sustaining deer, elk, and moose hunting opportunities in Washington.

WAC 232-12-054 Archery requirements – Archery special use permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: This proposed amendment is intended to further the discussion on allowing illuminated nocks for archery equipment.

Reasons supporting proposal: This proposal facilitates public discussion of new technologies and consideration of acceptable fair chase and ethical standards for hunting.

WAC 232-28-248 Special closures and firearm restriction areas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: This proposed amendment is part of the effort to streamline, reorganize, and update rules in the WAC Overhaul Project currently underway. Anticipated effects are minimal; this project involves merely rewording and clarifying a rule already in existence.

Reasons supporting proposal: The department needs these changes to increase efficiency, functionality, and clarity of the rules within its Administrative Code.

WAC 232-28-273 2012-2014 Moose seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This amendment clarifies that the exemption from the once-in-a-lifetime moose restriction is also applicable if the hunter applies in the future for a hunt in the permit categories of antlerless moose: raffle, auction, or master hunter. Additionally, this amendment reduces the number of master-hunter moose permits.

Reasons supporting proposal:

The proposed change in language reduces ambiguity regarding who may apply for a moose permit. The reduction in master hunter moose permits reflects the expected number of hunters needed in 2013 and beyond, based on the experience of recent years.

WAC 232-28-286 2013, 2014, and 2015 Spring black bear seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose for amending the 2013-15 spring black bear hunting seasons is to expand opportunity in the north Puget Sound. These spring seasons are mainly established to address damage caused by bears to commercially grown trees. The hunt utilizes recreational hunters to harvest black bears in areas where

chronic tree damage and other property damage has been documented and allows the department to disperse harvest geographically and target male bears. This strategy helps ensure long-term sustainability in the black bear population and provides recreational opportunity for hunters.

Reasons supporting proposal: Spring bear hunting helps address commercial tree damage issues and provides recreational hunting opportunity. In the past, most black bear damage was addressed using depredation permits where the landowner would contract with a hunter using dogs to kill multiple bears near areas with tree damage. Depredation permit hunters were taking an increasing number of bears each year, and over 150 bears were being killed annually. The spring black bear season allows recreational hunters to better target the areas receiving damage and allows hunters rather than contractors to harvest bears.

WAC 232-28-296 Landowner hunting permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to expand the number of special hunting opportunities available on private lands for hunters and to maintain the number of cooperating landowners.

Reasons supporting proposal: Several years ago, the Fish and Wildlife Commission developed a policy to expand the private lands available to the general public for hunting. One of the programs that was authorized is the Landowner Hunting Permit Program. This program encourages landowners to provide opportunity to the general hunter in exchange for customized hunting seasons and the ability to generate funding to offset the cost of providing public access.

WAC 232-28-334 Game management units (GMUs) boundary descriptions -- Region four.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This proposal changes the management area designation of the Puget Sound Islands from Deer Areas to Game Management Units (GMUs). The proposed amendments will allow the Department to better track harvest removals specific to the islands.

Reasons supporting proposal:

This proposal will allow the Department to better track harvest removals specific to the Puget Sound Islands rather than having those removals lumped with mainland GMUs.

WAC 232-28-336 Game management units (GMUs) boundary descriptions -- Region six.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to designate Anderson Island as a Game Management Unit rather than a Deer Area. The proposed language will allow the Department to better track harvest removals specific to the island.

Reasons supporting proposal:

The proposed changes will allow the Department to better track harvest removals specific to the Anderson Island rather than having those removals lumped with a mainland GMU.

WAC 232-28-337 Elk area descriptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to separate Elk Area descriptions from Deer Area descriptions. The proposal also removes one Elk Area that is no longer needed and adjusts the boundary of two other Elk

Areas to make them more effective in dealing with wildlife conflict. Additional language modifications have been made to improve clarity.

Reasons supporting proposal:

Elk Areas help direct hunters at a scale smaller than the GMU when needed. Elk Areas also help staff address local wildlife conflict problems. Some of the language modifications in this proposed amendment are part of the effort to streamline, reorganize, and update rules in the WAC Overhaul Project currently underway.

WAC 232-28-342 2012-13, 2013-14, 2014-15 Small game and other wildlife seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to add GMU 145 to the late fall turkey season. This GMU was inadvertently omitted during the three-year season-setting process. This proposal also modifies bag-limit language pertaining to fall turkey permit seasons. The change to the bag-limit language clarifies that hunters who kill a turkey during the permit seasons may still participate in the other fall seasons open to all hunters.

References to the western Washington Dungeness pheasant release site are also removed under the western Washington pheasant seasons.

