

Summary

Meeting dates: December 12-13, 2014

Agenda item: Hatchery Scientific Review Group - Willapa Bay Planning Model

Presenter(s): Andy Appleby, Hatchery Scientific Review Group

Background summary:

The Commission has initiated the development of a Willapa Bay Salmon Management Policy (Policy). It is anticipated that the Policy will provide guidance on hatchery reform and fishery management in Willapa Bay. A member of the Hatchery Scientific Review Group, Andy Appleby, will brief the Commission on the principles of hatchery reform and a planning model developed to analyze Policy options.
