RECOMMENDED ADJUSTMENTS

The following adjustments are proposed since the Code Reviser (CR 102) filing and are already included in your notebook.

Page 3

- Under Early Modern Firearm, Eastern Washington, white-tailed deer, 3 pt. min., Oct. 11-19, after 162 through 186 add (except for Deer Area 1040). This exception allows the Department to implement different hunting season structures inside the Deer Area.

Page 5

- Under Early Archery, Eastern Washington, white-tailed deer, Sept. 1-26, move GMU 149 from white-tailed deer 3 pt. min., to white-tailed deer 3 pt. min. or antlerless. This change corrects a typographical error.

Page 6

- Under Muzzleloader, High Buck Hunt, Sept. 15-25, add Mount Baker to the list of wilderness areas open to the High Buck Hunt. This change corrects a typographical error omission.

SUMMARY OF WRITTEN PUBLIC INPUT
WAC 232-28-357 and 232-28-359:
DEER GENERAL AND SPECIAL PERMIT SEASONS AND
REGULATIONS

Comments	Agency Response
<p>(3) Make ALL big game seasons longer. Hunters can still only take one animal and only have a limited amount of time to apply to their hunting efforts. A hunter can still only harvest one animal. This would spread out hunting pressure and provide all with a more quality hunting experience.</p>	<p>In the last few years the Department has recommended and the Commission has adopted longer seasons for western modern firearm elk and muzzleloader deer. The western modern firearm elk general season used to be 9 days long and was incrementally increased to 12 days. Muzzleloader deer was increased from 7 days to 9 days and now includes 2 weekends rather than 1. The Department's intention is to provide as much recreational opportunity as possible without having a negative impact on the wildlife resource. Longer hunting seasons typically equate to an increase in harvest. If by lengthening the season we are also encroaching further into the breeding season, then harvest will increase even more, because the animals are more vulnerable to harvest during the breeding season. In addition, with all of the user groups vying for an opportunity to hunt, the calendar from September to December already has some form of big game hunting occurring. Any increase for one user group will require a reduction for some other user group. The Department will be engaging in the public process to develop the three-year hunting season package for 2015-2017 in the summer and fall of 2014. We encourage all hunters to participate in that process.</p>
<p>(4) If the multi-season tag is drawn, allow the winners to apply for and DRAW any and all special permits for that species in the entire state. Then the lucky winners of the multi-season tag would have more opportunity to make any choice they wanted upon drawing (or not drawing) their special permits.</p>	<p>The multi-season tag already allows for this. If drawn for the multi-season tag you can apply for any special permit for which you qualify. All multi-season deer tag holders can apply for Quality, Bucks, Antlerless, and 2nd deer regardless of weapon type. All multi-season elk tag holders can apply for Quality, Bulls, and Antlerless regardless of east or west designation and weapon type. In addition both deer and elk multi-season tag holders can apply for youth, 65+, hunters with disabilities, or master hunter if they qualify for</p>

<p>Archery for deer in the late season the day after Thanksgiving is not working. November 20th is a good opening day because the deer are still in the late rut.</p>	<p>In 2014, there are no late archery deer seasons proposed to open the day after Thanksgiving (Nov. 28). Such was the case in 2013 and 2012 as well. Late archery seasons open on a variety of dates dependent on location, deer vulnerability, hunting season objectives, and habitat types, just to name a few. In 2014, late archery openers will range from Nov. 10</p>

	<p>to Nov. 26.</p> <p>You didn't mention where you hunt but if you are hunting a GMU where the late archery opener is tied to the Thanksgiving holiday, it probably opens the day before Thanksgiving. In 2014 that will be Nov. 26. Because Thanksgiving makes a calendar shift every year the archery opener can be as early as Nov. 21 and as late as Nov. 27.</p> <p>The Department will be engaging in the public process to develop the three-year hunting season package for 2015-2017 in the summer and fall of 2014. We encourage all hunters to participate in that process.</p>
<p>Please discuss the opportunity of adding a late muzzleloader season to a local Yakima area game mgmt unit. Could be a good tool for damage control issues in the Cowiche or Cleman units.</p>	<p>The Department is always looking for ways to use hunting seasons to mitigate damage. If the deer damage need was there and muzzleloaders were the most appropriate group for the job, we would have recommended such a season.</p>
<p>I would like to make the recommendation of adding unit 448 to the late blacktail season in November.</p>	<p>The Department will be engaging in the public process to develop the three-year hunting season package for 2015-2017 in the summer and fall of 2014. Such was the case in 2013 and 2012 as well. Late archery seasons open on a variety of dates dependent on location, deer vulnerability, hunting season objectives, and habitat types, just to name a few. In 2014, late archery openers will range</p>

