EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.
- That in order to implement the requirements or reductions in appropriations enacted in any budget for fiscal year 2009, 2010, 2011, 2012, or 2013, which necessitates the need for the immediate adoption, amendment, or repeal of a rule, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the fiscal needs or requirements of the agency.

Reasons for this finding: In-season run analysis has predicted that about 6,000 salmon are currently enroute to the Icicle River. Although upper Columbia River spring Chinook have been listed as endangered under the Endangered Species Act (ESA), the salmon returning to the Icicle River are a non-endemic stock returning to Leavenworth National Fish Hatchery, and are not listed under the ESA. About 1,600 salmon are needed to meet hatchery broodstock requirements. The 2014 return ensures that the hatchery will meet its escapement needs; the remaining fish will be available for harvest. There is insufficient time to adopt permanent rules.