Reasons supporting proposal:

GMU 145 is surrounded by other GMUs open during the late fall season. The intent was to include this unit in the three-year proposal. The department supports providing opportunity in this unit.

Turkey populations are healthy or increasing in areas where fall general seasons are in place, and the department is encouraging additional harvest and recreational opportunity in these areas. Allowing harvest during the general seasons by those who draw permits poses no concern for the population.

Clallam County owns the Dungeness release site and has decided to no longer allow use of the area for upland bird hunting. For this reason, removing references to this site is appropriate.

WAC 232-28-357 2012-2014 Deer general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general-season deer hunting opportunity. The purpose is also to balance the hunting opportunity between user groups; increase opportunity when deer populations allow; and reduce opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: The proposed amendment provides recreational deer hunting opportunity and protects deer from overharvest. The amendment would maintain sustainable general deer hunting season opportunities for 2013; address deer damage problems; and provide for deer population control when needed.

WAC 232-28-358 2012-2014 Elk general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general-season elk hunting opportunity. The purpose is also to balance the hunting opportunity between user groups; increase opportunity when elk populations allow; and reduce opportunity when declining elk numbers warrant a change.

Reasons supporting proposal: This proposal provides recreational elk hunting opportunity and protects elk from overharvest. The proposed amendment would maintain sustainable general elk hunting season

opportunities for 2013; address elk damage problems; and provide for elk population control when needed.

WAC 232-28-359 2013 Deer special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain special-permit deer hunting opportunity. The purpose is also to balance the hunting opportunity between user groups; increase opportunity when deer populations allow; and reduce opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: This proposal provides recreational deer hunting opportunity and protects deer from overharvest. The proposed amendment would maintain sustainable deer special-permit hunting season opportunities for 2013; address deer damage problems; and provide for deer population control when needed.

WAC 232-28-360 2013 Elk special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain special-permit elk hunting opportunity. The purpose is also to balance the hunting opportunity between user groups; increase opportunity when elk populations allow; and reduce opportunity when declining elk numbers warrant a change.

Reasons supporting proposal: This proposal provides recreational elk hunting opportunity and protects elk from overharvest. The proposed amendment would maintain sustainable elk special-permit hunting season opportunities for 2013; address elk damage problems; and provide for elk population control when needed.

WAC 232-28-622 Big horn sheep seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Hunters may apply for a bighorn sheep permit even if they've previously harvested a bighorn sheep in Washington if the earlier harvest was a bighorn sheep killed under a ewe-only hunt permit, a raffle permit, or an auction permit. Language in this amendment clarifies whether the exemption from the once-in-a-lifetime bighorn sheep restriction is also applicable if the hunter applies in future for a hunt in these categories.

Rocky Mountain bighorn sheep populations in the Blue Mountains area of south-eastern Washington have been reduced in past years due to the lingering effects of pneumonia outbreaks. Pneumonia was detected in the Asotin herd in 2012, and biologists expect this herd to decline over the next few years, although a few older rams remain in this herd.

Reasons supporting proposal:

The change in language reduces ambiguity regarding who may apply for a bighorn sheep permit. The reduction in hunting permits for the Blue Mountain area will reduce pressure on a herd that is experiencing a disease problem, and increase the chances for a high quality ram taken from this herd by the winner of the Rocky Mountain bighorn sheep raffle.

WAC 232-28-623 2012-2014 Mountain goat seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Language in this amendment clarifies whether the exemption from the once-in-a-lifetime mountain goat restriction is also applicable if the hunter applies in future for a hunt in these categories.

The proposed amendment also clarifies the names and descriptions of mountain goat hunt areas in Region 4, around Mt. Baker, and establishes legal descriptions of open mountain goat hunt areas.

Reasons supporting proposal:

Changes in language reduce ambiguity regarding who may apply for a bighorn sheep permit; remove inconsistency between the WAC, pamphlet, and instructional letters sent to permit holders; and clarify hunting unit boundaries for mountain goats in the Mt. Baker area.

WAC 232-28-624 Deer area descriptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to separate Deer Area descriptions from Elk Area descriptions to improve the clarity of these rules. The proposal also removes the Puget Sound Islands that were previously described as Deer Areas. The Department is proposing that those islands be described as Game Management Units (GMUs) in the future. Additional language modifications have been made to improve clarity.

Reasons supporting proposal:

Deer Areas help direct hunters at a scale smaller than the GMU and help staff address wildlife conflict problems. Some of the language modifications in this proposed amendment are part of the effort to streamline, reorganize, and update rules in the WAC Overhaul Project currently underway.