	<p>from Nov. 10 to Nov. 26.</p> <p>You didn't mention where you hunt but if you are hunting a GMU where the late archery opener is tied to the Thanksgiving holiday, it probably opens the day before Thanksgiving. In 2014 that will be Nov. 26. So you have two more hunting days than you thought you had. Because Thanksgiving makes a calendar shift every year the archery opener can be as early as Nov. 21 and as late as Nov. 27.</p> <p>The Department will be engaging in the public process to develop the three-year hunting season package for 2015-2017 in the summer and fall of 2014. We encourage all hunters to participate in that process.</p>
<p>Early and late muzzle loader and bow seasons when I first started, there were certain areas for these methods to be used in. You had a choice of what you wanted to hunt with for the deer or elk season, one season your choice of weapon. There were some specific areas possibly for bow or muzzle loaders. Now the long seasons given to them puts too much strain on the animals. Make the bow hunters and muzzle loaders obey by the same laws as modern rifle hunters unless drawn for a special permit.</p>	<p>Archery hunters and muzzleloader hunters do have to abide by the same basic rules that modern firearm hunters do. Separating the different user groups avoids overlaps in seasons that could be potentially problematic and some would argue unfair. Separating the user groups also helps us reduce some of the crowding during hunting seasons. All hunters can freely select the weapon type that best meets their needs for opportunity and timing of season.</p> <p>The Department will be engaging in the public process to develop the three-year hunting season package for 2015-2017 in the summer and fall of 2014. We encourage all hunters to participate in that process.</p>
<p>The 4 point minimum restriction in GMUs 117 & 121 must be removed. My hunting buddies and I have hunted on the Colville National Forest in GMU 117 each year since 1970. What historically was a successful hunting trip has turned into a glorified camping trip, since it is almost impossible to identify four or more points in the few seconds of opportunity that typically is offered during the hunt.</p>	<p>The 4 pt. minimum antler restriction for white-tailed deer in GMUs 117 and 121 was adopted by the Fish and Wildlife Commission in 2011. This was not the original recommendation by the Department but the Fish and Wildlife Commission made the commitment to constituents to adopt and retain the season structure through the 2014 season before reevaluating.</p>

<p>Dan Marcott Harvest rates and 3 main tools, Archery, muzzleloader and modern refer to the 'normal' hunter. With crop damage and other programs we have, I just want to be sure that department is listening to the disabled hunter. Disabled hunters are discriminated against when it comes to harvest and special permits. Time for change with disabled hunters. A small portion of harvest designated to disabled hunters has remained the same while the baby boomer population coming into retirement age and an age when things go wrong.</p>	<p>Hunters with disabilities can apply for all special permit categories unless they don't qualify for either the Youth or the Senior categories. Hunters with disabilities can hunt any general season as long as they have the appropriate license and transport tag.</p> <p>The Department considers hunters with disabilities when they are addressing wildlife conflict issues. Available access is often a limiting factor in these situations.</p>

Since the rule was adopted in 2011, the last year of the previous three-year package, there was a commitment made to not 'tinker' with the rule for four years, and that the entire 4 pt. restriction would be revisited at the next three-year package, 2015-2017. The staff recommendation is status quo for buck harvest in these two GMUs for 2014. ATTACHMENT A

Amendment to 220-55-040 - Recreational License tag, permit and stamp refund and exchanges

New Section 220-55-172 - Reduced Rate Combo deer hunting license

New Section 220-55-174 - Reduced Rate Combo elk hunting license

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to clarify and expand the rationale for refunding, exchanging, and replacing licenses and tags. In addition, we have received several complaints regarding the price of second deer and elk licenses. This proposal creates discounts for combination licenses and tags.

Reasons supporting proposal:

This proposal will address the complaints about the cost of second deer and elk license and improve the Department's administration of permits and tags and facilitate much improved collection of harvest data.

Amendment to 232-12-047 - Unlawful methods for hunting

Amendment to 232-12-051 - Muzzleloading firearms

Amendment to 232-12-054 - Hunters with Disabilities

New Section 232-12-819 – Special Use Permits

New Section 232-12-825 - NEW SECTION: Definition of a person with a disability

Amendment to 232-12-828 - Hunting of game birds and animals by persons with a disability

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Several rules (232-12-047, 232-12-051, & 232-12-054) are recommended to be amended to delete exceptions for hunters with disabilities from equipment regulations. Exceptions instead will be combined in a new rule (232-12-819) and by amendment to an existing rule (232-12-828). We are recommending that the Department be allowed to issue special use permits to provide reasonable accommodations for persons with a disability. The Department also recommends a change to the definition of a hunter with a disability.

