New Rule(s) Proposed for Adoption

Department staff is requesting the Fish and Wildlife Commission to adopt one of the following three proposed rules.

- WAC 232-12-239 Baiting for the purposes of hunting deer or elk.
- WAC 232-12-245 Baiting for the purposes of hunting deer or elk.
- WAC 232-12-246 Bait volume limits for the purpose of hunting deer or elk.

WAC 232-12-021 Importation and retention of dead nonresident wildlife.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to add Michigan to the list of states and provinces requiring additional processing of deer, elk, and moose carcasses before they can be brought into Washington. The states and provinces listed in the WAC have confirmed chronic wasting disease (CWD) in their wild, free-ranging populations of cervids.

Reasons supporting proposal:

The proposal reduces the risk of CWD being imported into Washington State via carcasses of animals harvested in other states. Reducing disease risk helps in sustaining deer, elk, and moose populations and hunting opportunities in Washington.

WAC 232-12-228 Hunter education deferral.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposed rule changes will remove language pertaining to outdated practices, clarify language, and allow the department (Hunter Education and Licensing Divisions) to provide improved customer service.

Reasons supporting proposal:

The existing rules contain outdated elements that are no longer implemented. The proposal will also enable a much higher level of customer service, including: additional payment methods for the hunter education deferral; reduction or elimination of mail costs and delays; elimination of original and replacement deferral cards; opportunity for immediate hunting license purchase; and minor rule clarifications. Department cost savings will be realized via a reduction in staff time to process deferral applications and fees and the reduction or elimination of mailing and printing costs.

WAC 232-12-239 Baiting for the purposes of hunting deer or elk.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to use bait to hunt deer or elk for all hunters.

Reasons supporting proposal:

In the last three years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process in 2015.

The non-random input the Department received via the website during the 3-year package process indicated that 23% of hunters wanted a ban on baiting with an exception for food plots and agricultural operations. Fourteen percent (14%) of hunters wanted to disallow the use of bait by hunting guides and restrict the manner and volume of baiting by hunters not using guides. A 63% majority of the hunters commenting wanted no change to the rules pertaining to baiting deer and elk.

In a random telephone survey of deer hunters conducted as part of the 2015-17 3-year package, 59% either opposed or strongly opposed baiting for deer. Deer hunters that supported or strongly supported baiting for deer made up 21% of the respondents. Eleven percent (11%) of those surveyed were neutral and 9% didn't know.

In the same random telephone survey, 68% of elk hunters either opposed or strongly opposed baiting for elk. Elk hunters that supported or strongly supported using bait to hunt elk were 14%. Eleven percent (11%) of those surveyed were neutral and 8% didn't know.

Although some potential exists, the Department has no data at this time to suggest that the practice of baiting for deer and elk hunting has a negative population or natural resource effect.

The Fish and Wildlife Commission discussed this issue in March and April 2015 and decided to not make changes to the existing rule (baiting for deer and elk hunting is allowed). Since then, the Department has facilitated further discussion with a group of hunters interested in the issue. That group met several times over the past year. Through that process, and input received from the Game Management Advisory Council in 2015, it is clear that there is no consensus on this issue other than scents and natural agricultural practices should not be considered baiting. Members expressed several points of view ranging from banning all baiting for deer and elk hunting to retaining the ability to bait using any quantity. The committee discussed alternatives to the "all or none" scenario, which resulted in several options that will be presented to the Commission for discussion and possible decision. The Commission will consider options that range from banning all baiting to retaining all baiting, including two specific options that consider a volume limit on the amount of bait allowed.

WAC 232-12-245 Baiting for the purposes of hunting deer or elk.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to hunt deer or elk using bait in excess of 10 gallons and bait located closer than 200 yards from another bait site.

Reasons supporting proposal:

In the last three years the Department has been approached by hunters and landowners that do not approve of the practice of baiting for the purposes of hunting deer or elk. Additional input was received as part of the 3-year hunting season package, public process in 2015.

WAC 232-12-246 Bait volume limits for the purpose of hunting deer or elk.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to further the public discussion regarding hunting deer and elk using bait. If adopted the rule would make it unlawful to hunt deer or elk using bait in excess of 10 gallons.

Reasons supporting proposal:

The Commission will consider options that range from banning all baiting to retaining all baiting, including two specific options that consider a volume limit on the amount of bait allowed.

WAC 232-12-286 Reducing the spread of hoof disease—Unlawful transport of elk hooves.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to allow, under certain circumstances, the legal transport of elk hooves coming from GMUs with treponeme associated hoof disease. The amendment would help facilitate current research on treponeme associated hoof disease and make the emergency rule permanent.

Reasons supporting proposal: This proposal helps facilitate research on treponeme associated hoof disease in elk while also helping reduce the probability of the disease spreading.

