1. Background/Summary of Project:

The department needed to update and amend the WACs that provided the boundaries for commercial salmon fishing. Some of the markers or landmarks that were listed are no longer there or visible for the fisheries. An analysis and inventory was done so that now we have correct and current markers that can be seen and identified.

2. Reasons for adopting these rules:

This is to clarify the boundaries for commercial fishers. This clearly identifies the areas so that rules and laws can be more enforceable.