Reasons supporting proposal:

In the past, any time the Department wanted to change the types of equipment necessary for a disabled hunter to participate in an agency hunting program, we needed to have a rule changed to accommodate the request. These changes will allow the Department to issue special use permits as needed to make those accommodations.

In addition, this change will address a petition to the Commission to amend rules to allow scopes on crossbows used by hunters with disabilities and a complaint filed with the Department of Interior. The essence of the complaint was similar to the petition. Nearly all crossbows available on the market today include scopes and modifying them required relatively expensive conversion kits which invalidated the warrantee. Therefore the claim was that the Department was discriminating by creating an economic hardship in not allowing hunters with disabilities to use a crossbow equipped with a scope.

WAC 232-12-242 - Hunting Restrictions

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Reinstate restrictions on night hunting and hound hunting during deer and elk seasons which were inadvertently deleted from the small game seasons last year but not placed in a different section as planned.

Reference to WAC 232-28-285 is removed as it is no longer in effect and reference to WAC 232-12-243 is replaced with reference to RCW 77-15-245 which is the statute authorizing public safety cougar removals.

Reasons supporting proposal:

This rule is important in mitigating conflicts and the potential for unlawful use of dogs to pursue deer and elk and night hunting.

WAC 232-28-248 Special closures and firearm restriction areas

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to adjust the boundary of the Columbia River Restricted Hunting Area hunting closure to better reflect conditions on the ground and also to alleviate trespass on restricted federal lands. The proposal also provides for an exception to allow special permit hunting on the Parker Lake Restricted Hunting Area. In addition the proposal provides for an exception to the modern firearm restriction in the Kittitas firearm restriction area.

Reasons supporting proposal:

Special closures and firearm restriction areas allow the Fish and Wildlife Commission to restrict or close hunting activity in certain areas to optimize safety, discourage trespass on restricted lands, and protect sensitive species.

WAC 232-28-273 2012-2014 Moose seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Increase the current temporal, geographic, and gender scope of the Master Hunter permits in Region 1. Current rules limit Master Hunts permits for moose (10) to antlerless animals only, a season of Dec 1 through the following March 1, and GMUs 124, 127, and portions of 130 within Spokane County. The revision would allow for Master Hunt permits for any moose identified by WDFW as requiring removal, for a season extending from Aug 1 through the following March 1, and extend to area to include all of GMUs 124, 127, 130, 133, 136, 139, and 142.

Additionally, new, experimental archery-only and muzzleloader-only hunts are proposed in the Parker Lake area (within GMU 117) which had previously been closed due to potential conflicts with USAF survival school. This hunt is being coordinated with USAF.

Reasons supporting proposal: Master Hunter permits for moose are intended to provide hunter opportunity where moose are causing damage or are a threat to human safety (typically in or near urban and suburban settings), and these cannot be otherwise resolved. Current restrictions on these permits limit the effectiveness of implementing this objective. This revision will allow for needed flexibility in removing problem moose.

The experimental archery-only and muzzleloader permit hunts are being offered to provide additional hunter opportunity in any area where moose populations can absorb additional harvest.

WAC 232-28-283 2012-2014 . Big game and wild turkey auction, raffle, and special incentive permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: Add to (18) Rocky Mountain Bighorn Sheep Raffle permit GMU 172, and remove GMU 181.

Reasons supporting proposal: Provide hunter opportunity where herd increase has allowed for increase harvest, while reducing permit levels where mortality must be limited.

WAC 232-28-296 Landowner hunting permits

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This proposal modifies hunt dates and permit levels on properties enrolled in WDFW's Landowner Hunting Permit (LHP) program for the 2014 hunting season. These sites offer special hunting opportunities to the public through WDFW's special permit drawings, raffles, or selection by the landowner.

Reasons supporting proposal:

Several years ago, the Fish and Wildlife Commission developed a policy to expand the private lands available to the general public for hunting. One of the programs that was authorized is the Landowner Hunting Permit Program. This program encourages landowners to provide opportunity to the general hunter in exchange for customized hunting seasons and the ability to generate funding to offset the cost of providing public access.

232-28-337 Elk area descriptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is modify the boundary of an existing Elk Area in Region 5 to better address wildlife conflict through special permit elk hunting. The proposal also creates an Elk Area in Region 1 to facilitate elk special permit hunting on newly acquired wildlife area lands.