WAC 232-12-287 Possession of dead wildlife.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

Currently there is no legal way to salvage and possess deer, elk, or moose that have been killed by a motor vehicle. Per a request by the Fish and Wildlife Commission, the Department has investigated a strategy that would allow salvage and possession of those animals. The proposed amendments to WAC 232-12-287 would facilitate the legal salvage of road-killed deer and elk.

Reasons supporting proposal: This proposal would allow citizens to salvage meat from a deer or elk that has been killed in a vehicle collision.

WAC 232-12-828 Hunting of game birds and animals by persons with a disability.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal is intended to reinstitute a rule that was deleted in 2014 related to shooting firearms from vehicles. The anticipated effects would be greater clarity for hunters and enforcement officers.

Reasons supporting proposal:

Currently, all hunters with disabilities are permitted to shoot from their vehicles under RCW 77.32.238. In 2014, WAC 232-12-828 provided language that described how hunters with disabilities can shoot from a vehicle. This language was removed in preparation for an RCW change that was anticipated in 2015. That RCW change never occurred. Hunters with disabilities currently do not have defined guidance for shooting from a vehicle. Recommended language addition reinstitutes how, when, and where hunters with disabilities may shoot from their vehicles. WDFW Enforcement staff and county prosecutors have requested more defined language. The proposed rule change is recommended to stay in rule until the RCW is changed.

WAC 232-16-740 Columbia, Snake, and Yakima River waterfowl, coot, and snipe closures.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal amends WAC 232-16-740, Columbia, Snake, and Yakima River waterfowl, coot, and snipe closures, to correct an inaccurate boundary description for the closure on the Snake River contained in subsection 6.

Reasons supporting proposal:

Need to provide a clear, accurate description of the boundary for effective enforcement and conservation of migratory bird resources.

WAC 232-28-248 Special closures and firearm restriction areas.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of the proposal is to change the Special Closures and Firearm Restriction Areas rule to clarify a restriction in Grays Harbor County. The restriction in question should only apply during modern firearm deer and elk seasons. The restriction is unnecessary during other times of the year. The restriction still allows hunting to be used as a management tool.

Reasons supporting proposal:

Special closures and firearm restriction areas allow the Fish and Wildlife Commission to restrict or close hunting activity in certain areas and during certain time periods to optimize safety, discourage trespass on restricted lands, and protect sensitive species.

WAC 232-28-283 Big game and wild turkey auction, raffle, and special incentive permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

We are recommending a few minor changes to big game and wild turkey auction, raffle, and special incentive permits hunting for 2016: 1) A new "Three-deer auction permit", valid September 1 - December 31. 2) Allow the Department to extend the areas open to the holder of the single, statewide moose auction permit beyond those open to holders of moose draw permits. 3) Remove GMU 175 from areas available to the holder of the Rocky Mountain bighorn sheep raffle permit.

Reasons supporting proposal:

1) Increase hunter interest in deer hunting and provide additional revenue for the deer/elk section. This was suggested by a citizen group as likely to be attractive to hunters, and will help raise revenue and interest in deer hunting without adverse effects to the resource. This will complement the existing, three-deer raffle permit, which contains similar stipulations.

2) Increase revenue available to monitor moose populations. This was suggested by involved citizens as a way to enhance interest in moose and increase available revenue for moose. For the past 3 years, the Department has documented an expanding front of moose colonization to the west and south of the primary moose areas. We have not had resources to formally survey these areas, but know that there are a few large bull moose that could safely be harvested without interrupting this expansion. We recommend beginning with the auction permit, because hunters bidding for this generally do their own scouting, and thus can actually help us understand moose distribution in these areas.

3) GMU 175 represents the area typically used by the Asotin bighorn sheep herd. Although the herd appears to be slowly rebounding from a disease-related reduction, the number of mature rams has become sufficiently low to generate a biological concern. There are currently an insufficient number of rams in this herd to justify a ram hunt for 2016.

WAC 232-28-286 2016, 2017, and 2018 Spring black bear seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal is intended to establish harvest guidelines for 22 spring bear hunts around the state. The anticipated effects include timber damage or public safety mitigation and providing for hunting recreation within harvest levels described in the 2015-21 Game Management Plan.

Reasons supporting proposal:

Proposed harvest is anticipated to be consistent with the Game Management Plan. In addition, these proposals provide additional tools for landowners to deal with timber damage. Some proposals may help the agency address concerns over public safety.

WAC 232-28-296 Landowner hunting permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This proposal modifies hunt dates on properties enrolled in WDFW's Landowner Hunting Permit (LHP) program for the 2016 hunting seasons. These sites offer special hunting opportunities to the public through permits issued by WDFW, raffles, or selection by the landowner.

