

# RULE-MAKING ORDER

**CR-103E (July 2011)**  
**(Implements RCW 34.05.350)**

**Agency:** Washington Department of Fish and Wildlife

**Emergency Rule Only**

**Effective date of rule:**

**Emergency Rules 14-30**

- Immediately upon filing.
- Later (specify) 12:01 a.m. March 1, 2014

**Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?**

- Yes
  - No
- If Yes, explain:

**Purpose:** Amend recreational fishing rules

**Citation of existing rules affected by this order:**

Repealed: WAC 232-28-61900E  
 Amended: WAC 232-28-619  
 Suspended:

**Statutory authority for adoption:** RCW 77.04.012, 77.04.020, and 77.12.047

**Other authority :**

**EMERGENCY RULE**

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: Steelhead returns to the Tucannon River are not meeting management goals for conservation or for maintaining fisheries and, therefore, the fishery for hatchery steelhead must be constrained to provide more protection for naturally produced steelhead in the Tucannon River. A large component of Tucannon River wild steelhead enters the river in March. The incidental impact to wild steelhead from a recreational fishery is anticipated to increase to unacceptable levels in March. The intent of the recreational fishery is to focus on removal of stray hatchery steelhead that primarily enter the Tucannon River in late summer and fall to prevent them from spawning naturally. There is insufficient time to adopt permanent rules.
