EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: The pre-season forecast is for a return of 500 adult spring Chinook salmon to the Kalama River in 2014. The closure is necessary to provide enough fish to meet the hatchery escapement goal of approximately 450 fish. Recent changes to rules repealed WAC 232-28-619 and split the rule into new WAC sections. Changes to WAC 232-28-619 were needed because the rule was too long, not clearly written or structured. The public will be able to locate and understand requirements more easily because the requirements will be better organized and clearly structured. This emergency rule is to ensure a previously adopted emergency rules provisions remain effective. There is insufficient time to adopt permanent rules.