Reasons supporting proposal:

Several years ago, the Fish and Wildlife Commission developed a policy to expand the private lands available to the general public for hunting. One of the programs that was authorized was the Landowner Hunting Permit Program. This program encourages landowners to provide opportunity to the general hunter in exchange for customized hunting seasons and the ability to generate funding to offset the cost of providing public access.

WAC 232-28-297 2015-2016, 2016-2017 and 2017-2018 Cougar hunting seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

This proposal includes three alternative options for modifying existing rules. The proposal establishes harvest guidelines for 50 cougar units around the state. Cougar guidelines are designed to provide a long season and hunting opportunity for hunters without the use of dogs (i.e., spot and stalking in snow and/or calling). The anticipated effects are harvest levels consistent with the game management plan, balancing hunting opportunity with sustainable cougar populations.

Reasons supporting proposal:

To provide early and late season hunting opportunity for hunters without the use of dogs (i.e., spot and stalking in snow and/or calling), while maintaining sustainable cougar populations.

WAC 232-28-337 Elk area descriptions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

One new Elk Area is being proposed for Asotin County. The proposed addition is intended to reduce agricultural damage.

A change to Elk Area 6054 in Pierce County is proposed. The purpose is to make the boundary more discernable and make hunts held in the Elk Area more effective at mitigating elk damage.

The proposed change to Elk Area 6064 in Grays Harbor and Jefferson Counties removes some public land that was unnecessarily included. The Elk Area was established due to safety concerns but the original boundary included some USFS lands where this concern does not exist.

The proposal removes one Elk Area (EA 6063) in Grays Harbor and Jefferson Counties that is no longer needed.

Reasons supporting proposal:

Elk Areas allow the Fish and Wildlife Commission to adopt hunting seasons that can be conducted at a smaller scale than the Game Management Unit. Setting seasons at this scale allows for more strategic wildlife management using hunting as a tool to control populations and mitigate wildlife conflict.

WAC 232-28-342 2015-16, 2016-17, 2017-18 Small game and other wildlife seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal amends WAC 232-28-342, 2015-16, 2016-17, 2017-18 Small game and other wildlife seasons and regulations, to specify legal season dates, bag limits, and open areas to hunt small game and other wildlife for the 2016-17 and 2017-18 hunting seasons. In this proposal HIP requirements are removed from WAC 232-28-342 and are included in WAC 232-28-436.

Reasons supporting proposal:

Minor modifications to WAC 232-28-342 are needed to provide additional recreational hunting opportunities for disabled hunters, and consolidate migratory game bird regulations due to changes in the federal regulatory process.

WAC 232-28-358 2015-2017 Elk general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general season elk hunting opportunity for 2016. The purpose is also to balance the elk hunting opportunity between user groups. The proposal also increases elk hunting opportunity when elk populations allow.

Reasons supporting proposal: This proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable general elk hunting season opportunities for 2016. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 232-28-357 2015-2017 Deer general seasons and definitions.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain general season deer hunting opportunity for 2016. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: These proposals provide for recreational deer hunting opportunity and protects deer from overharvest. The proposal would maintain sustainable general deer hunting season opportunities for 2016. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 232-28-359 2015 Deer special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain special permit deer hunting opportunity for 2016. In addition, the purpose of the proposal is to balance the hunting opportunity between user groups. The proposal also increases the opportunity when deer populations allow, and reduces the opportunity when declining deer numbers warrant a change.

Reasons supporting proposal: These proposals provide for recreational deer hunting opportunity and protects deer from overharvest. The proposal would also maintain sustainable deer special permit hunting season opportunities for 2016. The proposal helps address deer agricultural damage problems and provides for deer population control when needed.

WAC 232-28-360 2015 Elk special permits.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The purpose of this proposal is to retain elk special permit hunting opportunity for 2016. The purpose is also to balance the elk hunting opportunity between user groups. The proposal also increases elk hunting opportunity when elk populations allow, and reduces elk hunting opportunity when declining elk numbers warrant a change. The proposal makes minor adjustments to season dates.

Reasons supporting proposal: This proposal provides for recreational elk hunting opportunity and protects elk from overharvest. The proposal would maintain sustainable elk special permit hunting opportunity for 2016. The proposal helps address elk agricultural damage problems and provides for elk population control when needed.

WAC 232-28-436 2015-2016 Migratory waterfowl seasons and regulations.

Purpose of the proposal and its anticipated effects, including any changes in existing rules:

The proposal amends WAC 232-28-436, 2015-16 Migratory waterfowl seasons and regulations, to specify legal season dates, bag limits, and open areas to hunt waterfowl, coot, snipe, band-tailed pigeon, and mourning dove for the 2016-17 hunting season. In this proposal HIP requirements are removed from WAC 232-28-342 and are included in WAC 232-28-436.