Reasons supporting proposal:

Elk Areas allow the Commission to distribute hunters more favorably during quality hunts. The proposed language also helps delineate when state authorized elk hunting is and is not allowed at a smaller scale within a GMU. Elk Areas help direct hunters when a scale smaller than the GMU is needed. Elk areas also help staff address wildlife conflict problems at a smaller scale than the GMU when needed.

WAC 232-28-342: 2012-13, 2013-14, and 2014-15 Small game seasons

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Changes proposed increase the possession limit to three times the daily bag for mourning dove (including falconry), band-tailed pigeon, and September Canada goose (except for the two day eastern Washington September season). Other changes include shifting season eastern Washington September goose season dates to occur on weekend days, and increasing the bag limit for the Pacific County September Canada goose season.

Reasons supporting proposal:

The proposed changes will standardize possession limits among all migratory bird seasons and allow increase recreational opportunity on resident Canada geese, while conserving these populations and providing agricultural damage control.

232-28-357 2012-2014 Deer general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general season deer hunting opportunity. The purpose is also to balance the hunting opportunity between user groups. In addition the purpose is to increase opportunity when deer populations allow, and reduce the opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: This proposal provides for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable general deer hunting season opportunities for 2014. The proposal also helps address deer agricultural damage problems and provides for deer population control when needed.

232-28-358 2012-2014 Elk general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general season elk hunting opportunity for 2014. The purpose is also to balance the elk hunting opportunity between user groups. The proposal also increases elk hunting opportunity when elk populations allow, and reduces elk hunting opportunity when declining elk numbers warrant a change.

Reasons supporting proposal: This proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable general elk hunting season opportunities for 2014. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

232-28-359 2014 Deer special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain special permit deer hunting opportunity for 2014. The purpose is also to balance the hunting opportunity between user groups and increase hunting opportunity when deer populations allow. In addition the proposal reduces the deer hunting opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: This proposal provides for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable deer special permit hunting season opportunities for 2014. The proposal also helps address deer agricultural damage problems and provides for deer population control when needed.

232-28-360 2014 Elk special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain special permit elk hunting opportunity for 2014. The purpose is also to balance the elk special permit hunting opportunity between user groups. In addition the proposal increases elk hunting opportunity when elk populations allow, and reduces the opportunity when declining elk numbers warrant a change.

Reasons supporting proposal: This proposal provides recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable elk special permit hunting season opportunities for 2014. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 232-28-622 Big horn sheep seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules: 1) Increase permits in the Asotin herd from 0 to 1. 2) Increase permits in the Lincoln Cliff herd from 1 to 2. 3) Decrease permits in the Cleman Mountain herd from 10 to 8. 4) Increase permits in the Umtanum portion of the Umtanum/Selah herd from 2 to 3. 5) Initiate new ewe-only hunt in the Selah portion of the Umtanum/Selah herd, 5 permits.

Reasons supporting proposal: Provide hunter opportunity where herd increase has allowed for increase harvest, while reducing permit levels where mortality must be limited.

WAC 232-28-623 2012-2014 Mountain goat seasons and permit quotas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

1) Decrease mountain goat permits in the Methow (2-2) goat hunt unit from 1 to 0. 2) Increase mountain goat permits in the Naches Pass (3-6) goat hunt unit from 1 to 2; 3) Increase mountain goat permits in the Bumping River (3-7) goat hunt unit from 1 to 2; 4) Increase mountain goat permits in the Chowder Ridge (4-3) goat hunt unit from 1 to 2. 5) Initiate new conflict-reduction mountain goat hunt in Region 6, GMU 621, with 6 permits.

Reasons supporting proposal: Provide hunter opportunity where herd increase has allowed for increase harvest, while reducing permit levels where mortality must be limited. Reduce conflicts with hikers and possibility of dangerous confrontation on popular hiking trails in Region 6.

232-28-624 Deer area descriptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to add a Deer Area in Pend Oreille County that would facilitate some special permit hunting opportunity on the USAF survival training facility where hunting access did not exist before. The proposal also adds a new Deer Area in Asotin County to facilitate special permit hunting opportunity on newly acquired wildlife area land.

Reasons supporting proposal:

The proposed language allows the Commission to distribute hunters more favorably during quality hunts. Proposed language also helps delineate when state authorized deer hunting is and is not allowed at a smaller scale within a GMU. Deer Areas help direct hunters when a scale smaller than the GMU is needed.

Deer areas also help staff address wildlife conflict problems when needed.
