2019 Moose Hunt Areas

2019 Moose Hunt Areas

Proposed changes in moose permit levels for 2019

Hunt Name	Permit Season	GMU or boundary	Permits
Antlered Bulls			
49 Degrees North A - Early	Oct. 1-31	GMU 117	15 → 12
49 Degrees North A - Late	Nov. 1-30	GMU 117	15 → 12
Parker Lake - Archery	Sept 1-30	Moose Area 3	2
Parker Lake - Muzzleloader	Oct. 1-31	Moose Area 3	2
Huckleberry A - Early	Oct. 1-31	GMU 121	6 → 10
Huckleberry A - Late	Nov. 1-30	GMU 121	6 → 10
Antlerless			
Huckleberry B	Oct. 1 - Nov. 30	GMU 121	9 → 10

Parker Lake Special Area

- Logging disturbance during autumn 2019
 - Some portions of (already small) area closed
 - Moose may temporarily avoid disturbance
 - Hunters likely to have poor experience
 - Some confusion among hunters permitted for GMU 117 (and auction/raffle permittees) regarding availability of Parker Lake

Text clarifying Parker Lake moose permits

- Note: Moose Area 3 (Parker Lake) is closed to all moose hunters, except those with a Parker Lake special permit. Special permits (both archery and muzzleloader) for Moose Area 3 are temporarily suspended for hunting season 2019 due to local land-uses that conflict with hunting (i.e., no permits will be offered in 2019). If re-opened in future years, applicants should take note that this special hunt is authorized under an agreement with the U.S. Air Force Survival School on a trial basis and will be evaluated based on student safety each year for continuation.