Reasons supporting proposal:

Migratory game bird seasons and regulations are developed based on cooperative management programs among states of the Pacific Flyway and the U.S. Fish and Wildlife Service, considering population status and other biological parameters. The rule establishes migratory game bird seasons and regulations to provide recreational opportunity, control waterfowl damage, and conserve the migratory game bird resources of Washington.

WAC 232-28-622 2015-2017 Bighorn sheep seasons and permit quotas.**Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

We are recommending a few minor changes to bighorn hunting for 2016: 1) Discontinuing ewe permits for the Selah Butte herd (which is declining); 2) Adding ewe permits for the Cleman Mountain herd (which is over-abundant); 3) Adding ram permit opportunity for the Swakane and Chelan Butte herds; 4) Adding ewe permits for disabled hunters, as well as a new category of "immature ram" for disabled hunters, both in the Chelan Butte bighorn sheep herd; and 5) making minor adjustments to season dates.

Reasons supporting proposal:

Maintain population size and hunter opportunity and reduce the risk of bacterial infection from domestic sheep/goats by reducing the tendency of animals in over-abundant herds to foray from their core ranges.

WAC 232-28-624 Deer area descriptions.**Purpose of the proposal and its anticipated effects, including any changes in existing rules:**

The proposed changes to the Deer Area Descriptions rule will create three new Deer Areas: one each in Chelan, Kittitas, and Yakima Counties. The proposed additions will accommodate using hunting as a management tool and are intended to reduce agricultural damage in these locations.

Reasons supporting proposal:

Deer Areas allow the Fish and Wildlife Commission to adopt hunting seasons that can be conducted at a smaller scale than the Game Management Unit. Setting seasons at this scale allows for more strategic wildlife management, using hunting as a tool to control populations and mitigate wildlife conflict.

WAC 232-12-021 Importation and retention of dead nonresident wildlife. (1) It is unlawful:

(a) To import or possess dead wildlife, taken in another state or country, into Washington unless such wildlife was acquired lawfully. Proof of legal acquisition must be retained during the period of retention of the carcass or edible parts.

(b) For a person who imports a dead bighorn sheep, mountain goat, cougar or bear to fail to report such importation to the department in writing within ten days of the importation. WAC 232-28-358 2015-2017 Elk general seasons and definitions.

It is unlawful to fail to comply with bag, possession, and season limits described below. A violation of this section is punishable under RCW 77.15.410((7)) Unlawful hunting of big game—Penalty.

Bag Limit: One (1) elk per hunter during the license year, except where otherwise permitted by department rule. Any combination of seasons, tags, and permits set by the department will not exceed a maximum of two (2) elk per hunter during the license year.

Hunting Method: Elk hunters must select only one of the hunting methods: Modern firearm, archery, or muzzleloader.

Elk Tag Areas: Elk hunters must choose either Eastern or Western Washington to hunt in and buy the appropriate tag for that area.

Any Bull Elk Seasons: Open only to the taking of elk with visible antlers; bull calves are illegal.

Antler Point: To qualify as an antler point, the point must be at least one inch long, measured on the longest side.

Branch: A branch is defined as any projection off the main antler beam that is at least one inch long, measured on the longest side, and longer than it is wide.

Spike Bull Antler Restrictions: Bull elk taken in spike-only game management units (GMUs) must have at least one antler with no branches originating more than 4 inches above where the antler attaches to the skull.

Spike-only GMUs: 145-154, 162-186, 249, and 336-368.

True Spike - Bull Antler Restrictions: Neither antler of bull elk taken in GMUs 251, and 328-335 can have branching originating more than 4 inches above where the antlers attach to the skull. Under the true-spike restriction, taking an elk that has two points on one side or antler points within one inch of the definitions regarding length of point, or point of origination, is an infraction under RCW 77.15.160. All other types of violations of the true-spike restriction are subject to current penalties and assessments under RCW 77.15.410 and 77.15.420.

True-spike GMUs: 251, 328-335.

3-point Antler Restrictions: Legal bull elk must have at least 3 antler points on one side, with at least 2 antler points above the ear. Eye guards are antler points when they are at least one inch long. Antler restrictions apply to all hunters during any open season.

3-point GMUs: All of Western Washington, except for GMUs 448, 454, 564, 652 for archers, 666, 684, and Elk Area 4941.

Permit-only Units: The following GMUs are closed to elk hunting during general elk seasons: 157, 371, 418, 485, 522, 556, 621, 636, and 653.

GMUs Closed to Elk Hunting: 437 (except for Elk Area 4941) and 490.
